No. 1. LAHORE, FRIDAY, JANUARY 6, 1939.

## PART I.
### STATISTICAL.

**Weather and Crop Report for the week ending 8 a.m., Monday, the 2nd January 1939.**

This report deals with the following districts only :—Hissar, Rohtak, Gurgaon, Ambala, Jullundur, Ferozepore, Lahore, Amritsar, Sialkot, Shahpur, Rawalpindi, Mianwali, Lyallpur, Multan and Dera Ghazi Khan.

No abnormal conditions are reported from other districts :—

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for—(a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee | Prospects of Autumn. | Prospects of Spring |
|---|---|---|---|---|---|---|
| 1 | Hissar .. | *Nil* .. | 1. Acute scarcity is being felt except in some Nahri tracts where people are managing on sugarcane and jowar crops.<br>2. (a) Sufficient in Nahri tracts but scarce in Bagar and Barani villages where ponds have generally dried up. (b) Perennial canals are flowing by rotation. Ghaggar canals are dry.<br>3. Cattle are in very poor condition for want of fodder and are being sold or sent out of the district. | Wheat, 12¼ ..<br>Gram, 11.<br>Barley, 15½.<br>Bajra, 12¼.<br>Jowar, 12½ | Yield of sugarcane is below average. | Rain is badly needed. Condition of irrigated standing crops much below average in Hansi tahsil and average in other tahsils. |
| 2 | Rohtak | *Nil* .. | 1. Scarcity of fodder in unirrigated tracts continues. The fodder is being imported on concession rates from outside the district.<br>2. (a) Drinking water in ponds has been exhausted in unirrigated tracts. (b) Canal flowed with insufficient water supply.<br>3 Generally fair. | Wheat, 13½ ..<br>Gram, 11½.<br>Barley, 15¾.<br>Jowar, 15.<br>Bajra, 14<br>Gochni, 12. | Condition of sugarcane is below average. Pressing of sugarcane continues. Outturn is below average. | Condition of standing crops average. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring. |
|---|---|---|---|---|---|---|
| 3 | Gurgaon .. | Nil .. | 1. Scarce in Gurgaon, Rewari, Firozpur-Jhirka, Ballabgarh and in some villages of Nuh tahsil. 2. (a) Drinking water in pools has generally dried up in whole of the district. (b) Canals flowed by rotation in Ballabgarh and Firozpur-Jhirka tahsils. 3. Generally satisfactory. | Wheat, 12 to 13½. Gram, 11½ to 12. Barley, 18 to 19. Bajra, 15. Jowar, 16. | Condition of standing crops average on irrigated and poor to below average on unirrigated areas. Pressing of sugarcane continues. Yield is below average to average on irrigated and poor on unirrigated areas. | Rain is badly wanted. Condition of standing crops average on irrigated and poor to below average on unirrigated areas. |
| 4 | Ambala .. | Nil .. | 1. Sufficient for the present but scarcity is being felt in the whole district. 2. (a) Sufficient. (b) Western Jumna Canal is flowing. 3. Generally satisfactory. | Wheat, white, 12½. Wheat, red, 12½. Gram, 9½. Barley, 17½. | Pressing of sugarcane continues. Yield is below normal. | Rain is badly needed. Condition of standing crops average on irrigated and below average on unirrigated areas. Crops are suffering from draught. |
| 5 | Jullundur .. | Nil .. | 1. Sufficient in Jullundur and Nawanshahr tahsils and insufficient elsewhere. 2. Sufficient. 3. Generally good. | Wheat, white, 13. Wheat, red, 14. Gram, 10½. Barley, 16. Maize, 16. | Pressing of sugarcane continues. Outturn is normal. | Rain is badly needed. Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 6 | Ferozepore .. | Nil .. | 1. Sufficient .. 2. (a) Do. (b) Inundation and perennial canals are flowing with normal supply of water. 3. Generally good. | Wheat, 13 to 14. Gram, 11 to 11½. Barley, 20. | Condition and yield of standing crops average on irrigated and below average on unirrigated areas. | Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 7 | Lahore .. | Nil .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation and the water supply is inadequate. 3. Generally good. | Wheat, 14 .. Gram, 11. Barley, 18. | Condition of standing crops below average. Picking of cotton and pressing of sugarcane continue. Outturn is normal. | Condition of standing crops average. Harvesting of toria continues. Outturn is normal. |
| 8 | Amritsar .. | Nil .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation and the supply of water is sufficient. 3. Good. | Wheat, 16 .. Gram, 11. | Condition and yield of standing crops average on irrigated and below average on unirrigated areas. Pressing of sugarcane continues. | Condition of standing crops average on irrigated and below average on unirrigated areas. Harvesting of toria is in progress. Probable yield is average on irrigated and below average on unirrigated areas. |
| 9 | Sialkot .. | Nil .. | 1. Insufficient .. 2. (a) Sufficient. (b) Upper Chenab canal is flowing but its branches are closed. 3. Generally satisfactory. | Wheat, white, 15½. Wheat, red, 16½. Gram, 10½. Maize, 19. Rice, common, 10. | Yield of sugarcane on the whole normal on irrigated and below normal on unirrigated areas. | Rain is badly needed. Condition of standing crops on the whole average on irrigated and below average on unirrigated areas. |
| 10 | Shahpur .. | Nil .. | 1. Sufficient except in Khushab tahsil. 2. (a) Do. (b) Lower Jhelum canal is flowing with adequate supply of water. 3. Generally fair. | Wheat, 15 to 16. Gram, 10¾ to 11. Barley, 20. Bajra, 16. Maize, 16½. | Condition of standing crops above average on irrigated and average on unirrigated areas. Picking of cotton continues. Yield is below average. | Condition of standing crops above average on irrigated and average on unirrigated areas. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring. |
|---|---|---|---|---|---|---|
| 11 | Rawalpindi.. | Nil .. | 1. Sufficient<br>2. (a) Do.<br>3. Fair. | Wheat, 13¼<br>Gram, 10.<br>Barley, 18<br>Jowar, 16.<br>Maize, 20.<br>Bajra, 15. | .. | Condition of standing crops below average in Kahuta and Murree tahsils and average in Rawalpindi and Gujar Khan tahsils. Sowing of wheat continues in parts to some extent. |
| 12 | Mianwali | Nil .. | 1. Sufficient except in Thal tracts of Mianwali and Bhakkar tahsils.<br>2. (a) Sufficient except in Thal tracts of Isa Khel and Bhakkar tahsils.<br>(b) Nammal canal in Mianwali is closed Kurram canal in Isa Khel is flowing satisfactorily.<br>3. Generally fair. | Wheat, 13½<br>Gram, 10.<br>Barley, 16.<br>Bajra, 14.<br>Jowar, 14. | .. | Rain is badly needed. Condition of standing crops average on irrigated and poor to below average to average on un-irrigated areas. Sowings have finished. |
| 13 | Lyallpur .. | Nil | 1. Sufficient<br>2. (a) Do.<br>(b) Canal is flowing satisfactorily.<br>3. Generally good. | Wheat, 15<br>Gram, 11 | Condition of standing crops on the whole normal except in those villages which have been damaged by hailstorm. Picking of cotton and pressing of sugarcane continues. The complaint of immature bursting of bolls in American cotton has decreased. | Condition of standing crops on the whole normal except in those villages which have been damaged by hailstorm. Harvesting of toria has commenced. Sowing of wheat has finished. |
| 14 | Multan | Nil .. | 1. Sufficient ..<br>2. (a) Do.<br>(b) Abdul Hakim branch of Sidhnai canal is flowing regularly while perennial canals from Sutlej and Lower Bari Doab canal are flowing by rotation. The non-perennial canals from Sutlej and inundation canals from Chenab are dry.<br>3. Good. | Wheat, 14<br>Gram, 9¼<br>Barley, 18<br>Jowar, 17½.<br>Bajra, 16½.<br>Maize, 15. | Condition and yield of standing crops generally average except cotton crop of Multan and Kabirwala tahsils and Nili Bar tract of the district, the condition of which is below average for want of canal water. Harvesting of mash and maize and picking of cotton and pressing of sugarcane continue. | Sowing of wheat continues. Condition of standing crops generally average. |
| 15 | Dera Ghazi Khan. | Nil .. | 1. Sufficient except in Pachad tracts.<br>2. (a) Do.<br>(b) Nurdhundi and Qutabdhundi canals are flowing by rotation with sufficient supply of water.<br>3. Good. | Wheat, 15¾.<br>Jowar, 20.<br>Bajra, 20.<br>Gram, 10½. | Condition and yield of standing crops average in Jampur and Rajanpur tahsils and below average in Sanghar tahsil. | Condition of standing crops average. Toria and rapeseed crops have been damaged to some extent by severe cold in Rajanpur tahsil. |

## REMARKS.

WEATHER remained dry. Rain is badly needed. Condition of standing crops (sugarcane, wheat, gram, barley and oilseeds) is generally average on irrigated and below average on unirrigated areas. Damage to oilseeds by severe cold is reported from parts of Dera Ghazi Khan. Pressing of sugarcane and harvesting of toria continues. Yield is generally below normal to normal. Fodder is insufficient in parts of the south-east and west and generally sufficient elsewhere. Drinking water is generally sufficient except in parts of some districts. Supplies of canal water are generally inadequate except in Sirhind canal. Condition of cattle is fair except in parts of Hissar where fodder famine continues. Retail prices in seers per rupee are as follows :—

| | Wheat. Srs. | Wheat. Chs. | Gram. Srs. | Gram. Chs. | Barley. Srs. | Barley. Chs. |

## STATISTICAL.

**Weather and Crop Report for the week ending 8 a.m., Monday, the 9th January, 1939.**

This report deals with the following districts only :—Hissar, Rohtak, Gurgaon, Ambala, Jullundur, Ferozepore, Lahore, Amritsar, Sialkot, Shahpur, Rawalpindi, Mianwali, Lyallpur, Multan and Dera Ghazi Khan.

No abnormal conditions are reported from other districts :—

| No. | Reporting Station. | Rain. | 1. Supply of fodder.<br>2. Water supply for—<br>(*a*) Drinking.<br>(*b*) Canal irrigation.<br>3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of | |
|---|---|---|---|---|---|---|
| | | | | | Autumn. | Spring. |
| 1 | Hissar .. | *Nil* .. | 1. Acute scarcity is being felt except in some Nahri tracts where people are managing on sugarcane and jowar crops.<br>2. (*a*) Sufficient in Nahri tracts but scarce in Bagar and Barani villages where ponds have generally dried up.<br>(*b*) Perennial canals are flowing by rotation.<br>3. Cattle are in very poor condition for want of fodder and are being sold or sent out of the district. | Wheat, 12½<br>Gram, 11.<br>Barley, 15½.<br>Bajra, 12½.<br>Jowar, 12½. | **Condition of sugarcane below average on irrigated areas.** | **Rain is badly needed. Condition of standing crops below average in Hansi and Hissar tahsils and average elsewhere on irrigated areas and bad on unirrigated areas.** |
| 2 | Rohtak | *Nil* .. | 1. Scarcity of fodder in unirrigated tracts continues. The fodder is being imported on concession rates from outside the district.<br>2. (*a*) Drinking water in ponds has been exhausted in unirrigated tracts.<br>3. Generally fair. | Wheat, 12½ ..<br>Gram, 11.<br>Jowar, 14.<br>Bajra, 13.<br>Gochni, 11½. | **Condition and yield of sugarcane below average on irrigated areas. Pressing of sugarcane continues.** | **Condition of standing crops average on irrigated areas.** |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring. |
|---|---|---|---|---|---|---|
| 3 | Gurgaon .. | *Nil* .. | 1. Scarce in Gurgaon, Rewari, Firozpur-Jhirka, Ballabgarh and in some villages of Nuh tahsil. 2. (a) Drinking water in pools has generally dried up in whole of the district. (b) Canal flowed in Palwal, Nuh and Ballabgarh tahsils. 3. Generally satisfactory. | Wheat, $11\frac{1}{3}$ to 13.. Gram, 10 to 11. Barley, 16 to 17. Bajra, 13. Jowar, 15. | Pressing of sugarcane continues. Yield is below average to average on irrigated and poor on unirrigated areas. | Rain is badly needed. Condition of standing crops average on irrigated and poor to below average on unirrigated areas. |
| 4 | Ambala .. | *Nil* .. | 1. Sufficient for the present but scarcity is being felt in the whole district. 2. (a) Sufficient. (b) Western Jumna Canal is flowing. 3. Generally good. | Wheat, white, $11\frac{5}{8}$ Wheat, red, $11\frac{3}{4}$. Gram, $9\frac{5}{16}$. Barley, $17\frac{1}{2}$. | Pressing of sugarcane continues. Yield below normal. | Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 5 | Jullundur .. | *Nil* .. | 1. Sufficient in Jullundur and Nakodar tahsils and insufficient elsewhere. 2. (a) Sufficient. 3. Generally good. | Wheat, white, 13 Wheat, red, 14. Gram, $10\frac{1}{2}$. Barley, 16. Maize, 16. | Pressing of sugarcane continues. Outturn is normal. | Rain is badly needed. Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 6 | Ferozepore .. | *Nil* | 1 Sufficient .. 2. (a) Do. (b) Inundation and perennial canals are flowing with normal supply of water. 3. Generally good. | Wheat, $13\frac{1}{2}$ to 14 Gram, $10\frac{1}{2}$. Barley, 17. | .. | Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 7 | Lahore .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation and the supply of water is inadequate. 3. Generally satisfactory. | Wheat, 14 .. Gram, $10\frac{1}{4}$. Barley, 17. | Picking of cotton and pressing of sugarcane continue. Outturn is normal. | Condition of standing crops average. Harvesting of toria continues. Yield is normal. |
| 8 | Amritsar .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation and the supply of water is sufficient. 3. Fair. | Wheat, 15 Gram, 11. | Condition and yield of sugarcane average on irrigated and below average to average on unirrigated areas. Pressing of sugarcane continues. | Condition of standing crops average on irrigated and below average to average on unirrigated areas. Harvesting of toria continues. Outturn is average on irrigated and below average to average on unirrigated areas. |
| 9 | Sialkot .. | *Nil* .. | 1. Insufficient .. 2. (a) Sufficient. (b) Upper Chenab canal is flowing but its branches are closed. 3. Generally satisfactory. | Wheat, white, 15 Wheat, red, 16. Gram, $10\frac{1}{2}$. Maize, 18. Rice, ordinary, 10. | Yield of sugarcane is normal on irrigated and below normal on unirrigated areas on the whole. | Rain is badly needed. Condition of standing crops on the whole average on irrigated and below average on unirrigated areas. |
| 10 | Shahpur | *Nil* .. | 1. Sufficient except in Khushab tahsil. 2. (a) Ditto. (b) Lower Jhelum canal is flowing with adequate supply of water. 3. Generally fair. | Wheat, 14 to 15 Gram, 10 to 11. Barley, 16 to 20. Bajra, 16 to 17. Jowar, 17 to 20. Maize, 15 to 17 | Condition of standing crops average on irrigated and below average on unirrigated areas. Picking of cotton continues. Outturn below average. | Condition of standing crops average on irrigated and below average on unirrigated areas. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring. |
|---|---|---|---|---|---|---|
| 11 | Rawalpindi .. | 0·02 at Sadar .. 0·35 at Murree. No rain fell at other stations. | 1. Sufficient .. 2. (a) Do. 3. Fair. | Wheat, 12½ .. Gram, 9½. Barley, 17. Maize, 20. Bajra, 15. Jowar, 15. | .. | Condition of standing crops below average. |
| 12 | Mianwali .. | Nil .. | 1. Sufficient except in Thal tracts of Mianwali and Bhakkar tahsils. 2. (a) Sufficient except in Thal tracts of Isa Khel and Bhakkar tahsils. (b) Nammal canal in Mianwali is closed but Kurram canal in Isa Khel is flowing satisfactorily. 3. Generally fair. | Wheat, 13½ .. Gram, 10. Barley, 16. Bajra, 14. Jowar, 14. | . | Rain is badly needed. Condition of standing crops average on irrigated and poor in Isa Khel and below average elsewhere on unirrigated areas. |
| 13 | Lyallpur . | Nil .. | 1. Sufficient .. 2. (a) Do. (b) Canals are closed. 3. Generally good. | Wheat, 15½ .. Gram, 11. | Condition of standing crops on the whole average except in villages which have been damaged by hailstorm. Picking of cotton and pressing of sugarcane continues. The complaint of immature bursting of cotton bolls in American cotton has decreased. | Condition of standing crops on the whole average. Harvesting of toria continues. |
| 14 | Multan | Nil .. | 1. Sufficient .. 2. (a) Do. (b) Karanga branch of Sidhnai canal is flowing with inadequate supply of water while Lower Bari Doab and perennial canals from Sutlej are flowing by rotation. The non-perennial canals from and inundation canals from Chenab are dry. 3. Generally good. | Wheat, 14 .. Gram, 9½. Barley, 18. Jowar, 17½. Bajra, 16. Maize, 15. | Condition and yield of standing crops generally average except Desi cotton of Multan, Kabirwala tahsils and Nili Bar tract of the district, the condition of which is below average for want of canal water. Harvesting of mash and maize and pressing of sugarcane continue. | Condition of standing crops below average for want of rains and due to excessive cold. Yield of toria is below normal.. |
| 15 | Dera Ghazi Khan. | Nil .. | 1. Sufficient except in Pachadh tracts. 2. (a) Do. (b) Nurdhundi and Qutabdhundi canals are flowing by rotation with sufficient supply of water in Jampur tahsil and with insufficient supply of water in Rajanpur tahsil. 3. Good. | Wheat, 18. .. Jowar, 21. Bajra, 20. Gram, 11. | Condition and yield of standing crops average. | Condition of standing crops average. Damage to oilseeds by severe cold is reported from Rajanpur tahsil. |

## *REMARKS.*

Weather remained practically dry. Rain is badly wanted. Condition of standing crops (sugarcane, wheat, gram, barley and oilseeds) is generally average on irrigated and below average on unirrigated areas. Oilseeds are reported to have been damaged by severe cold in parts of Dera Ghazi Khan. Pressing of sugarcane and harvesting of toria continue. Yield is generally below normal to normal. Fodder is generally insufficient. Drinking water is sufficient except in parts of some districts. Supplies of canal water are generally inadequate except in Sirhind canal. Condition of cattle is fair except in parts of Hissar where fodder famine continues. The daily average number of workers at the works in progress in Hissar and Rohtak was 89,873 and 3,164 respectively. Retail prices in seers per rupee are as follows :—

(a) Not available.

Average percentage ratio of current to pre-war prices or unweighted index number = 97.
Unweighted index number of wholesale prices for the second fortnight of December, 1937, was 99.

KATTI RAM,
SUPERINTENDENT,
for Director of Land Records, Punjab.

## SUMMARY OF METEOROLOGICAL CONDITIONS IN THE PUNJAB AND THE NORTH-WEST FRONTIER PROVINCE DURING SEPTEMBER, 1938.

THE revival of the monsoon which occurred in the last week of August was not not maintained and a weakening of its activity occurred during the first week of September, there being only scattered showers in the North-West Frontier Province on the 1st, 2nd, 4th and 6th in the Punjab hills and the adjoining plains between the 2nd and 5th and in south-west Punjab on the 6th. The monsoon thereafter withdrew from the provinces. During the rest of the month there was only occasional thunderstorm activity in these areas, and scattered falls of rain occurred in the east and north Punjab on the 16th and 17th, and in the provinces generally on the 20th, 21st and 23rd—25th.

Unusually warm weather was experienced in the east and north Punjab during the greater part of the month and in the rest of the provinces during the latter half of the month. On the mean of the month, the maximum temperature was for the most part in excess, and the minimum temperature was generally normal.

The total rainfall of the month was in large excess at Khushab, in slight defect in Lyallpur, and in moderate to large defect elsewhere. Cloud amount was in defect. Humidity was in excess at Montgomery and in defect elsewhere.

| Stations. | Maximum temperature: Mean of month. | Maximum temperature: Departure from normal. | Maximum temperature: Highest recorded during month. | Maximum temperature: Date. | Minimum temperature: Mean of month. | Minimum temperature: Departure from normal. | Minimum temperature: Lowest recorded during month. | Minimum temperature: Date. | Departure of monthly mean temperature from normal. | Humidity: Mean at 8 hours. | Humidity: Departure from normal. | Cloud: Mean at 8 hours. | Cloud: Departure from normal. | Rainfall: Number of rainy days. | Rainfall: Departure from normal. (1) | Rainfall: Rainfall | Rainfall: Departure from normal. (2) |

## Published by Authority.

No. 4. LAHORE, FRIDAY, JANUARY 27, 1939.

## PART I.

### STATISTICAL.

**Weather and Crop Report for the week ending 8 a.m. Monday, the 23rd January, 1939.**

This report deals with the following districts only:—Hissar, Rohtak, Ambala, Jullundur, Ferozepore, Lahore, Amritsar, Shahpur, Rawalpindi, Mianwali, Multan and Dera Ghazi Khan.

No abnormal conditions are reported from other districts :—

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for—(a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of — Autumn. | Prospects of — Spring. |
|---|---|---|---|---|---|---|
| 1 | Hissar .. | *Nil* .. | 1. Acute scarcity is being felt except in some Nahri tracts where people are managing on fodder crops of rabi.<br>2. (a) Sufficient in Nahri tracts but scarce in Bagar and Barani villages where ponds have generally dried up.<br>(b) Perennial canals are flowing by rotation. Gaggar canals are dry.<br>3. Cattle are in very poor condition for want of fodder and are being sold or sent out of the district. | Wheat, 12¾ ..<br>Gram, 11.<br>Barley, 14½.<br>Bajra, 12.<br>Jowar, 12. | .. | Rain is badly needed. Condition of standing crops below average in Hissar, Hansi and Bhiwani tahsils and average elsewhere on irrigated and bad on unirrigated areas due to want of rain. The condition of crops in the Gaggar bed is however average. |
| 2 | Rohtak .. | *Nil* | 1. Scarcity of fodder in unirrigated tracts continues. The fodder is being imported on concession rates from outside the district.<br>2. (a) Drinking water in ponds has been exhausted in unirrigated tracts.<br>(b) Canal flowed with insufficient supply of water.<br>3. Poor. | Wheat, 12½ ..<br>Gram, 11.<br>Barley, 16.<br>Jowar, 14.<br>Bajra, 13<br>Gochni, 11¾. | Condition and yield of sugarcane below average on irrigated areas. Pressing of sugarcane continues. | Condition of standing crops average on irrigated areas. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder.<br>2. Water supply for—<br>(a) Drinking.<br>(b) Canal irrigation.<br>3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of — Autumn. | Prospects of — Spring. |
|---|---|---|---|---|---|---|
| 3 | Gurgaon .. | | Report not received. | | | |
| 4 | Ambala .. | 0·06 at Sadr ..<br>0·03 at Kharar.<br>1·33 at Kasauli.<br>Slight rain fell at Rupar.<br>No rain fell at other stations. | 1. Sufficient for the present but scarcity is being felt in the whole district.<br>2. (a) Sufficient.<br>(b) Western Jumna Canal is flowing.<br>3. Generally good. | Wheat, white, 12¾<br>Wheat, red, 13.<br>Gram, 10½.<br>Barley, 17½. | Pressing of sugarcane continues. Yield is below normal. | Rain is badly needed. Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 5 | Jullundur .. | 0·27 at Sadr ..<br>0·22 at Nakodar.<br>0·10 at Phillaur.<br>0·41 at Nawanshahr. | 1. Sufficient in Jullundur and Nawanshahr tahsils and insufficient elsewhere.<br>2. (a) Sufficient.<br>3. Cattle are getting very weak owing to over work. | Wheat, white, 13<br>Wheat, red, 14.<br>Gram, 10½.<br>Barley, 16.<br>Maize, 16. | Pressing of sugarcane continues. Yield is below normal. | More rain is badly needed. Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 6 | Ferozepore .. | 0·30 at Sadr ..<br>0·32 at Moga.<br>0·25 at Zira.<br>0·28 at Ferozepore City.<br>0·21 at Muktsar.<br>0·08 at Fazilka.<br>No rain fell at other stations. | 1. Sufficient ..<br>2. (a) Do.<br>(b) Inundation and perennial canals are flowing with normal supply of water.<br>3. Generally good. | Wheat, 13 ..<br>Gram, 10.<br>Barley, 19. | .. | Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 7 | Lahore .. | 0·22 at Sadr ..<br>0·32 at Kasur.<br>Nil at Chunian. | 1. Sufficient ..<br>2. (a) Do.<br>(b) Canals are flowing by rotation and the supply of water is inadequate.<br>3. Generally satisfactory. | Wheat, 14 ..<br>Gram, 10½.<br>Barley, 16. | Picking of cotton and pressing of sugarcane continues. Outturn is normal. | Condition of standing crops below average. Harvesting of toria continues. Yield is normal. |
| 8 | Amritsar .. | 0·46 at Sadr ..<br>0·31 at Tarn Taran.<br>0·43 at Ajnala. | 1. Sufficient<br>2. (a) Do.<br>(b) Canals are flowing by rotation and the supply of water is sufficient.<br>3. Fair. | Wheat, 15 ..<br>Gram, 11. | Condition and yield of sugarcane average on irrigated and below average on unirrigated areas. Pressing of sugarcane continues. | Condition of standing crops average on irrigated and below average on unirrigated areas. Harvesting of toria continues. Outturn is average on irrigated and below average on unirrigated areas. |
| 9 | Sialkot .. | | Report not received. | | | |
| 10 | Shahpur .. | 0·29 at Sadr ..<br>0·17 at Naushehra.<br>0·05 at Bhalwal.<br>No rain fell at other stations. | 1. Sufficient except in Khushab tahsil.<br>2. (a) Do.<br>(b) Lower Jhelum canal is flowing with adequate supply of water.<br>3. Generally fair. | Wheat, 14 to 16<br>Gram, 10 to 11.<br>Barley, 16 to 19.<br>Bajra, 16 to 17.<br>Jowar, 16 to 20.<br>Maize, 15 to 19. | Condition of standing crops average on irrigated and below average on unirrigated areas. Picking of cotton continues. Outturn is below average. | Rain was useful for standing crops. Condition of standing crops average on irrigated and below average on unirrigated areas. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder.<br>2. Water supply for—<br>(a) Drinking.<br>(b) Canal irrigation.<br>3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring. |
|---|---|---|---|---|---|---|
| 11 | Rawalpindi .. | 0·79 at Sadr ..<br>0·22 at Kahuta..<br>0·10 at Gujar Khan.<br>0·70 at Murree .. | 1. Sufficient ..<br>2. (a) Do.<br>3. Fair. | Wheat, 12½ ..<br>Gram, 9½.<br>Barley, 17½.<br>Maize, 19½.<br>Bajra, 15½.<br>Jowar, 15½. | .. | Condition of standing crops below average. |
| 12 | Mianwali | 0·77 at Sadr ..<br>0·08 at Bhakkar<br>Nil at Isakhel .. | 1. Sufficient except in Thal tracts of Mianwali and Bhakkar tahsils.<br>2. (a) Sufficient except in Thal tracts of Isa Khel.<br>(b) Nammal canal in Mianwali is closed but Kurram canal in Isa Khel is flowing with sufficient supply of water.<br>3. Generally fair. | Wheat, 14½ ..<br>Gram, 10½.<br>Barley, 16.<br>Bajra, 15.<br>Jowar, 14. | . | Rain was useful for standing crops. Condition of standing crops average on irrigated and below average in Mianwali and poor elsewhere on unirrigated areas. |
| 13 | Lyallpur .. | | Re | port not | re ceived | |
| 14 | Multan | Nil .. | 1. Generally sufficient.<br>2. (a) Sufficient.<br>(b) Lower Bari Doab and perennial canals from Sutlej are flowing by rotation while non-perennial canals from Sutlej, Sidhnai and inundation canals from Chenab are dry.<br>3. Good. | Wheat, 15½ ..<br>Gram, 9½.<br>Barley, 18½.<br>Jowar, 17½.<br>Bajra, 16½.<br>Maize, 15. | Condition of sugarcane below average for want of rain, canal water and due to excessive cold. Picking of cotton, pressing of sugarcane and harvesting of mash, etc., continue. Outturn is generally normal except of sugarcane which is below normal. | Condition of standing crops generally average except oilseeds which are below normal for want of rain, canal water and due to excessive cold. |
| 15 | Dera Ghazi Khan. | 0·15 Taunsa ..<br>0·01 at Jampur | 1. Sufficient except in Pachadh tracts.<br>2. (a) Do.<br>(b) Nurdhundi canal is flowing by rotation with sufficient supply of water.<br>3. Good. | Wheat, 17 ..<br>Jowar, 19.<br>Bajra, 19.<br>Gram, 11. | Yield of sugarcane average. | Condition of standing crops average. |

*REMARKS.*

LIGHT rain fell in parts of all the reporting districts except Hissar, Rohtak and Multan. It was useful for standing crops but more rain is badly needed. Condition of standing crops (sugarcane, wheat, gram, barley and oilseeds) is generally average on irrigated and below average on unirrigated areas. Pressing of sugarcane and harvesting of toria continue. Yield is generally below normal to normal. Fodder is generally insufficient. Drinking water is sufficient except in parts of some districts. Supplies of canal water are generally inadequate except in Sirhind canal. Condition of cattle is fair except in parts of Hissar and Rohtak. The daily average number of workers at the works in progress in Hissar and Rohtak was 99, 203 and 4,859. respectively. Retail prices in seers per rupee are as follows :—

| | Wheat. Srs. | Wheat. Chs. | Gram. Srs. | Gram. Chs. | Barley. Srs. | Barley. Chs. |

(a) Not available.

Average percentage ratio of current to pre-war prices or unweighted index number = 99.

Unweighted index number of wholesale prices for the first fortnight of January, 1938, was 101.

KATTI RAM,

SUPERINTENDENT,

*for* Director of Land Records, Punjab.

# Notes on the condition and prospects of crops in each district of the Punjab for the month of December, 1938.

## 1. Hissar District.

There was no rain during the month. It is badly needed. Sowings of rabi crops finished during the month under report. The condition of standing irrigated crops in Hansi tahsil is much below average while in other tahsils it is about average. The condition of unirrigated crops is *nil* for want of rain. The picking of cotton finished. The outturn was nominal and of bad quality. It did not generally bear fruits and was used as fodder. The outturn of sugarcane was below average. It was used also as fodder in some villages. Condition of rice was bad except that standing on low lands. The condition of cattle is very poor due to want of fodder. Animals are being sold and sent outside the district. There was some complaint of cattle disease in a few villages. There is acute scarcity of fodder in the district except some nahri ilaqas where people are managing on sugarcane and jowar of kharif. Arrangements have been made to distribute fodder in kind. The state of public health is good with the exception of some villages where small-pox is reported. Perennial canals remained running on their rotational programme but there is a complaint of short supply of canal water in Bhiwani and Hansi tahsils. There is a scarcity of water in Bagar and Barani tracts where village ponds have dried up. Arrangements have been made to supply canal water in ponds in a few barani villages. Prices of food-stuffs are rising. Famine works are in progress in 23 centres. Spinning centres have also been started. Quilts are also being distributed to the needy and the poor.

## 2. Rohtak District.

No rain during the month under report, consequently there was no sowing of barani rabi crops. Sowing of irrigated wheat, barley, and rapeseed has finished and their germination is satisfactory. Condition of irrigated sugarcane is below average and that of irrigated wheat, gram, barley and rapeseed is average. Pressing of sugarcane continues and its outturn is below average. Scarcity of fodder is greatly felt in the unirrigated tracts of the district and the fodder is imported from outside the district on concession rates. Foot and mouth, rinderpest, hæmorrhagic septicæmia and other unknown contagious diseases are reported in some villages. The condition of cattle is about average. Public health has been satisfactory during the month. Supply of canal water was adequate. Metalling of 2 roads as test works are going on successfully.

## 3. Gurgaon District.

There was no rainfall at all during this month. Rain is badly needed. Due to lack of rain there was no sowing on barani lands. Condition of the standing crops, *i.e.*, sugarcane and cotton of the Kharif harvest and wheat, barley, gram, sarshaf, etc., of the rabi harvest is below average to average on irrigated and very poor on unirrigated sareas. Picking of cotton continued. Yield is below average to average on irrigated areas and poor on unirrigated areas. Sugarcane was also crushed during the month. Yield is reported to be below averege on irrigated areas. Sowing of wheat, barley continues. Due to lack of moisture progress in sowing was slow. Food-grains for the present are available. Fodder is scarce chiefly in Rewari and portion of Gurgaon and Firozpur-Jhirka and a few villages of Nuh and Ballabgarh tahsils. Condition of cattle remained fair. Scarcity of fodder has affected them. Rinderpest and foot and mouth diseases were reported from a few villages of the district. Canal was running in Nuh, Firozpur-Jhirka, Palwal and Ballabgarh tahsils by turn and supply of water was inadequate. The general state of public health remained satisfactary except that some cases of pneumonia occurred in the district due to coldness.

## 4. Karnal District.

There was no rain during the month under report. Rain is badly needed throughout the district. The condition of standing crops on the irrigated area is average and that of unirrigated poor. The expected yield is average on the irrigated and much below average on the unirrigated area. The condition of cattle other than those used in working wells is satisfactory. The plough cattle are becoming very weak on account of insufficient nutration and constant work. There are some complaints of rinderpest and foot and mouth diseases in Kaithal and Panipat tahsils. Public health is satisfactory on the whole but there are some complaints of pneumonia and small-pox in the Panipat tahsil. Canals worked according to their programme. Prices have risen.

5. AMBALA DISTRICT.

No rains except a little showers in tahsil Rupar which were of no use. Rain is badly wanted. No sowing. The condition of standing crops is average on irrigated and very poor on unirrigated areas. The crops are suffering owing to drought. Crushing of sugarcane continued ; yield is below normal. Condition of cattle is generally satisfactory. Public health is generally good. Western Jamna Canal is flowing with adequate supply of water. The prices are rising.

6. SIMLA DISTRICT.

No rainfall. The condition of crops in Simla tahsil is below average and in Kotkhai average owing to scarcity of rain. The condition of cattle on the whole is good, but rinderpest disease is spreading in village Nohari in Kotkhai tahsil and village Deonda in Simla tahsil. The diseased animals of Simla tahsil are under veterinary treatment. Nineteen out of 24 animals have died in both the villages. Public health is good. Water in hill streams is sufficient.

7. KANGRA DISTRICT.

Rainfall during the month was much below average except at Kangra where there was no rainfall. A little unirrigated area was sown with wheat on account of insufficiency of rain which is badly wanted. The condition of the standing crops in the irrigated area is fair and in the unirrigated area is below average on account of scarcity of rain. Cattle are in fair condition. Fodder is generally sufficient. Foot and mouth and rinderpest cattle diseases existed in some parts of the district. Public health is fair. Water in streams and kuhls were sufficient for irrigation purposes. Prices are stationery.

8. HOSHIARPUR DISTRICT.

The rainfall was nominal in the district with the exception of Garhshankar where there was no rain. Sowings were not made during the month on account of the scarcity of the rainfall. Irrigated crops are average whereas the barani crops are below average. If there is no rainfall in the near future the barani crops will fail and the sugarcane will be severely damaged by the frost. Cattle are in good condition but the scarcity of fodder is being felt, Public health is good on the whole. Shahnehr continued working during the month A remarkable rise in the prices is reported on account of the absence of rainfall.

9. JULLUNDUR DISTRICT.

There has been no rainfall in Phillaur and Nawanshar tahsils during the month under report, and the some in Jullundur and Nakodar tahsils was below average. Rain is badly needed. Condition of the standing irrigated crops is average and that of unirrigated is below average. Yield of sugarcane has greatly been affected by drought ; however it is normal. Crushing of sugarcane is in progress but a main portion of this crop is being used in place of fodder. Cattle are generally in good condition but they are used for working the persian wheels day and night and so they have greatly been exhausted and are suffering from overworking. Fodder scarcity is generally felt throughout the district but specially in Phillaur and Nakodar tehsils. Public health is good on the whole.

10. LUDHIANA DISTRICT.

Sowing of rabi crops is now finished. The condition of standing rabi crops both irrigated and unirrigated is about average. Scarcity of rain is being felt in every part of the district. Normal yields are expected. The condition of the cattle has generally remained satisfactory during the month except that the cattle suffered from rinderpest and foot and mouth diseases in certain villages of the Ludhiana and Samrala tahsils. Fodder is also scarcely available to them. Public health generally remained satisfactory, except a few cases of small-pox reported from a few villages of the Ludhiana tahsil. The Sirhand canal has been flowing by warabandi.

11. FEROZEPORE DISTRICT.

There was no rain during the month. The condition of crops is normal. Fodder and drinking water is sufficient. Public health is good. Sirhand canal has been flowing during the month.

12. LAHORE DISTRICT.

With the exception of a few showers of rain at Lahore on 21st December, 1938, there was no rainfall throughout the district during the month under report. Wheat and fodder were sown below the extent of normal. The condition of maize, fodder and vegetables is average and that of sugarcane and cotton below average. Cotton is being picked, sugarcane is being pressed and toria is being harvested. The outturn of former two crops is below average and that of the la ter average. With the exception of a few cases of hæmorrhagic septicæmia reported from Lahore tehsil the general condition of cattle on the whole remained satisfactory. The general condition of public health is good. The canals remained working by rotation, but the water supply was inadequate.

13. AMRITSAR DISTRICT.

Nominal rain fell during the month and rain is badly wanted. There has been sowing of wheat, berrar and fodder in the beginning of the month. The condition of standing crops is average in irrigated and below average in unirrigated areas on the whole. Condition of cattle is fair. Public health is good. Canals are working by rotation and supply is sufficient.

14. GURDASPUR DISTRICT.

The rainfall during the month was below average. Condition of the standing crops is reported to be average in irrigated and below average in unirrigated areas. Condition of cattle is generally good with the exception of some of the villages in Gurdaspur and Batala tahsils where hæmorrhagic septicæmia and rinderpest are reported to be prevalent. Public health is generally good with the exception of some of the villages in Batala, Shakargarh and Pathankot where small-pox is reported to be prevalent. Government canals are closed.

15. SIALKOT DISTRICT.

Rainfall during the month under report in Narowal 0·08, Pasrur 0·10, Daska 0·11 and in Sialkot 0·22 inches, respectively, which was beneficial to the crops. Rain is badly needed. Sowing of wheat, barley and fodder continued during the month. Condition of standing crops is average in the irrigated and below average in the unirrigated areas on the whole. Yield of sugarcane, cotton and toria is normal in the irrigated and below normal in the unirrigated areas on the whole. Condition of cattle is generally satisfactory, but there has been a complaint of haemorrhagic septicæmia, lymphangitis epizootica, small-pox, rinderpest and foot and mouth diseases in certain villages in the district. Public health is generally satisfactory, but there has been a complaint of small-pox disease in certain villages in the district and the District Medical Officer of Health was informed accordingly. Upper Chenab Canal is running but its branches are closed.

16. GUJRANWALA DISTRICT.

The weather remained practically dry and cold. Only a few falls of rain occurred in the isolated parts of the district. Rain is badly needed. Sowings of rabi crops have come to conclusion. Condition of stading crops is generally average. Sugarcane is being used as fodder generally. Gur is also being made but in small quantities. The yield is reported to be about average. Picking of cotton has nearly come to an end. Condition of cattle is generally satisfactory except that in a few villages of the district daba, pir, and hæmorrhagic septicæmia diseases were prevalent. Scarcity of green fodder is being felt in some places while white bhusa is sufficient. State of public health is satisfactory with the exception that in a few villages of the district small-pox remained prevalent slightly. The perennial canals remained working by rotation and there has been no complaint of insufficient supply of canal water.

17. SHEIKHUPURA DISTRICT.

There was no rainfall during the month. Sowing of wheat, barley, gram and fodder remained in progress in Shahdara tahsil. The condition of the standing crops is reported to be average. The outturn is reported to be normal. The condition of the cattle is satisfactory but there is scarcity of green fodder in the whole district. The public health is good with the exception of some villages of Nankana Sahib tahsil where there is complaint of small-pox and pneumonia diseases. The canals kept running rotationally.

18. GUJRAT DISTRICT.

There was practically no rain during the month. The showers received on the 20th and 21st did some good to the standing crops. Sowing of wheat and rabi oil seeds was finished. Condition of standing crops was fair to good in the irrigated and below average in the unirrigated areas. Picking of cotton and the pressing of sugarcane continued with average outturns. Cattle were generally in fair condition. Public health was generally good. However some pneumonia cases took place. Canals remained flowing and there were no complaints regarding water supply. Stocks of foodstuffs were sufficient in markets and with big zamindars.

19. SHAHPUR DISTRICT.

There was a little rainfall varying from 0·15 to 0·42 inches on all raingauge stations except Midh Ranjha, Sahiwal and Naushahra. It was beneficial to standing crops. Sowing of wheat remained in progress. Condition of standing crops is average

and below average in irrigated and unirrigated areas, respectively. Picking of cotton remained in progress with below average outturn. Cattle generally remained in fair condition except for a few complaints of foot and mouth disease in a few villages of Shahpur tahsil. Fodder remained sufficient except in Khushab tahsil. Public health remained satisfactory except for a few complaints of small-pox in a few villages of Shahpur tahsil. Lower Jhelum Canal remained flowing with adequate water supply. All other canals remained closed. Rural development scheme remained in progress in Shahpur tahsil.

20. JHELUM DISTRICT.

There was 0·25, 0·30 and 0·65 inches rainfall in Pind Dadan Khan, Jhelum and Chakwal tahsils, respectively. Rain is badly needed. No sowing during the month under report. The condition of standing crops is below average on the whole. Condition of cattle is average on the whole. The state of public health is generally good. Prices have risen.

21. RAWALPINDI DISTRICT.

The rainfall during the month was above average in Rawalpindi, Kahuta and Murree and below average in Gujar Khan. The condition of standing crops is average in Rawalpindi and Gujar Khan tahsils while it is below average in Kahuta and Murree. The yield is considered to be normal. The condition of cattle is fair throughout the district. Public health is generally good except in some villages of Gujar Khan tahsil where small-pox disease is reported. Prices are as usual.

22. ATTOCK DISTRICT.

Rainfall during the month was below average. It is badly needed. Some sowings of rabi crops have been made in the month. Whatever it rained, proved useful to the standing crops. Condition of crops in irrigated areas is average while that in unirrigated areas is below average. On account of scarcity of rain yield expected in irrigated areas is average and in unirrigated areas below average. The condition of cattle is fair on the whole. Public health is satisfactory on the whole but there is a complaint of small-pox in certain villages.

23. MIANWALI DISTRICT.

Rainfall at Mianwali 0·18, at Isakhel 0·12, and at other stations *nil*. Rain is badly needed. Sowings of rabi crops have finished. Condition of rabi crops is average on irrigated areas but it is from poor to below average on unirrigated areas. Condition of cattle is fair excepting complaints of small-pox in 8 villages, of foot and mouth disease in one village and of haemorrhagic septicaemia in two villages. Public health remained satisfactory on the whole. Nammal canal in Mianwali was closed while Kurram in Isakhel irrigated lands satisfactorily. Season is cold and dry.

24. MONTGOMERY DISTRICT.

There has been no sowing except that of some rabi fodder crops during the month under report. Cotton picking is nearly over hence the kharif crop calls for no remarks. Condition of standing rabi crops is about average but it has been adversely affected by the closure of Lower Bari Doab Canal in Montgomery and Okara tahsils. Condition of cattle remained satisfactory on the whole. Public health remained satisfactory during the month but for the existence of small-pox which was responsible for 95 cases and 16 deaths in 20 villages of the District Board and the towns of Pakpattan, Montgomery and Okara. One fatal case of cerebro-spinal fever was also reported from the Central Jail, Montgomery. Inundation canals remained closed during the month. Nili Bar canals have been flowing by warabandi and Lower Bari Doab Canal remained closed mostly during the month under report on account of annual closure.

25. LYALLPUR DISTRICT.

No rain. The sowing of wheat has finished. The condition of crops is on the whole normal except in the villages affected by hailstorm and in places where cotton has been affected by tirk. The picking of cotton and pressing of sugarcane continue. The outturn of desi and American cotton is 8 and 5 maunds per acre, respectively. The outturn of gur is 20 to 25 maunds per acre. The condition of cattle is generally good. Public health is generally good. Canals are working satisfactorily.

26. JHANG DISTRICT.

The rainfall was below average throughout the district. It was a little beneficial to the standing crops. Wheat, senji, methra and shaftal were sown during the month. The condition of the standing crops is average. The yield of cotton is normal. There is no disease among cattle. Fodder, green or dry, is available. Public health is good except in some villages of Shorkot tahsil where small-pox is reported. Canals are working as usual.

27. MULTAN DISTRICT.

Rain at Multan 0·02 inches and Kabirwala 0·04 inches was nominal. Sowings of wheat, methra, barley, jandal and vegetables continued. Germination is good. Condition of standing kharif crops is generally average except cotton crop of Multan and Kabirwala tahsils and Nili Bar tract of the district, the condition of which is below normal for want of canal water and condition of rabi oilseeds is below normal for want of rains. Harvesting of mash, maize, vegetables, rabi oilseeds, picking of cotton and crushing of sugarcane continued. Outturn is generally normal except cotton crop and rabi oilseeds, the outturn of which is below normal. Condition of cattle is good. Fodder supply was generally sufficient. Thirty-three cases and 10 deaths from small-pox and one case from enteric fever were reported from Multan, Shujabad and Khanewal tahsils only, other parts of the district remained free from all other epidemics. Abdul Hakim and Kanranga branches of Sidhnai canals were flowing while perennial canals from Sutlej were running by rotation. Lower Bari Doab began to flow by rotation in the last week of the month. The inundation canals from Chenab and non-perennial canals from Sutlej were dry. Stock of food-grains and drinking water is sufficient.

28. MUZAFFARGARH DISTRICT.

No rain fell during the month. Sowings of the rabi crops were finished. Crops were average on both classes of soil but rain is badly needed if they are to remain so. Pressing of sugarcane was in progress, the outturn being normal. Complaints of hæmorrhagic septicæmia and contagious fever were reported among cattle in various parts of the district. Green fodder, grazing and white bhusa were available with the exception of the thal where fodder and grazing are insufficient. Complaints of pneumonia were reported among public. Some of the Indus canals are running by rotation with insufficient supplies of water. Prices are rising.

29. DERA GHAZI KHAN DISTRICT.

Rain at Taunsa 0·03 inches which was below average. Sowing of rabi crops was in hand. The condition and expected yield of the standing crops were average. There were some complaints of 'aphra' and rinderpest diseases in Rajanpur tahsil. The fodder was sufficient except in pachahd. Public health was good on the whole but there were complaints of typhoid and pneumonia in Rajanpur tahsil. Only Nurdhundi and Qutabdhundi are flowing by rotation with sufficient supply of water. Prices are rising.

KATTI RAM,

SUPERINTENDENT,

*for* Director of Land Records, Punjab.

OF PUBLIC HEALTH, PUNJAB.

towns (953 males and 853 females), giving a birth rate of 45 *per mille* of population and 1,124 deaths were registered three largest towns were as follows:—Lahore 28 against 24 in the corresponding week of the previous year, Amritsar against 29.

Lahore, and 1 each in Moga, Abohar, Montgomery and Jhang-Maghiana.

AMRIT SINGH, D. P.H.,
STATISTICAL OFFICER,
*for* Director of Public Health, Punjab.

# SUMMARY OF METEOROLOGICAL CONDITIONS IN THE PUNJAB AND THE NORTH-WEST FRONTIER PROVINCE FOR THE MONTH OF OCTOBER, 1938.

WEATHER during the first fortnight of the month was generally dry except for scattered thundershowers in the North-West Frontier Province on the 3rd, 4th and 6th and n the east and north Punjab on the 4th and 5th. Although four western disturbances entered north-west India during the second fortnight only two disturbances, viz., the 2nd and he 4th affected the provinces. The former caused a few falls in the North-West Frontier Province on the 21st and 22nd in the east and north Punjab on the 21st and 23rd and nearly general rain in the Punjab hills on the 22nd, while the latter caused a few falls in the Punjab hills and the North-West Frontier Province on the 30th. The weather was otherwise lry.

There was practically no rain in the south-west Punjab and in the plains of the North-West Frontier Province. Rainfall was in large excess at Ambala, Dalhousie and Lahore, normal at Murree and in defect elsewhere. Cloud amount was in excess at Ambala and normal or in defect elsewhere. Humidity was generally normal or in defect. Maximum temperature was above normal at Multan, Hissar, Ambala, Simla, Ludhiana and Murree, while the minimum temperature was normal except at Rawalpindi where it was n defect.

# SUPPLEMENT TO

# The Government Gazette, Punjab.

**Published by Authority.**

No. 5. LAHORE, FRIDAY, FEBRUARY 3, 1939.

## PART I.

## STATISTICAL.

**Weather and Crop Report for the week ending 8 a.m., Monday, the 30th January, 1939.**

This report deals with the following districts only:—Hissar, Rohtak, Ambala Jullundur, Ferozepore, Lahore, Amritsar, Sialkot, Shahpur, Rawalpindi, Mianwali, Lyallpur, Multan and Dera Ghazi Khan.

No abnormal conditions are reported from other districts :—

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring. |
|---|---|---|---|---|---|---|
| 1 | Hissar .. | 0·02 at Bhiwani No rain fell at other stations. | 1. Acute scarcity is being felt except in some Nahri tracts where people are managing on rabi crops. Arrangements have been made to distribute fodder in kind in the district. 2. (a) Sufficient in Nahri tracts but scarce in Bagar and Barani villages where ponds have generally dried up. (b) Perennial canals are flowing by rotation. 3. Cattle are in very poor condition for want of fodder and are being sold or sent out the district. | Wheat, $12\frac{3}{4}$. Gram, 11. Barley, $14\frac{1}{2}$. Bajra, 12. Jowar, 12. | .. | Rain is badly needed. Condition of standing crops below average in Hansi, Bhiwani and Hissar tahsils and average elsewhere on irrigated areas and generally bad on unirrigated areas. |
| 2 | Rohtak | *Nil* . | 1. Scarcity of fodder in unirrigated areas continues The fodder is being imported on concession rates from outside the district. 2. (a) Drinking water in ponds has been exhausted in unirrigated tracts. (b) Canal flowed with insufficient supply of water. 3. Generally fair. | Wheat, $12\frac{1}{2}$ .. Gram, $11\frac{1}{2}$. Barley, 16. Jowar, $13\frac{1}{2}$. Bajra, 13. Gochni, 12. | Pressing of sugarcane continues. Outturn is below average. | Condition of standing crops about average on irrigated areas. |

GGP

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring |

Yield is below normal. | More rain is badly needed. Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 5 | Jullundur .. | *Nil* .. | 1. Sufficient in Jullundur and Nawanshahr tahsils and insufficient elsewhere.<br>2. (a) Sufficient.<br>3. Cattle have become very thin owing to the excess of work. | Wheat, white, 13<br>Wheat, red, 13½.<br>Gram, 11.<br>Barley, 16.<br>Maize, 17. | Pressing of sugarcane continues. Outturn is normal. | Rain is badly needed. Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 6 | Ferozepore .. | 0·13 at Nathana<br>0·16 at Abohar..<br>No rain fell at other stations. | 1. Sufficient<br>2. (a) Do.<br>(b) Inundation and perennial canals are flowing with normal supply of water.<br>3. Generally good. | Wheat, 13 ..<br>Gram, 10.<br>Barley, 18. | .. | Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 7 | Lahore .. | *Nil* .. | 1. Sufficient ..<br>2. (a) Do.<br>(b) Canals are flowing by rotation and the supply of water was inadequate.<br>3. Generally good. | Wheat, 14 ..<br>Gram, 10½.<br>Barley, 17. | Pressing of sugarcane continues. Outturn is below normal. | Condition of standing crops below average. |
| 8 | Amritsar | *Nil* .. | 1. Sufficient<br>2. (a) Do.<br>(b) Canals are flowing by rotation and the supply of water is sufficient.<br>3 Fair. | Wheat, 15 ..<br>Gram, 10¾. | Pressing of sugarcane continues. Yield is average on irrigated and below average on unirrigated areas. | Condition of standing crops average on irrigated and below average on unirrigated areas. Harvesting of toria is in progress. Probable yield is average on irrigated and below average on unirrigated areas. |
| 9 | Sialkot .. | 0·57 at Sadr ..<br>0·41 at Narowal.<br>0·55 at Pasrur.<br>0·42 at Daska. | 1. Scarcity of fodder is being felt in the district.<br>2. (a) Sufficient.<br>(b) Upper Chenab canal is flowing but its branches are closed.<br>3. Generally satisfactory. | Wheat, white, 14⅓<br>Wheat, red, 16.<br>Gram, 10.<br>Maize, 18.<br>Rice, ordinary, 10. | Yield of sugarcane is below normal. | Rain was beneficial to standing crops but more rain is badly needed. Condition of standing crops average on irrigated and much below average on unirrigated areas on the whole. Yield of toria is normal on irrigated and below normal on unirrigated areas. |
| 10 | Shahpur .. | 0·30 at Nurpur ..<br>0· 5 at Mich Raojha..<br>0·06 at Shahpur.<br>No rain fell at ther stations. | 1. Sufficient except in Khushab tahsil.<br>2. (a) Do.<br>(b) Lower Jhelum canal Southern Branch is flowing with adequate supply of water.<br>3. Generally fair. | Wheat, 13½ to 16<br>Gram, 9 to 10½.<br>Barley, 16 to 18.<br>Bajra, 16 to 17.<br>Jowar, 16 to 18.<br>Maize, 15 to 19. | .. | Rain proved beneficial to standing crops. Condition of standing crops average on irrigated and below average on unirrigated areas. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder.<br>2. Water supply for—<br>(a) Drinking.<br>(b) Canal irrigation.<br>3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring. |
|---|---|---|---|---|---|---|
| 11 | Rawalpindi ... | 0·62 at Gujar Khan.<br>1·27 at Kahuta.<br>2·40 at Murree.<br>Nil at Sadr. | 1. Sufficient ..<br>2. (a) Do.<br>3. Fair. | Wheat, 13 ..<br>Gram, 9½.<br>Barley, 17.<br>Maize, 20.<br>Bajra, 15.<br>Jowar, 16. | .. | Condition of standing crops below average in Rawalpindi and Kahuta tahsils and average elsewhere. |
| 12 | Mianwali ... | *Nil* .. | 1. Sufficient except in Thal tract of Mianwali and Bhakkar tahsils.<br>2. (a) Sufficient except in Thal tract of Isa Khel and Bhakkar Tahsils.<br>(b) Nammal canal in Mianwali is closed while Kurram canal in Isa Khel is flowing satisfactorily.<br>3. Fair. | Wheat, 14<br>Gram, 10½.<br>Barley, 16.<br>Bajra, 15.<br>Jowar, 14. | .. | Rain is badly needed. Condition of standing crops below average in Mianwali and poor in Isakhel and Bhakkar tahsils. |
| 13 | Lyallpur ... | *Nil* ... | 1. Sufficient ..<br>2. (a) Do. ..<br>(b) Canals are flowing satisfactorily.<br>3. Generally goo . | Wheat, 15½ ..<br>Gram, 10½. | Pressing of sugarcane continues. | Condition of standing crops on the whole average. Harvesting of toria continues. |
| | Multan ... | *Nil* .. | 1. Generally sufficient.<br>2. (a) Sufficient.<br>(b) Lower Bari Doab and perennial canals from Sutlej are flowing by rotation while non-perennial canals from Sutlej, Sidhnai and inundation canals from Chenab are dry.<br>3. Good. | Wheat, 15½ ..<br>Gram, 10.<br>Barley, 19<br>Jowar, 17½.<br>Bajra, 17.<br>Maize, 15. | Pressing of sugarcane continues. Yield is below normal. | Condition of standing crops generally normal except rabi oilseeds which are below normal for want of rain, inadequate canal water supply and/or excessive cold. |
| 15 | Jera Ghazi Khan. | *Nil* ... | 1. Sufficient except in Kachadh tracts.<br>2. (a) Do.<br>(b) Nurdhundi canal is flowing with sufficient supply of water in Jampur and with insufficient supply in Rajanpur tahsil.<br>3. Good. | Wheat, 18 ..<br>Jowar, 20.<br>Bajra, 19½.<br>Gram, 11½. | Condition and yield of sugarcane average. | Condition of standing crops average. |

*REMARKS.*

LIGHT rain fell in parts of some districts. It was useful for standing crops but more rain is badly needed. Condition of standing crops (wheat, gram, barley and oilseeds) is generally average on irrigated and below average on unirrigated areas. Pressing of sugarcane and harvesting of toria continue. Yield is generally below normal to normal. Fodder is generally insufficient. Drinking water is sufficient except in parts of some districts. Supplies of canal water are generally inadequate except in Sirhind canal. Condition of cattle is fair except in Hissar. Retail prices in seers per rupee are as follows :—

## PART I.
## STATISTICAL.

**Weather and Crop Report for the week ending 8 a.m., Monday, the 13th February, 1939.**

This report deals with the following districts only:—Hissar, Rohtak Gurgaon, Ambala, Jullundur, Ferozepore, Lahore, Amritsar, Sialkot, Shahpur, Rawalpindi, Mianwali, Lyallpur, Multan and Dera Ghazi Khan.

No abnormal conditions are reported from other districts :—

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for—(a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of | |
|---|---|---|---|---|---|---|
| | | | | | Autumn. | Spring. |
| 1 | Hissar ... | Nil ... | 1. Acute scarcity is being felt except in some Nahri tracts where people are managing on rabi fodder crops. Arrangements have been made to distribute fodder in kind in the district. 2. (a) Sufficient in Nahri tracts, but scarce in Bagar and Barani villages where ponds have generally dried up. (b) Perennial canals are closed. Ghaggar canals are dry. 3. Cattle are in poor condition due to want of fodder. About 75,000 cattle are being maintained on fodder taccavi by the district, besides the cattle in cattle concentration camp. | Wheat, 12½ ... Gram, 11. Barley, 15. Jowar, 12. Bajra, 12½. | ... | Rain is badly needed. Condition of standing crops below average in Hissar, Hansi and Bhiwani tahsils and average elsewhere on irrigated and bad on unirrigated areas. The crops in Ghaggar bed are average. |
| 2 | Rohtak ... | Nil ... | 1. Scarcity of fodder in unirrigated areas continues. The fodder is being imported from outside the district. 2. (a) Drinking water in ponds has been exhausted in unirrigated tracts. (b) Canal flowed with insufficient supply of water. 3. Generally fair. | Wheat, 13 ... Gram, 12. Barley, 16. Jowar, 14. Bajra, 14 Gochni, 12½. | Pressing of sugarcane continues. Outturn is below average. | Condition of standing crops about average on irrigated areas. Sowing of tobacco continues. |

| No | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring |
|---|---|---|---|---|---|---|
| 3 | Gurgaon .. | *Nil* .. | 1. Scarce in Gurgaon, Rewari, Firozpur-Jhirka, Ballabgarh and in some villages of Nuh tahsil. Leaves and branches of trees are used as fodder. 2. (a) Sufficient in wells. Pools have dried up in whole of the district. (b) Canal flowed in Palwal and Ballabgarh tahsils only. Supply of water was insufficient. 3. Generally satisfactory. | Wheat, 11 to 13. Gram, 11. Barley, 16 to 17. Bajra, 13. Jowar, 15. | Pressing of sugarcane continues. Yield is below average to average on irrigated and poor on unirrigated areas. | Rain is badly needed. Condition of standing crops average on irrigated and poor to below average on unirrigated areas. |
| 4 | Ambala .. | 0·03 at Rupar .. 0·07 at Kasauli. No rain fell at other stations. | 1. Quite insufficient.. 2. (a) Sufficient. (b) Western Jumna canal is flowing. 3. Fair. | Wheat, white, 13 Wheat, red, 13½. Gram, 10½. Barley, 17½. | Pressing of sugarcane continues. Yield is below normal. | Rain is badly needed. Condition of standing crops average on irrigated and far below average on unirrigated areas. |
| 5 | Jullundur .. | 0·13 at Sadr .. 0·09 at Phillaur. 0·24 at Nawanshahr, *Nil* at Nakodar. | 1. Sufficient in Jullundur and Nawanshahr tahsils and insufficient elsewhere. 2. (a) Sufficient. 3. Cattle have become very weak owing to the excess of work. | Wheat, white, 13¾ Wheat, red, 14. Gram, 11. Barley, 18. Maize, 18. | Pressing of sugarcane continue . turn is normal. | More rain is badly needed. Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 6 | Ferozepore .. | 0·20 at Sadr .. 0·12 at Zira. 0·15 at Ferozepore City. No rain fell at other stations. | 1. Sufficient except in Ferozepore and Zira tahsils. 2. (a) Sufficient. (b) Inundation and perennial canals are flowing with normal supply of water. 3. Generally good. | Wheat, 14 to 15.. Gram, 11. Barley, 19. | .. | Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 7 | Lahore .. | 0·06 at Kasur .. No rain fell at other stations. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation and the water supply is inadequate. 3. Generally satisfactory. | Wheat, 14½ .. Gram, 10½. Barley, 17. | Pressing of sugarcane continues. Outturn is below normal. | Condition of standing crops below average. Harvesting of toria continues. Outturn is normal. |
| 8 | Amritsar .. | 0·07 at Sadr .. Slight rain fell at Ajnala. Nil at Tarn Taran. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation and the supply of water is sufficient. 3. Fair. | Wheat, 15 .. Gram, 10½. | Pressing of sugarcane continues. Yield is average on irrigated and below average on unirrigated areas. | Condition of standing crops average on irrigated and below average to average on unirrigated areas. |
| 9 | Sialkot .. | 0·12 at Sadr .. 0·03 at Narowal 0·03 at Pasrur .. No rain fell at other stations. | 1. Scarcity of fodder is being felt in the district. 2. (a) Sufficient. (b) Upper Chenab canal is flowing but its branches are closed. 3. Generally satisfactory. | Wheat, white, 14 Wheat, red, 15. Gram, 10. Maize, 17. Rice, ordinary, 9½. | Yield of sugarcane is below normal on irrigated and much below normal on unirrigated areas. | Rain was beneficial to standing crops but more rain is badly needed. Condition of standing crops average on irrigated and much below average on unirrigated areas on the whole. Sowing of tobacco and vegetables continues in some parts of the district. |
| 10 | Shahpur .. | *Nil* .. | 1. Sufficient except in Khushab tahsil. 2. (a) Do. (b) Lower Jhelum canal is flowing with adequate water supply. 3. Generally fair. | Wheat, 13 to 15 Gram, 9 to 10½. Barley, 16 to 19. Jowar, 18. Bajra, 16 to 17. Maize, 15 to 19. | Pressing of sugarcane continues. Outturn is average. | Condition of standing crops average on irrigated and below average on unirrigated areas. Harvesting of toria continues. Outturn is average. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring. |
|---|---|---|---|---|---|---|
| 11 | Rawalpindi ... | 0·26 at Sadr .. 0·05 at Kahuta. 1·40 at Murree. *Nil* at Gujar Khan. | 1. Sufficient ... 2. (a) Do. 3. Generally fair. | Wheat, 14 ... Gram, 10. Barley, 17. Jowar, 15. Bajra, 15. Maize, 20. | ... | Condition of standing crops below average. |
| 12 | Mianwali ... | *Nil* .. | 1. Sufficient except in Thal tracts of Mianwali and Bhakkar tahsils. 2. (a) Sufficient except in some Thal tracts of Isa Khel and Mianwali tahsils. (b) Nammal canal in Mianwali and Kurram canal in Isa Khel are flowing with sufficient supply of water. 3. Generally poor. | Wheat, 14 ... Gram, 11. Barley, 16. Bajra, 16. Jowar, 14. | ... | Rain is badly needed. Condition of standing crops average on irrigated and below average in Mianwali and poor in Isakhel and Bhakkar tahsils on unirrigated areas. |
| 13 | Lyallpur ... | *Nil* .. | 1. Sufficient .. 2. (a) Do. .. (b) Canals are flowing satisfactorily. 3. Generally good. | Wheat, 16½ ... Gram, 11. | Pressing of sugarcane continues. | Condition of standing crops on the whole normal. Harvesting of toria continues. Sowing of vegetables is in progress. |
| 14 | Multan ... | *Nil* .. | 1. Generally sufficient 2. (a) Sufficient. (b) Lower Bari Doab and perennial canals from Sutlej are flowing by rotation while Sidhnai non-perennial canals from Sutlej and inundation canals from Chenab are dry. 3. Good. | Wheat, 15¾ ... Gram, 10. Barley, 19. Jowar, 17. Bajra, 18. Maize, 15. | Pressing of sugarcane continues. Yield is below average. | Condition of standing crops generally normal except rabi oilseeds which are below normal for want of rain, inadequate canal water supply and excessive cold. Harvesting of toria continues. Outturn in below average. Sowing of tobacco and vegitables continues. |
| 15 | Dera Ghazi Khan. | *Nil* ... | 1. Sufficient except in Pachadh tracts. 2. (a) Do. (b) Nurdhundi canal is flowing by rotation with insufficient supply of water. 3. Good. | Wheat, 18 ... Jowar, 20. Bajra, 21. Gram, 11½. | Yield of sugarcane is average. | Condition of standing crops average. Sowing of extra spring crops continues. |

*REMARKS.*

Except for light showers in parts of some districts weather remained dry. Rain is badly needed. Condition of standing crops (wheat, gram, barley and oil-seeds) is generally average on irrigated and below average on unirrigated areas. Pressing of sugarcane, harvesting of toria and sowing of extra spring crops continue. Fodder is generally insufficient. Drinking water is sufficient except in parts of some districts. Supplies of canal water are generally inadequate except in Sirhind and Lower Jhelum canals. Condition of cattle is fair except in Hissar, Jullundur and Mianwali. Retail prices in seers per rupee are as follows :—

# SUPPLEMENT TO

# The Government Gazette, Punjab.

**Published by Authority.**

**No. 8.** LAHORE, FRIDAY, FEBRUARY 24, 1939.

## PART I.
## STATISTICAL.

**Weather and Crop Report for the week ending 8 a.m., Monday, the 20th February, 1939.**

This report deals with the following districts only:—Hissar, Rohtak, Gurgaon, Ambala, Jullundur, Ferozepore, Lahore, Amritsar, Sialkot, Shahpur, Rawalpindi, Mianwali, Lyallpur, Multan and Dera Ghazi Khan.

No abnormal conditions are reported from other districts :—

| No | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring. |
|---|---|---|---|---|---|---|
| 1 | **Hissar** ... | 0·33 at Sadr .. 0·28 at Fatehabad. 0·58 at Hansi. 0·52 at Siwani. 0·66 at Bhiwani. No rain fell at other stations. | 1. Acute scarcity is being felt except in some Nahri tracts where people are managing on rabi fodder crops. Arrangements have been made to distribute fodder in kind in the district. 2. (a) Sufficient in Nahri tracts but scarce in Bagar and Barani villages where ponds have generally dried up. (b) Perennial canals are flowing by rotation, but there is complaint of short supply of canal water. Ghaggar canals are dry. 3 Cattle are in poor condition due to want of fodder. About 75,000 cattle are being maintained on fodder taccavi by the district besides the cattle in cattle concentration camp. | Wheat, 13 Gram, 11. Barley, 15½. Jowar, 12½. Bajra, 12½. | ... | **More rain is badly needed. Condition of standing crops below average in Hissar, Hansi and Bhiwani tahsils and average elsewhere on irrigated and bad on unirrigated areas. The crops in Ghaggar bed are average.** |
| 2 | Rohtak ... | 0·45 at Sadr .. 0·30 at Jhajjar. 0·40 at Sonepat. 0·44 at Gahana. No rain fell at other stations. | 1. Scarcity of fodder in unirrigated areas continues. The fodder is being imported from outside the district on concession rates. 2. (a) Drinking water in ponds has been exhausted in unirrigated tracts. (b) Canal flowed with insufficient supply of water. 3. Generally fair. | Wheat, 13 Gram, 12. Barley, 16. Jowar, 14. Bajra, 14. Gochni, 12½. | **Pressing of sugarcane continues. Outturn is below average.** | **Condition of standing crops about average on irrigated areas and below average in the sailab tracts of Sonepat tahsil. Sowing of extra spring crops continues.** |

| No | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring. |
|---|---|---|---|---|---|---|
| 3 | Gurgaon .. | 0·60 at Sadr .. 0·53 at Farrukhnagar. 0·50 at Jatusana. 0·49 at Rewari. 0·48 at Khol. 0·30 at Tauru. 0·33 at Nuh. 0·16 at Firozepur-Jhirka. 0·70 at Hasanpur. 0·01 at Hothin. 0·82 at Palwal. 0·40 at Sohna. 0·50 at Punahana. 0·82 at Ballabgarh | 1. Scarce in Gurgaon, Rewari, Firozpur-Jhirka, Ballabgarh and in some villages of Nuh tahsil. Leaves and branches of trees are used as fodder. 2. (a) Sufficient in wells. Pools have dried up in whole of the district. (b) Canal flowed in Palwal, Firozpur-Jhirka and Ballabgarh tahsils only with sufficient supply of water. 3. Generally satisfactory. | Wheat, 11 to 13.. Gram, 11. Barley, 16 to 17. Bajra, 13. Jowar, 15. | Pressing of sugarcane continues. Yield is below average to average on irrigated and poor on unirrigated areas. | Rain proved beneficial to standing crops. Condition of standing crops average on irrigated and poor to below average on unirrigated areas. Damage to crops by hailstorms is reported from Palwal and Ballabgarh tahsils. The extent of damage has not yet been reported by the tahsildars concerned. |
| 4 | Ambala .. | 0·70 at Sadr .. 0·17 at Jagadhri. 0·92 at Naraingarh. 0·36 at Kharar. 0·18 at Rupar .. 0·97 at Kasauli. | 1. Quite insufficient.. 2. (a) Sufficient. (b) Western Jumna canal is flowing. 3. Fair. | Wheat, white, 13½ Wheat, red, 13¾. Gram, 10½. Barley, 17½ | Pressing of sugarcane continues. Yield is below normal. | More rain is wanted. Condition of standing crops average on irrigated and poor on unirrigated areas. |
| 5 | Jullundur .. | 0·42 at Sadr .. 0·48 at Nakodar. 0·39 at Phillaur. Nil at Nawanshahr. | 1. Sufficient in Jullundur and Nawanshahr tahsils and insufficient elsewhere. 2. (a) Sufficient. 3. Cattle have become very weak owing to the excess of work. | Wheat, white, 13½ Wheat, red, 13¾. Gram, 11½. Barley, 16. Maize, 19. | Pressing of sugarcane continues. Yield is normal. | More rain is needed. Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 6 | Ferozepore .. | 0·40 at Sadr .. 0·39 at Moga. 0·69 at Zira. 0·65 at Ferozepore City. 0·78 at Muktsar. 0·28 at Fazilka. 0·59 at Jalalabad. 0·04 at Abohar. Nil at Nathana. | 1. Sufficient except in some villages of Zira and Ferozepore tahsils. 2. (a) Sufficient. (b) Sirhind canal is flowing by rotation with normal supply of water. 3. Good. | Wheat, 14 to 15 .. Gram, 11. Barley, 19. | .. | Rain was useful for standing crops. Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 7 | Lahore .. | 0·73 at Sadr .. 0·46 at Chunian 1·21 at Kasur .. | 1. Sufficient .. 2. (a) Do (b) Canals are flowing by rotation and the supply of water is inadequate. 3. Generally good. | Wheat, 15¼ Gram, 11. Barely, 18½. | .. | Condition of standing crops average. |
| 8 | Amritsar .. | 1·71 at Sadr .. 0·93 at Tarn Taran. 0·44 at Ajnala .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation and the supply of water is sufficient. 3. Fair. | Wheat, 15 Gram, 10½. | Pressing of sugarcane continues. Yield is average on irrigated and below average to average on unirrigated areas. | Rain was useful for standing crops. Condition of standing crops average on irrigated and average in Ajnala and below average elsewhere on unirrigated areas. Hailstorm damaged the crops to some extent in 8 villages of Amritsar tahsil. |
| 9 | Sialkot .. | 1·47 at Sadr .. 0·66 at Narowal 1·16 at Pasrur .. 1·43 at Daska .. | 1. Scarcity is being felt in the district. 2. (a) Sufficient. (b) Upper Chenab canal is flowing but its branches are closed. 3. Generally satisfactory. | Wheat, white, $14\frac{5}{16}$ Wheat, red, $15\frac{10}{16}$. Gram, $10\frac{3}{16}$. Maize, 17. Rice, 10. | Yield of sugarcane is below normal. | Rain proved beneficial to standing crops. Condition of standing crops average on irrigated and below average on unirrigated areas. Sowing of vegetables and tobacco continues in some parts. |
| 10 | Shahpur .. | 0·56 at Sadr .. 0·87 at Midh Ranjha. 0·50 at Nurpur .. 0·67 at Naushehra 0·51 at Khushab 0·44 at Shahpur 0·70 at Bhera .. 0·78 at Bhalwal | 1. Sufficient except in Khushab tahsil. 2. (a) Do. (b) Lower Jhelum canal is flowing with adequate water supply. 3. Generally fair. | Wheat, 13½ to 1 Gram, 9 to 11½. Barley, 16 to 19. Jowar, 16 to 18. Bajra, 16 to 17. Maize, 16 to 19. | Pressing of sugarcane continues. Outturn is average. | Rain was beneficial to standing crops. Condition of standing crops average on irrigated and below average on unirrigated areas. Harvesting of toria continues. Outturn is average. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring. |
|---|---|---|---|---|---|---|
| 11 | Rawalpindi ... | 1·12 at Sadr .. 0·95 at Gujar Khan. 1·68 at Kahuta. 3·27 at Murree. | 1. Sufficient ... 2. (a) Do. 3. Generally fair. | Wheat, 14 Gram, 10. Barley, 17. Jowar, 16. Bajra, 15. Maize, 21. | ... | Condition of standing crops below average. |
| 12 | Mianwali ... | 1·35 at Sadr .. 0·70 at Isa Khel 0·71 at Bhakkar | 1. Sufficient except in Thal tracts of Mianwali and Bhakkar tahsils. 2. (a) Sufficient (b) Nammal canal in Mianwali and Kurram canal in Isa Khel are flowing with adequate supply of water. 3. Generally poor. | Wheat, 15 Gram, 11½. Barley, 16½. Bajra, 17. Jowar, 14. | ... | Rain was beneficial to standing crops. Condition of standing crops. average on irrigated and poor in Thal and Dogar circles of Bhakkar tahsil and below average elsewhere on unirrigated areas. |
| 13 | Lyallpur ... | 0·59 at Sadr .. 0·17 at Toba Tek Singh. 0·56 at Jaranwala. 0·51 at Samundri. | 1. Sufficient .. 2. (a) Do. .. (b) Canals are flowing satisfactorily. 3. Generally good. | Wheat, 16½ Gram, 11. | Pressing of sugarcane is nearly finished. | Rain was useful for standing crops. Condition of standing crops on the whole normal. Harvesting of toria is nearly finished. Sowing of vegetables is in progress. |
| 14 | Multan ... | 0·46 at Sadr .. 0·22 at Lodhran ·62 at Shujabad 0·37 at Kabirwala 0·32 at Khanewal | 1. Generally sufficient 2. (a) Sufficient. (b) Perennial canals from Sutlej and Lower Bari Doab are flowing by rotation while Sidhnai, non-perennial canals from Sutlej and inundation canals from Chenab are dry. 3. Good. | Wheat, 15½ Gram, 10. Barley, 19. Jowar, 15. Bajra, 17. Maize, 15. | Pressing of sugarcane continues. Yield is below average. | Condition of standing crops generally normal except rabi oilseeds which are below normal for want of rain, inadequate canal water supply and excessive cold. Harvesting of toria continues. Outturn is below average. Sowing of extra spring crops continues. |
| 15 | Dera Ghazi Khan. | 0·41 at Sadr .. 1·01 at Taunsa. 0·48 at Jampur. 0·67 at Rajanpur. Nil at Fort Munro | 1. Sufficient except in Pachadh tracts. 2. (a) Do. (b) Nurdhundi canal only is flowing by rotation with insufficient supply of water. 3. Good. | Wheat, 18 Jowar, 20. Bajra, 21. Gram, 11¾. | Yield of sugarcane is average. | Condition of standing crops average. Sowing of extra spring crops continues. |

*REMARKS.*

Rain fell in all the reporting districts (maximum in plains 1·71" at Amritsar and minimum 0·01" at Hathin, Gurgaon district). It was beneficial to standing crops. Condition of standing crops (wheat, gram, barley and oil-seeds) is generally average on irrigated and below average on unirrigated areas. Standing crops have been damaged by hailstorm in parts of Amritsar and Gurgaon. Pressing of sugarcane and sowing of extra spring crops continue. Fodder is generally insufficient. Drinking water is sufficient except in parts of some districts. Supplies of canal water are generally adequate in Northern Administration and Western Jumna, Sirhind and Upper Bari Doab Canals and insufficient elsewhere. Condition of cattle is fair except in Hissar, Jullundur and Mianwali. Test Works have been started in parts of Gurgaon and the daily average number of workers employed for the week ending 11th February, 1939 was 1,476. Average percentage ratio of current to pre-war prices or unweighted index number = 98

Unweighted index number of wholesale prices for the fortnight of February, 1938, was 99.

KATTI RAM,
Superintendent,
for Director of Land Records, Punjab.

# Notes on the condition and prospects of crops in each district of the Punjab for the month of January, 1939.

## 1.—Hissar District.

There was practically no rain during the month. It is badly wanted. Sowings of rabi crops have all finished in the very early dates of the month under report. Condition of the standing irrigated crops in Hissar, Hansi and Bhiwani tahsils is below average due to inadequacy of canal water supply while in other tahsils it is average. The irrigated rabi crops are in a bad condition for want of rain but in the Ghaggar bed they are however, average. Sugarcane harvest was over by the first quarter of the month. Its outturn was below average and in some villages it was used as fodder. The condition of cattle in the district is very poor. They have grown very lean and are sold away or sent outside the district. About 75,000 cattle besides cattle camp are maintained by the district on fodder taccavi. There is a keen scarcity of fodder in the district except some nehri ilaqas where people manage on fodder crops of rabi. Arrangements have been made to distribute fodder in kind. Public health is generally good except in a few villages where small-pox and pneumonia prevailed and proved dangerous to some degree. Perennial canals remained running on their rotational turn and the Ghaggar canals were dry. Drinking water is sufficient in nahri villages but its scarcity is felt in bagar and barani tracts where village ponds have generally dried up. Famine relief work is in progress in 25 centres. Spinning centres have also been started. Quilts are also being distributed to the needy and the poor. The prices of foodstuffs suffered no appreciable change.

## 2.—Rohtak District.

No rain during the month under report, consequently there was no sowing of rabi crops. Condition of irrigated sugarcane is below average and that of irrigated wheat, gram, barley and sarshaf is average. Pressing of sugarcane continues and its outturn is below average. Scarcity of fodder is greatly felt in the unirrigated tracts of the district and the fodder is imported from outside the district on concession rates. Foot and mouth, rinderpest, hæmorrhagic septicæmia and other unknown contagious diseases are reported in some villages. The condition of cattle is about average. Public health has been satisfactory during the month. Supply of canal water was not adequate.

## 3.—Gurgaon District.

During the month under report rainfall varied from 0·04 to 0·50 inches at various places in the district and caused some help to the standing crops. The rainfall reported from Hassanpur was above average and other places it was below average. Rain is badly needed. The condition of the standing crops, *i.e.*, sugarcane of the kharif harvest and wheat, barley, gram and sarshaf of rabi harvest is average on irrigated and poor on unirrigated areas. Scarcity of rain and severe cold have damaged the rabi crops in the whole of the district. The crushing of sugarcane continues and the yield is reported to be below average on irrigated and poor on unirrigated areas. Food grains are available for the present, but its scarcity is being felt in the district except Palwal tahsil. Fodder is scarce in whole of the district especially in Rewari and Gurgaon tahsils and the leaves and branches of trees are being used as fodder. Drinking water in wells is sufficient for human beings and cattle. Pools have generally dried up in whole of the district. The condition of cattle remained generally fair. Scarcity of fodder has affected them. Rinderpest disease was also reported from a few villages of the district. Canal flowed in Nuh, Firozpur-Jhirka, Palwal and Ballabgarh tahsils by turn and supply of water was insufficient. The general state of public health remained generally satisfactory except that 144 cases and 25 deaths occurred from small-pox.

## 4.—Karnal District.

There was a slight rainfall during the month but none in Panipat and Thanesar tahsils. Rain is badly needed for the standing crops throughout the district. The condition of standing crops is average on irrigated and poor on unirrigated areas. The expected yield of sugarcane is about normal. The condition of cattle other than those used for working wells though poor is not quite unsatisfactory. The plough cattle are becoming very weak on account of insufficient nutrition and constant work. Rinderpest is reported from eleven villages of Kaithal, Thanesar and Panipat tahsils.

Public health is satisfactory on the whole but smallpox has broken out in Panipat and Kaithal tahsils. Canals worked according to their programme. Prices have risen.

5.—AMBALA DISTRICT.

The rain is below average throughout the district. It benefited the rabi crops to some extent, but it is still badly wanted. No sowing. The condition of standing crops is average on irrigated and very poor on unirrigated areas. The crops are still suffering from drought. Crushing of sugarcane continued, yield is below normal. Condition of cattle is generally satisfactory. Fodder is insufficient. Public health is generally good. Western Jumna canal is flowing with adequate supply of water. The rates of grains are stationary.

6.—SIMLA DISTRICT.

The condition of crops in Simla tahsil is below average and in Kotkhai average owing to scarcity of rain. Condition of cattle is good. Public health is good. Water in hill streams is sufficient.

7.—KANGRA DISTRICT.

Rainfall during the month was much below the average. It was beneficial to standing crops. Some area was sown with wheat during the month. The condition of the standing crops is fair in the irrigated and below average in the unirrigated areas on account of insufficiency of rains. Cattle are in fair condition. Fodder is generally sufficient. Foot and mouth, hæmorrhagic septicæmia and rinderpest cattle diseases existed in some parts of the district. Public health is fair. Smallpox is reported from four villages of Hamirpur and Kulu tahsils equally. Water in streams and kuhls was generally sufficient fo irrigation purposes. Prices are stationary.

8.—HOSHIARPUR DISTRICT.

The rainfall was much below the average throughout the district. However the late sowings of barley were made to some extent in Una tahsil only but to no use, because no rain fell after the sowings were made with the help of the rainfall dated 22nd January, 1939. Irrigated crops were average on he whole because the zamindars have paid full attention to them and shown a great energy to get them well nourished. This was due to the failure of barani crops on account of the scarcity of the rainfall. In short the barani crops are below the average. If there is more rain in the near future the barani crops will yield to some extent. The rainfall on 22nd January, 1939, has saved the sugarcane crop from the expected damage by the frost. Cattle are healthy but the scarcity of fodder which is being felt is going against them. Public health is good on the whole. Shahnahr remained closed during the month.

9.—JULLUNDUR DISTRICT.

Rainfall is below average throughout the district. It is badly needed. This has effected the standing crops nominally. Condition of the standing irrigated crops is average and that of unirrigated is below average. Yield of sugarcane has greatly been affected by drought, however, it is normal. Crushing of sugarcane is in progress, but a main portion of this crop is being used in place of fodder. Cattle have become very thin owing to the excess of work. Deficiency of rainfall has pressed the zamindars to work on the persian wheels day and night. Fodder scarcity is generally felt throughout the district but specially in Phillaur and Nakodar tahsils. Public health is good on the whole.

10.—LUDHIANA DISTRICT.

Sowing of vegetables has now begun. The condition of standing irrigated crops is about normal and that of unirrigated crops is below normal due to dearth of rain this year. About average yields are expected in the case of irrigated crops and below average in the case of unirrigated crops. The condition of the cattle remained satisfactory on the whole except that cattle suffered from foot and mouth and rinderpest in certain villages. Fodder is scarcely available for them. Public health generally remained satisfactory except a few cases of smallpox which are reported from certain villages. The Sirhind canal has been flowing by warabandis.

11.—FEROZEPORE DISTRICT.

There was some rain in the district except Jalalabad as no report has so far been received from that station. Condition of the crops is normal. Fodder and drinking water is sufficient. Public health is good. Sirhind canal has been flowing during the month.

12.—LAHORE DISTRICT.

There was no rainfall in Chunian tahsil during the month under report but the rainfall in Kasur and Lahore tahsils though below normal benefited the standing crops.

The condition of wheat, gram, barley, vegetables and fodder is average and that of sugarcane is below average. Sugarcane is being pressed and toria is being harvested; the outturn is below normal and normal respectively. With the exception of a few cases of rinderpest reported from Lahore tahsil, the general condition of cattle on the whole remained satisfactory. The general condition of public health is good. The canals remained working by rotation, but the water supply was inadequate.

13.—Amritsar District.

The rainfall during the month was below average. It is badly wanted. The condition of standing crops is average in irrigated and below average in unirrigated areas on the whole. Condition of cattle is fair. Public health is good. Canals are working by rotation and the supply is sufficient.

14.—Gurdaspur District.

The rainfall was much below average. Condition of standing crops is below average for lack of rain. Pressing of sugarcane continues and the outturn is average. Condition of cattle is generally good except a slight complaint of rinderpest reported in some villages of the Batala tahsil. Public health is generally good. A few cases of small-pox have been reported in some parts of the district. Government canals are closed.

15.—Sialkot District.

Rainfall during the month under report in Narowal 0·44, Pasrur 0·80, Daska 0·42 and in Sialkot 0·76 inches. It was beneficial to the standing crops. Rain is badly needed. Sowing of wheat continued in some parts of the district. Condition of standing crops is average in the irrigated and much below average in the unirrigated areas on the whole. Yield of sugarcane and toria is normal in the irrigated and below normal in the unirrigated areas on the whole. Condition of cattle is generally satisfactory, but there has been a complaint of lymphangitis epizootica, hæmorrhagic septicæmia, rinderpest, foot and mouth and 'aphra' diseases in certain villages in the district. Public health is generally satisfactory, but there has been a complaint of small-pox disease in certain villages in the district and of pneumonia disease in village Jethike in the Daska tahsil and the District Medical Officer of Health was informed accordingly. Upper Chenab canal is running, but its branches are closed. Scarcity of fodder is being felt in the district.

16.—Gujranwala District.

Except for a few showers of rain all over the district the month remained practically dry. These showers were however welcomed and proved beneficial to the standing crops to some extent. More rain is badly needed. Condition of standing crops is generally below average to average on irrigated and below average on unirrigated areas due to scarcity of rain. Toria crop is being harvested in some parts of the district and its yield is reported to be average. The condition of cattle is on the whole satisfactory. However in a few villages of the district 'daba', hæmorrhagic septicæmia diseases were prevalent. Necessary precautionary measures were adopted by the Department concerned. Green fodder is running short. Bhusa is sufficient. State of public health is satisfactory except that small-pox was prevailing in a few villages. Canals remained working by rotation. There was no complaint of insufficient supply of canal water.

17.—Sheikhupura District.

The amount of rainfall during the month under report is as given below, Sheikhupura 0·18, Shahdara 0·22, Nankana Sahib 0·10 inches. Rainfall is light; still it proved beneficial to the standing crops. More rain is badly wanted. The condition of the standing crops is reported to be normal. The condition of the cattle is satisfactory, but there is scarcity of green fodder in the district. There is complaint of *pir* disease in Nankana Sahib tahsil. The public health is good with the exception of some villages of Nankana Sahib tahsil where there is complaint of small-pox disease. The canal kept running rotationally.

18.—Gujrat District.

There was moderate rainfall all over the district varying from 0·40 to 0·69 inches. More rain is wanted. It benefited the standing crops considerably. Condition of standing crops was fair to good in the irrigated and unirrigated areas. Picking of cotton was finished and pressing of sugarcane continued with average outturns. Cattle were generally

in fair condition. Some cases of pneumonia were reported from various places otherwise public health was generally fair. Canal remained flowing and there were no complaints of supply. Stocks of foodstuffs were sufficient in markets and with big zamindars.

19.—SHAHPUR DISTRICT.

There was a little rainfall varying from 0·05 to 0·40 inches at all raingauge stations except Sahiwal, Khushab and Bhera raingauge stations. It was beneficial to standing crops. No crop was sown in this month. Condition of standing crops remained average and below average in irrigated and unirrigated areas, respectively. Harvesting of toria and pressing of sugarcane remained in progress with average outturn. Cattle generally remained in fair condition except for a few complaints of foot-and-mouth disease in a few villages of Shahpur tahsil. Public health remained satisfactory except for a few complaints of smallpox. Southern and northern branches of Lower Jhelum Canal remained flowing turn by turn with no complaint of water supply. All other canals remained closed. Rural development scheme remained in progress in Shahpur tahsil.

20.—JHELUM DISTRICT.

There was 0·32, 0·93 and 0·57 inches rainfall in Pind Dadan Khan, Jhelum and Chakwal tahsils, respectively, which proved beneficial to the standing crops. Rain is still needed. The condition of the standing crops is average in the irrigated and below average in the unirrigated areas. The condition of cattle is average. Fodder is wanted. The state of public health is generally good. Prices are stationary.

21.—RAWALPINDI DISTRICT.

The rainfall during the month was below average except in Murree tahsil where it was above average. The condition of standing crops of irrigated area of Rawalpindi tahsil and of unirrigated area of Murree tahsil is average. It is about average in Gujar Khan tahsil and as regards unirrigated areas of Rawalpindi and Kahuta tahsils it is below average. The yield is considered to be normal. The condition of cattle is fair except in some villages of Gujar Khan where foot-and-mouth disease is reported. The public health is generally good except in some villages of Gujar Khan tahsil where smallpox is reported. Prices are stationary.

22.—ATTOCK DISTRICT.

Rainfall during the month is below average. It is badly needed. No sowing were made during the month. The condition of standing crops in irrigated area is average to good while that of unirrigated area is below average. The average yield is expected. Condition of cattle is fair on the whole, but contagious diseases were reported in certain villages of Attock, Fatehjang and Pindigheb tahsils, respectively. Public health is satisfactory, but 106 cases and 22 deaths are reported on account of smallpox disease. Scarcity of fodder is being felt in some tracts of the district.

23.—MIANWALI DISTRICT.

Rainfall at Mianwali 0·77, at Isakhel *nil*, and at Bhakkar 0·08 inches. Rain is badly needed for the improvement of standing rabi crops. No sowings in hand. Condition of rabi crops is average on irrigated areas, but it is below average in Mianwali and poor in Isakhel and Bhakkar tahsils on unirrigated areas. Condition of cattle is fair excepting complaints of smallpox and hæmorrhagic septicæmia in a few villages of Mianwali and Bhakkar tahsils. Fodder is available in Isakhel tahsil, but its scarcity is felt in Thal tracts of Mianwali and Bhakkar tahsils. State of public health remained satisfactory on the whole, however, smallpox was prevalent in two villages of Mianwali tahsil and one village of Isakhel tahsil, but precautionary measures were adopted by the Health Department. Nammal canal in Mianwali remained closed, while Kurram canal in Isakhel watered lands sufficiently. Season is cold and dry.

24.—MONTGOMERY DISTRICT.

There have been no sowings except those of extra rabi crops during the month. The condition of standing rabi crops is about average. Average yields are expected. Condition of cattle remained satisfactory on the whole. The Public Health remained disturbed by the existence of smallpox. One hundred and sixty-eight cases and 23 deaths took place at 45 villages in the district board area and the towns of Okara, Pakpattan and Montgomery. Sixteen thousand four hundred and seventy-three persons were protected against the disease by means of vaccination (2,261 primary and 14,212 re-vaccination). The Sutlej Valley Project and Lower Bari Doab canals remained closed for full month and 15 days, respectively, during the month under report. The latter has been running regularly by warabandis during the second half of the month.

25.—LYALLPUR DISTRICT.

Rain at Toba Tek Singh 0·05, Samundri 0·14, Lyallpur 0·29, and at Jaranwala 0·30 inches. The sowing of vegetables has commenced. The condition of the standing crops is on the whole normal. The picking of cotton has finished. The pressing of sugarcane continues. Harvesting of toria has commenced. The yield of cotton (American) and desi is 100 and 70 per cent. of the normal, respectively. The yield of gur is 90 per cent. of the normal. There is a complaint of galghotu in Chak No. 348-J. B. of Toba Tek Singh, 124-G. B. of Jaranwala, 51, 62, 64-J. B. 159 and 161-R. B. of Lyallpur of foot and mouth in Chak Nos. 134 and 196-G. B. of Samundri, 70-R. B. of Jaranwala and of smallpox in Chak Nos. 58, 74, 382 and 570-G. B. of Jaranwala tahsil. There is a complaint of smallpox in Chak Nos. 58, 274, 101-G. B. and 193-R. B. of Jaranwala, Chak Nos. 409 J. B. of Toba Tek Singh and Chak Nos. 451, 452 and 212-G. B. of Samundri tahsil. Canals are working satisfactorily.

26.—JHANG DISTRICT.

No rainfall at Shorkot. The rainfall was below average in Chiniot and Jhang tahsils. It was beneficial to the standing crops. Vegetables, onions and melons are being sown. The condition of the standing crops is below average. Yield is expected to be below normal. There is no disease among cattle. Fodder (green and dry) is available. Public health is good except some villages where pneumonia is reported. Canals are working as usual.

27.—MULTAN DISTRICT.

No rain. Sowings of methra, barley and vegetables and plantation of sugarcane continued. Germination is good. Condition of standing kharif and rabi crops is generally average except oilseeds, cotton and sugarcane the condition of which was below average owing to want of rainfall, due to excessive cold and inadequate supply of canal water. Harvesting of mash, maize, vegetables and rabi oilseeds, picking of cotton and crushing of sugarcane continued, outturn is generally normal except oilseeds, sugarcane and desi cotton the outturn of which is below normal. The decrease of yield of oilseeds and sugarcane is due to the reasons explained above while that of cotton desi is due to the deficiency of canal water. Condition of cattle is generally good except Chak No. 109/15-L. of Khanewal tahsil wherefrom some complaints of hæmorrhagic septicæmia were reported. The tahsildar concerned informed the Veterinary Assistant to take preventive measures. Supply of fodder was generally sufficient. Seven cases and four deaths from smallpox were reported from Multan city, Lodhran and Mailsi tahsils. The weather was dry and a few complaints of pneumonia were also reported otherwise the district was free from all other epidemics. Lower Bari Doab and perennial canals from Sutlej were running by rotation, while Sidhnai non-perennial canals from Sutlej and inundation canals from Chenab were dry. Drinking water and stocks of foodgrains were sufficient.

28.—MUZAFFARGARH DISTRICT.

With the exception of light showers in Leiah tahsil no rain fell during the month. The sowings of vegetables commenced in some places. The condition of the standing crops on both classes of soil was below average. No crop was harvested with the exception of sugarcane of which the outturn per acre was about normal. In some places complaints of hæmorrhagic septicæmia and smallpox were reported among cattle. White bhusa, grazing and green fodder were available in the Thal tract where grazing and green fodder are insufficient, giving cause for serious anxiety and entailing severe hardship on the people. There were complaints of pneumonia and malaria in the district. Some of the Indus canals are running by rotation with small quantities of water. Both the rivers are low. Prices are stationary.

29.—DERA GHAZI KHAN DISTRICT.

Rain at Taunsa 0·15″ and Jampur 0·01″ which was below average. Sowing of extra spring crops continued. Condition and expected yield of the crops are average. No cattle disease. The fodder was sufficient except in Pachahd tracts. The public health was on the whole good but there was some complaint of fever in Rajanpur tahsil only. Only Nurdhundi flowed by rotation with sufficient supply of water. Prices are stationary.

OF PUBLIC HEALTH, PUNJAB.

towns (917 males and 803 females), giving a birth rate of 43 *per mille* of population and 952 deaths were registered three largest towns were as follows:—Lahore 22, against 22 in the corresponding week of the previous year, Amritsar against 17.

in Lahore, 2 in Jhang-Maghiana and 1 each in Hoshiarpur, Ludhiana, Ferozepore and Chiniot.

M. YACOB, Dr. P.H.,
PERSONAL ASSISTANT,
*for* Director of Public Health, Punjab.

## SUMMARY OF METEOROLOGICAL CONDITIONS IN THE PUNJAB AND THE NORTH-WEST FRONTIER PROVINCE DURING NOVEMBER, 1938.

Six western disturbances entered north-west India during the month. Of these the second and the fifth did not affect the provinces. The first caused a few light showers in the hills on the 2nd; the third was responsible for scattered thunder-showers in the Punjab hills on the 18th; the fourth caused local rain or snow there on the 20th and 21st, while the last gave a few falls in the North-West Frontier Province on the 27th.

The total rainfall of the month was in large defect except at Simla where it was in slight excess. Cloud amount was in excess at Parachinar and normal or in defect elsewhere. Humidity was in excess at Lahore and Cherat and normal or in defect elsewhere. Maximum temperature was above normal at Ludhiana and normal or in defect elsewhere. Minimum temperature was generally below normal.

## PART I.
### STATISTICAL.

**Weather and Crop Report for the week ending 8 a.m., Monday, the 27th February, 1939.**

This report deals with the following districts only :—Hissar, Gurgaon, Ambala, Jullundur, Ferozepore, Lahore, Amritsar, Sialkot, Shahpur, Rawalpindi, Mianwali, and Dera Ghazi Khan.

No abnormal conditions are reported from other districts :—

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring. |
|---|---|---|---|---|---|---|
| 1 | Hissar .. | 0·54 at Sadr .. 0·45 at Sirsa 0·70 at Hansi. 0·72 at Bhiwani. 2·00 at Budhlada. 0·85 at Siwani. | 1. Acute scarcity is being felt except in some Nahri tracts where people are managing on rabi fodder crops. Arrangements have been made to distribute fodder in kind in the district. 2. (a) Sufficient in Nahri tracts but scarce in Bagar and Barani tracts where ponds have generally dried up except in a few villages where the recent showers have collected a little water in ponds. (b) Perennial canals are flowing by rotation. Ghaggar canals are dry. 3. Cattle are in poor condition due to want of fodder. | Wheat, 13 Gram, 11. Barley, 15½. Jowar, 12½. Bajra, 12½. | .. | Condition of standing crops below average in Hissar, Hansi and Bhiwani tahsils and average elsewhere on irrigated and bad on unirrigated areas. The crops in Ghaggar bed are average. |
| 2 | Rohtak .. | | Report not received. | | | |

GGP

Outturn is average. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Autumn. | Prospects of Spring. |
|---|---|---|---|---|---|---|
| 11 | Rawalpindi | 2·12 at Sadr. 1·01 at Gujar Khan. 1·02 at Kahuta. 3·00 at Murree. | 1. Sufficient. 2. (a) Do. 3. Generally fair. | Wheat, 14½. Gram, 10. Barley, 17. Jowar, 16½. Bajra, 15½. Maize, 21. | .. | Condition of standing crops average. |
| 12 | Mianwali | 0·82 at Sadr. 0·53 at Isa Khel. 0·22 at Bhakkar. | 1. Sufficient except in Thal tracts of Mianwali and Bhakkar tahsils. 2. (a) Sufficient. (b) Kammal canal in Mianwali and Kurram canal in Isa Khel are flowing with adequate supply of water. 3. Generally satisfactory. | Wheat, 16. Gram, 11½. Barley, 17. Bajra, 17. Jowar, 14. | .. | Condition of standing crops above average on irrigated and average on unirrigated areas. |
| 13 | Lyallpur | | Report not received. | | | |
| 14 | Multan | | Report not received. | | | |
| 15 | Dera Ghazi Khan. | 1·01 at Sadr. 0·80 at Taunsa. 0·63 at Jampur. 0·42 at Rajanpur. *Nil* at Fort Munro | 1. Sufficient except in Pachadh tracts. 2. (a) Do. (b) Nurdhundi and Manka canals are flowing with insufficient supply of water. The former is flowing by rotation. 3. Good. | Wheat, 18. Jowar, 20. Bajra, 21. Gram, 11¾. | .. | Condition of standing crops average. Sowing of extra spring crops continues. |

*REMARKS.*

Rain fell in all the reporting districts (maximum in plains 2·31" at Sialkot and minimum 0·03" at Firozpur, Jhirka, Gurgaon district). It proved beneficial to standing crops. Condition of standing crops (wheat, gram, barley and oil-seeds) is average on irrigated and below average to average on unirrigated areas. Damage to standing crops by hailstorm is reported from parts of Gurgaon and Amritsar. Pressing of sugarcane and sowing of extra spring crops continue. Fodder is generally insufficient. Drinking water is sufficient except in parts of few districts. Supplies of canal water are adequate in Northern Administration and Sirhind and Upper Bari Doab Canals and generally insufficient elsewhere. Condition of cattle is generally fair except in Hissar. The daily average number of workers at the test works in progress in Rohtak and Gurgaon was 16,943 and 3,655, respectively. Retail prices in seers per rupee are as follows :—

This report deals with the following districts only :—Hissar, Rohtak, Gurgaon, Ambala, Jullundur, Ferozepore, Lahore, Amritsar, Sialkot, Shahpur, Rawalpindi, Mianwali, Lyallpur, Multan and Dera Ghazi Khan.

No abnormal conditions are reported from other districts :—

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of — Spring. | Prospects of — Autumn. |
|---|---|---|---|---|---|---|
| 1 | Hissar .. | 1·99 at Sadr .. 0·98 at Sirsa 2·16 at Fatehabad 0·27 at Bhiwani. 2·84 at Budhlada. 0·68 at Siwani. No rain fell at other stations. | 1. Acute scarcity is being felt except in some Nahri tracts where people are managing on rabi fodder crops. Arrangements have been made to distribute fodder in kind in the district. 2. (a) Sufficient in Nahri tracts. Recent rains have also collected some water in the ponds of Bagar and Barani tracts. (b) Perennial canals are flowing by rotation. Ghaggar canals are flowing in bed on account of recent rains. 3. Cattle are in poor condition due to want of fodder. About 75,000 cattle are being maintained on fodder taccavi by the district besides the cattle in cattle concentration camp. | Wheat, 13½ .. Gram, 11½. Barley, 15½. Jowar, 12½. Bajra, 12½. | Condition of standing crops below average in Hissar, Hansi and Bhiwani tahsils and average elsewhere on irrigated area. Crops on unirrigated area which are still green are improving. The crops in Ghaggar bed are average. Damage to crops by hailstorm is reported in 2 villages of Hissar tahsil. | — |
| 2 | Rohtak .. | 0·85 at Sadr .. 0·35 at Gohana. 0·28 at Jhajjar. 0·50 at Sonepat. 0·10 at Beri. | 1. Scarcity of fodder in unirrigated tracts of the district continues. Fodder is being imported on concession rates from outside. 2. (a) A little quantity of water have been received in ponds in barani tracts from recent rains. (b) Adequate except in Gohana and Rohtak tahsils. 3. Fair. | Wheat, 13½ .. Gram, 12. Barley, 16. Jowar, 14. Bajra, 14. Gochni, 12½. | Rainfall proved beneficial to standing crops. Condition of standing crops about average on irrigated areas and below average in sailab tracts of Sonepat tahsil. There has been a shower of hailstorm in a few villages but no appreciable damage is reported. | — |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for—(a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 3 | Gurgaon .. | 0·57 at Sadr .. 0·40 at Farrukhnagar. 0·50 at Jatusana. 0·71 at Rewari. 0·57 at Khol. 0·63 at Tauru. 0·86 at Nuh. 0·67 at Firozpur-Jhirka. 1·02 at Hassanpur. 0·48 at Palwal. 0·72 at Sohna. 0·50 at Punahana. 0·4 6at Ballabgarh Nil at Hathin. | 1. Scarce in Gurgaon, Rewari, Firozpur-Jhirka, Ballabgarh and some villages of Nuh tahsil. Leaves and branches of trees are being used as fodder. Fodder is being distributed in the form of taccavi in the villages under affected area. 2. (a) Sufficient. (b) Canals flowed in Palwal, Firozpur-Jhirka, Nuh and Ballabgarh tahsils and the supply of water is in sufficient. 3. Generally satisfactory. | Wheat, 11 to 13.. Gram, 11. Barley, 16 to 17. Bajra, 13. Jowar, 15. | Condition of standing crops average on irrigated and poor to below average on unirrigated areas. | Sowing of sugarcane is in progress in Nuh, Palwal and Firozpur-Jhirka tahsils. |
| 4 | Ambala .. | 2·45 at Sadr .. 0·88 at Jagadhri. 1·12 at Naraingarh. 1·85 at Kharar. 2·19 at Rupar. 0·90 at Kasauli. | 1. Quite insufficient.. 2. (a) Sufficient. (b) Western Jumna canal is flowing. 3. Fair. | Wheat, white, 15½ Wheat, red, 16. Gram, 10½. Barley, 15½. | Condition of standing crops average on irrigated and below average on unirrigated areas. | Sowing of sugarcane has commenced. |
| 5 | Jullundur .. | 3·59 at Sadr .. 1·48 at Nakodar. 0·80 at Phillaur. 2·50 at Nawanshahr. | 1. Sufficient except in Nakodar and Phillaur tahsils. 2. (a) Sufficient. 3. Generally good. | Wheat, white, 15 Wheat, red, 16. Gram, 11½. Barley, 20. Maize, 20. | Rain was beneficial to standing crops. Condition of standing crops average on irrigated and below average on unirrigated areas. | Pressing of sugarcane continues. Outturn is normal. |
| 6 | Ferozepore .. | 1·53 at Sadr .. 1·38 at Moga. 4·14 at Zira. 1·99 at Ferozepore City. 1·83 at Muktsar. 0·59 at Fazilka. 0·94 at Nathana 0·50 at Jalalabad. 0·53 at Abohar. | 1. Sufficient .. 2. (a) Do. (b) Sirhind canal is flowing with normal supply of water. 3. Generally good. | Wheat, 15 to 16.. Gram, 11. Barley, 18. | Rain was beneficial to standing crops. Condition of standing crops average on irrigated and below average on unirrigated areas. | .. |
| 7 | Lahore .. | 2·07 at Sadr .. 1·38 at Chunian. 1·55 at Kasur. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation and the supply of water is inadequate. 3. Generally good. | Wheat, 16½ .. Gram, 11½. Barely, 19½. | Condition of standing crops average. Sowing of extra spr ing crops continues. | .. |
| 8 | Amritsar .. | 3·13 at Sadr .. 2·57 at Tarn Taran. 2·35 at Ajnala. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation and the supply of water is sufficient. 3. Fair. | Wheat, 16 .. Gram, 11½. | Condition of standing crops average to good on irrigated and average on unirrigated areas. Hailstorm damaged the crops in 14 villagess of Tarn Taran, 4 village of Ajnala and 5 villages of Amritsar tahsil. | Pressing of sugarcane continues. |
| 9 | Sialkot .. | 2·51 at Sadr .. 1·89 at Narowal 1·30 at Pasrur. 1·12 at Daska . | 1. Sufficient .. 2. (a) Do. (b) Upper Chenab canal is flowing but its branches are closed. 3. Generally satisfactory. | Wheat, 16 to 17. Gram, 10½. Maize, 17. | Rain was beneficial to standing crops. Condition of standing crops average on irrigated and below average on unirrigated areas. Hailstorm has adversely affected the crops in some parts of the district. | .. |
| 10 | Shahpur .. | 0·67 at Sadr .. 0·63 at Midh Ranjha. 0·55 at Sahiwal. 1·20 at Nurpur. 2·85 at Sakesar. 2·05 at Naushehra. 1·62 at Khushab. 1·07 at Shahpur. 0·98 at Bhera. 0·61 at Bhalwal. | 1. Sufficient .. 2. (a) Do. (b) Lower Jhelum canal is closed. 3. Generally fair. | Wheat, 15 to 17 Gram, 10½ to 12. Barley, 16 to 18. Jowar, 15 to 18. Bajra, 16 to 17. Maize, 16 to 18. | Rain was beneficial to standing crops. Condition of standing crops fair to good on irrigated and average on unirrigated areas. Harvesting of toria continues. Outturn is average. | Pressing of sugarcane continues. Outturn is average. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 11 | Rawalpindi .. | 5·60 at Sadr .. 3·45 at Gujar Khan. 5·51 at Kahuta. 3·00 at Murree. | 1. Sufficient .. 2. (a) Do. 3. Fair. | Wheat, 14½ .. Gram, 10. Barley, 17. Maize, 21. Jowar, 16. Bajra, 15. | Condition of standing crops average. | .. |
| 12 | Mianwali . | 0·74 at Sadr .. 0·54 at Isa Khel. 0·42 at Bhakkar. | 1. Sufficient .. 2. (a) Do (b) Nammal canal in Mianwali and Kurram canal in Isa Khel are flowing with adequate supply of water. 3. Fair. | Wheat, 16 .. Gram, 12. Barley, 17. Jowar, 13½. Bajra, 17. | Rain was beneficial to standing crops. Condition of standing crops good on irrigated and average on unirrigated areas. | .. |
| 13 | Lyallpur .. | 0·73 at Sadr .. 1·29 at Samundri. 0·33 at Toba Tek Singh. 1·06 at Jaranwala. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing satisfactorily. 3. Generally Good. | Wheat, 17 .. Gram, 11. | Condition of standing crops on the whole normal except in those villages which have been damaged by hailstorm. Damage to crops by hailstorm is so far reported from about 83 villages. Harvesting of toria continues. Sowing of vegetables continues. | ... |
| 14 | Multan .. | 0·81 at Sadr .. 0·43 at Mailsi. 0·24 at Lodhran. 0·46 at Shujabad. 0·18 at Kabirwala. 0·18 at Khanewal. | 1. Generally sufficient 2. (a) Sufficient. (b) Perennial Canals from Sutlej and Lower Bari Doab are flowing by rotation while non-perennial canals from Sutlej, inundation canals from Chenab and Sidhnai are dry. 3. Good. | Wheat, 16½. Gram, 10½. Barley, 20. Jowar, 15. Bajra, 17. Maize, 15. | Condition of standing crops generally average except in Khanewal tahsil where the crops are reported to have been damaged by hailstorm. The reports regarding extent of damage are awaited from the Tahsildars concerned. Sowing of extra spring crops continues. | Pressing of sugarcane continues. Sowing of sugarcane is in progress. |
| 15 | Dera Ghazi Khan. | 0·27 at Sadr .. 0·65 at Taunsa. 0·52 at Jampur. 0·59 at Rajanpur. *Nil* at Fort Munro. | 1. Sufficient except in Pachadh tracts. 2. (a) Do. (b) Manka Shoria and Nurdhundi canals are flowing with sufficient supply of water. The latter is flowing by rotation. 3. Good. | Wheat, 18 .. Jowar, 20. Bajra, 21. Gram, 12½. | Condition of standing crops average. Sowing of extra spring crops continues. | .. |

*REMARKS.*

Rain fell in all the reporting districts (maximum in plains 5·60" at Rawalpindi and minimum 0·10" at Beri, Rohtak district). It was useful for standing crops. Condition of standing crops average to good on irrigated and below average to average on unirrigated areas. Standing crops have been damaged by hailstorm in parts of Hissar, Amritsar, Sialkot, Lyallpur and Multan. Sowing of extra spring crops continues and that of sugarcane has commenced in a few districts. Fodder is sufficient except in parts of some district. Drinking water is generally sufficient. Supplies of canal water are generally sufficient in Northern and Southern Administrations and insufficient in Western Administration. Condition of cattle is generally fair except in Hissar. The daily average number of workers at the test works in progress in Gurgaon was 5,684. Retail prices in seers per rupee are as follows :—

*Sugarcane being irrigated in both seasons, the area sown in the previous Kharif is now included in the Rabi statements.

LAHORE :
The 27th February, 1939.

M. A. HAMID,
Under-Secretary to Government, Punjab,
Public Works Department, Irrigation Branch.

## Working Class Cost of Living Index Numbers.

THE Department of Industries, Punjab, under the auspices of the Board of Economic Inquiry, Punjab, publishes below the monthly statement of Working Class Cost of Living Index Numbers for the month of December, 1938, at Sialkot, Ludhiana, Rohtak, Lahore and Multan.

The cost of Living Index Numbers at the above-mentioned stations at the end of December, 1938, on the base 1931—35 equal to 100 were as under :—

| Centre. | Food Articles. | | Fuel and Lighting. | | Clothing. | | House rent. | | Miscellaneous. | | General Index. | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | November, 1938. | December, 1938. | November, 1938. | December, 1938. | November, 1938. | December, 1938. | November, 1938. | December, 1938. | November, 1938. | December, 1938. | November, 1938. | December, 1938. |
| Sialkot .. | 118 | 125 | 117 | 119 | 103 | 103 | 77 | 77 | 133 | 133 | 115 | 120 |
| Ludhiana .. | 126 | 134 | 118 | 116 | 89 | 89 | 100 | 100 | 87 | 87 | 116 | 122 |
| Rohtak .. | 114 | 130 | 103 | 104 | 92 | 92 | 80 | 70 | 71 | 72 | 105 | 116 |
| Lahore .. | 105 | 130 | 108 | 108 | 111 | 113 | 100 | 100 | 112 | 98 | 106 | 122 |
| Multan .. | 113 | 137 | 124 | 118 | 115 | 112 | 100 | 100 | 83 | 93 | 111 | 127 |

The items of expenditure included in the statement have been given relative weightage proportional to total expenditure. These items account for 75 per cent of the total expenditure of the working class, the remaining 25 per cent being expended on education, interest on debt, marriages, travelling, religious performances, etc., is not included in these index numbers of cost of living.

## Working Class Cost of Living Index Numbers for Sialkot (December, 1938).

(Average prices from January, 1931—December, 1935=100.)

## *Correction Slip.*

In the statement of Cost of Living Index Numbers for the month of November, 1938, at page 70 of the Supplement to *Government Gazette*, dated 27th January, 1939, under column Index Numbers November, 1938, *for* Sugar, raw (Gur) and for All Foods *read* 122 and 113 *in place of* 92 and 112, respectively.

Again on page 71 of the same Gazette under column Group Index Number November, 1938, against Food and Cost of Living Index Number *read* 113 and 111 *instead of* 112 and 110, respectively.

RAM LAL,

Director of Industries, Punjab.

Condition of standing crops average on irrigated and below average on unirrigated areas on the whole. | .. |
| 10 | Shahpur .. | 0·19 at Sadr ..<br>0·25 at Midh Ranjha.<br>0·25 at Sahiwal.<br>0·45 at Nurpur.<br>1·78 at Naushehra<br>0·59 at Khushab.<br>0·21 at Shahpur.<br>0·80 at Bhera.<br>0·20 at Bhalwal.<br>*Nil* at Sakesar. | 1. Sufficient ..<br>2. (a) Do.<br>(b) Lower Jhelum canal is flowing with adequate supply of water.<br>3. Generally fair. | Wheat, 15 to 17<br>Gram, 10 to 12.<br>Barley, 16 to 19.<br>Jowar, 1[illegible] to 18.<br>Bajra, 16 to 17.<br>Maize, 16 to 19. | Rain was beneficial to standing crops. Condition of standing crops fair to good on irrigated and average on unirrigated areas. Harvesting of toria continues with average outturn. | .. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 11 | Rawalpindi .. | 1·66 at Sadr .. 0·85 at Gujar Khan. 1·07 at Kahuta. 2·35 at Murree. | 1. Sufficient .. 2. (a) Do. 3. Fair. | Wheat, 14½ .. Gram, 10½. Barley, 20. Maize, 20. Jowar, 16. Bajra, 16. | Condition of standing crops average. | .. |
| 12 | Mianwali .. | 1·18 at Sadr .. 0·87 at Isa Khel. 0·32 at Bhakkar. | 1. Sufficient in Kacha tract. Recent rains are improving condition in Thal tract. 2. (a) Sufficient. (b) Nammal canal in Mianwali and Kurram canal in Isa Khel are flowing with normal supply of water. 3. Average. | Wheat, 15 .. Gram, 12. Barley, 17. Jowar, 12½. Bajra, 16. | Condition of standing crops good on irrigated and average on unirrigated areas. | .. |
| 13 | Lyallpur .. | | Report not | Received. | | ... |
| 14 | Multan .. | 0·02 at Sadr .. 0·04 at Shujabad. 0·32 at Kabirwala. 0·55 at Khanewal. No rain fell at other stations. | 1. Generally sufficient 2. (a) Sufficient. (b) Lower Bari Doab canal is flowing regularly and perennial canals from Sutlej are flowing by rotation while non-perennial canals from Sutlej, inundation canals from Chenab and Sidhnai are dry. 3. Good. | Wheat, 16. Gram, 10½. Barley, 20. Jowar, 15. Bajra, 17. Maize, 15. | Condition of standing crops generally average except in a few villages of Khanewal, Lodhran and Multan tahsils where crops are reported to have been damaged by hailstorm. Gram and peas of a few villages of Kabirwala tahsil have been damaged by river flood. The reports regarding the extent of damage are awaited from the Tahsildars concerned. Harvesting of rabi oilseeds continues. Outturn is generally average except in Multan tahsil where it is below average owing to deficiency of rains and severe cold. Sowing of extra spring crops continues. | Pressing of sugarcane continues. Yield is generally normal. |
| 15 | Dera Ghazi Khan. | 0·03 at Jampur 0·03 at Rajanpur. No rain fell at other stations. | 1. Sufficient except in Pachadh tracts. 2. (a) Do. (b) Manka Shoria and Sahiban canals are flowing with insufficient supply of water and Nurdhundi and Qutabdhundi are flowing by rotation with sufficient supply of water. 3. Good. | Wheat, 18½ .. Jowar, 20. Bajra, 21. Gram, 14½. | Condition of standing crops on the whole average. The crops in some villages of Dera Ghazi Khan and Jampur tahsils have been damaged by flood in River Indus and crops in 5 villages of the Jampur tahsil have been damaged by hailstorm. Sowing of extra spring crops continues. | .. |

*REMARKS.*

Light rain fell in parts of all the reporting districts except Gurgaon and Lahore. It proved beneficial to standing crops. Condition of standing crops is average to good on irrigated and below average to average on unirrigated areas. Damage to standing crops by hailstorm and river flood is reported from parts of Multan and Dera Ghazi Khan and by hailstorm from parts of Sheikhupura. Sowing of extra spring crops continues and that of sugarcane has commenced in a few districts. Fodder is sufficient except in parts of some districts. Drinking water is generally sufficient. Supplies of canal water are sufficient in the Northern Administration and Sirhind, Upper Bari Doab, Pakpattan and Eastern Canals and generally insufficient elsewhere. Condition of cattle is generally fair except in Hissar. The daily average number of workers at the test works in progress in Rohtak and Gurgaon was 21,104 and 9,629, respectively. Retail prices in seers per rupee are as follows :—

NOTES.—Prices of rice as shown in the statement are for the quality in common demand.

Variations in prices are due to fluctuations in imports and exports.

*No wholesale salt sold.

‡Not sold.

§Not procurable.

††Under enquiry.

The grades of salt for which quotations are given in this statement are as follows —

| | |
|---|---|
| Hissar ... ... ... ... | Didwana |
| Rohtak, Gurgaon and Karnal ... ... ... | Sambhar |
| Remaining districts ... ... ... ... | Rock or Sendha. |

The price of "Bathu," and "Masur" at Simla during the fortnights ending 15th and 28th February, 1939, was Nil and 6 seers, 8 chataks per rupee, respectively.

OFFICE OF DIRECTOR OF LAND RECORDS,
PUNJAB :
Lahore, dated the 14th March 1939.

MOHAMMAD ISMAIL,
HEAD ASSISTANT OF STATISTICS,
Office of Director of Land Records, Punjab.

OF PUBLIC HEALTH, PUNJAB.

towns (800 males and 687 females), giving a birth rate of 37 *per mille* of population and 798 deaths were registered three largest towns were as follows:—Lahore 18 against 16 in the corresponding week of the previous year, Amritsar Multan 25 against 21.

each at Ludhiana and Pakpattan and 1 each at Jhajjar, Palwal, Moga, Multan and Dera Ghazi Khan.

AMRIT SINGH, D. P. H.,
STATISTICAL OFFICER,
*for* Director of Public Health, Punjab.

# PUNJAB KHARIF CROP SUMMARY FOR 1938.

1. *Season.*—The rainfall in the month of January, 1938, was generally sufficient. Light to moderate rain fell during February all over the Province. In March and April, light rain was also received nearly everywhere. Except for light showers at places the month of May was dry. The rainfall in June was fairly heavy throughout most of the province and in July it was scanty excepting montane and sub-montane districts. Supplies in canals were sufficient. The climatic conditions were not very favourable for sowings. The rainfall in August was sufficient in parts of montane and sub-montane, Central and north-western districts and insufficient elsewhere. The months of September, October, November and December, remained practically dry and affected the crops adversely. Canal supplies, on the whole, were somewhat short for maturing kharif crops. Hail-storms and strong winds damaged the crops in some districts while boll-worm, white-fly and root-rot caused some damage to cotton crop in certain districts. There were also complaints of defective opening of bolls of American cotton from Lyallpur district and Desi cotton from Ambala division. The unirrigated crops in the Hissar and Rohtak did not bear fruit and were used as fodder. The yield of cotton and other crops was generally below normal to normal.

2. *Area.*—Owing to unfavourable climatic conditions at sowing time the total sown area has decreased from 13·46 million acres in 1937 to 12·74 million acres in 1938.

The variations under principal crops are shown below .—

*Statement showing the variations under principal crops for the last 10 years.*

No. 12. LAHORE, FRIDAY, MARCH 24, 1939.

## PART I.
## STATISTICAL.

**Weather and Crop Report for the week ending 8 a.m., Monday, the 20th March, 1939.**

This report deals with the following districts only :—Hissar, Rohtak, Gurgaon, Ambala, Jullundur, Ferozepore, Lahore, Amritsar, Sialkot, Shahpur, Rawalpindi, Mianwali, Lyallpur, Multan and Dera Ghazi Khan.

No abnormal conditions are reported from other districts :—

| No | Reporting Station. | Rain. | 1. Supply of fodder.<br>2. Water supply for—(a) Drinking. (b) Canal irrigation.<br>3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 1 | Hissar .. | Nil .. | 1. Acute scarcity is being felt except in some Nahri tracts where people are managing on rabi fodder crops. Arrangements have been made to distribute fodder in kind in the district.<br>2. (a) Sufficient.<br>(b) Perennial canals are flowing by rotation. Ghaggar canals are dry.<br>3. Cattle are in poor condition due to want of fodder. About 75,000 cattle are being maintained on fodder taccavi by the district authorities besides the cattle in the cattle concentration camp. | Wheat, 13½<br>Gram, 12½.<br>Barley, 15½.<br>Jowar, 12½.<br>Bajra, 12½. | Condition of standing crops below average in Hissar, Hansi and Bhiwani tahsils and average elsewhere on irrigated and poor on unirrigated areas. Crops in Ghaggar bed are average. Sowing of extra spring crops continues. | .. |
| 2 | Rohtak .. | Nil .. | 1. Scarcity of fodder in unirrigated tracts of the district continues. Fodder is being imported on concession rates from outside the district.<br>2. (a) There is no water in ponds of the Jhajjar tahsil and it is insufficient in other tahsils.<br>(b) Canal flowed with adequate supply of water.<br>3. Generally satisfactory. | Wheat, 14½<br>Gram, 12¾.<br>Barley, 16½.<br>Jowar, 16.<br>Bajra, 15.<br>Gochni, 14. | Condition of standing crops average on irrigated area except gram crop which is below average. Crops on the unirrigated tract of the Sonepat tahsil are below average. | Sowing of sugarcane has commenced. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 3 | Gurgaon .. | *Nil* .. | 1. Scarce in Gurgaon, Rewari, Firozpur-Jhirka, Ballabgarh and some villages of Nuh tahsil. Leaves and branches of trees are being used as fodder. Fodder is being distributed in the form of taccavi in villages of the affected area. 2. (a) Sufficient in wells. Pools have generally dried up except in Gurgaon tahsil. (b) Canal flowed in Firozpur-Jhirka and Ballabgarh tahsils. 3. Generally satisfactory. | Wheat, 11½ to 13½. Gram, 11½. Barley, 17 to 18. Jowar, 15. Bajra, 14. | Condition of standing crops average on irrigated and poor to below average on unirrigated areas. Harvesting of rapeseed has begun, expected yield is below average on irrigated and poor on unirrigated areas. Strong winds have slightly affected the crops. Sowing of tobacco continues in Nuh, Firozpur-Jhirka and Palwal tahsils. | Sowing of sugarcane and cotton continues on irrigated area in Nuh, Firozpur-Jhirka and Palwal tahsils. |
| 4 | Ambala .. | *Nil* .. | 1. Insufficient .. 2. (a) Sufficient. (b) Western Jumna canal is flowing. 3. Fair. | Wheat, white, 14½. Wheat, red, 14½. Gram, 12. Barley, 15½. | Condition of standing crops average on irrigated and below average on unirrigated areas. | Sowing of sugarcane is in progress in Ambala and Naraingarh tahsils. |
| 5 | Jullundur .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. .. 3. Generally good. | Wheat, white 14½. Wheat, red 14¾. Gram, 10¾. Barley, 20. Maize, 19½. | Condition of standing crops good on irrigated and average on unirrigated areas. Sowing of vegetables has commenced. | |
| 6 | Ferozepore .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Sirhind canal has been flowing with normal supply of water. 3. Generally good. | Wheat, 15 to 16.. Gram, 11. Barley, 17. | Condition and expected yield of standing crops average on irrigated and below average on unirrigated areas. | .. |
| 7 | Lahore .. | *Nil* .. | 1. Sufficient .. 2. (a) Do (b) Canals are flowing by rotation and the supply water is inadequate. 3. Generally satisfactory. | Wheat, 16½ .. Gram, 11½. Barley, 19¼. | Condition of standing crops average. Sowing of extra spring crops continues. | .. |
| 8 | Amritsar .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation and the supply of water is sufficient. 3. Fair. | Wheat, 17 Gram, 11½. | Condition and expected yield of standing crops good in Amritsar and Tarn Taran tahsils and average elsewhere on irrigated and average on unirrigated areas. | Sowing of sugarcane continues in Amritsar and Ajnala tahsils. Sowing of cotton has commenced in Amritsar tahsil. |
| 9 | Sialkot .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Upper Chenab canal is flowing but its branches are closed. 3. Generally satisfactory. | Wheat, white, 15 Wheat, red, 16. Gram, 10. Maize, 17. Rice ordinary, 12. | Condition of standing crops above average on irrigated and average on unirrigated areas except in the villages which have been affected by hailstorm. Sowing of extra spring crops continues. | Sowing of sugarcane continues. |
| 10 | Shahpur .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Lower Jhelum canal is flowing with adequate supply of water. 3. Generally fair. | Wheat, 15 to 17 Gram, 10 to 12. Barley, 16 to 19. Jowar, 16 to 18. Bajra, 16 to 17. Maize, 16 to 19. | Condition of standing crops fair to good on irrigated and average on unirrigated areas. Harvesting of toria continues. Outturn is average. | .. |

| No. | Reporting Station. | Rain | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 11 | Rawalpindi ... | 0·17 at Murree .. No rain fell at stations. | 1. Sufficient ... 2. (a) Do. 3. Generally fair. | Wheat, 15 .. Gram, 10½. Barley, 20. Bajra, 15½. Maize, 20. Jowar, 16. | Condition of standing crops average. | ... |
| 12 | Mianwali ... | Nil | 1. Sufficient except in Thal tract of Mianwali where the condition is improving. 2. (a) Sufficient. (b) Kurram canal in Isa Khel is flowing with adequate supply of water. Nammal canal in Mianwali is closed. 3. Average. | Wheat, 15½ Gram, 11½. Barley, 17. Jowar, 12. Bajra, 16. | Condition of standing crops good on irrigated and average on unirrigated areas. | ... |
| 13 | Lyallpur .. | Nil | 1. Sufficient .. 2. (a) Do. (b) Do. 3. Generally good. | Wheat, 17½ .. Gram, 10½. | Condition of standing crops on the whole normal except in those villages which were damaged by hailstorm. Sowing of extra spring crops continues. | Sowing of sugarcane continues. |
| 14 | Multan ... | 0·26 at Lodhran ... No rain fell at other stations. | 1. Sufficient .. 2. (a) Do. (b) Lower Bari Doab canal is flowing regularly while perennial canals from Sutlej are flowing by rotation. The non-perennial canals from Sutlej, inundation canals from Chenab and Sidhnai are dry. 3. Good. | Wheat, 15½ .. Gram, 10½. Barley, 20. Jowar, 15. Bajra, 13. Maize, 15. | Condition of standing crops generally average except in a few villages of Khanewal, Lodhran and Multan tahsils where the crops are reported to have been damaged by hailstorm. Harvesting of rabi oilseeds continues. Outturn is below average. Sowing of vegetables continues. | Pressing of sugarcane continues. Outturn is generally normal. |
| 15 | Dera Ghazi Khan. | Nil .. | 1. Sufficient except in Pachadh tracts. 2. (a) Do. (b) Nurdhundi and Qutabdhundi canals are flowing by rotation with sufficient supply of water. Other canals are closed. 3. Good. | Wheat, 18½ ... Jowar, 21. Bajra, 21. Gram, 12¾. | Condition and expected yield of standing crops on the whole average. Sowing of extra spring crops continues. | .. |

*REMARKS.*

Weather remained practically dry. Condition of standing crops (wheat, gram, barley and oilseeds) is average to good on irrigated and below average to average on unirrigated areas. Sowing of extra spring crops and sugarcane continues. Reaping of rabi oilseeds has commenced in a few districts. Fodder and drinking water are generally sufficient except in parts of the south-east and Dera Ghazi Khan. Supplies of canal water are sufficient in the Northern Administration and Sirhind and Upper Bari Doab Canals and generally insufficient elsewhere. Condition of cattle is generally fair, except in Hissar. Retail prices in seers per rupee are as follows :—

(*a*) Not available.

Average percentage ratio of current to pre-war prices or unweighted index number = 94.

Unweighted index number of wholesale prices for the first fortnight of March, 1938, was 99.

KATTI RAM,

SUPERINTENDENT.

# Notes on the condition and prospects of crops in each district of the Punjab for the month of February, 1939.

## 1—Hissar District.

There were showers in the latter half of the month. They were insufficient but were beneficial to the standing crops. It hailed a little in a few villages but damage to the standing crops has so far been reported in two villages, Uklana and Bhari to some extent. The condition of standing irrigated crops in Hissar, Hansi and Bhiwani tahsils is below average and in Sirsa and Fatehabad tahsils it is average. The condition of standing crops on unirrigated lands is bad in spite of recent showers and needs more rain. The condition of cattle is poor due to want of fodder. About 75,000 cattle are being maintained on fodder taccavi by the district besides the cattle in cattle concentration camp. No cattle disease was reported during the month. Public health is generally good except in some villages where smallpox had broken out. Perennial canals remained running on their rotational turns except in the second week of the month when they were closed. There was a general complaint of a short supply of canal water. Drinking water is sufficient in nahri tracts but there is a scarcity of it in Bagar and Barani villages. In the last week of the month however recent showers of rain collected a little water in the ponds of some villages. Famine relief works are in progress in 28 centres. The prices of food stuffs had no appreciable change.

## 2—Rohtak District.

Rain at Rohtak 1·74, Gohana 0·85, Jhajjar 0·66, Beri 0·50 and Sonepat 1·30 inches. Condition of wheat, gram, barley and sarshaf is about average in the irrigated and below average in unirrigated tracts. Pressing of sugarcane has finished, outturn has been below average. Scarcity of fodder is greatly felt in the unirrigated tracts of the district and the fodder is being imported from outside the district on concession rates. Foot-and-mouth, rinderpest, hæmorrhagic septicæmia and other unkown contagious diseases are reported in some villages of the district. The general condition of the cattle is fair on the whole. Public health has been satisfactory during the month. Supply of canal water was not adequate during the month under report. There has been a shower of hailstones in some villages of the district but no appreciable damage has so far been reported.

## 3—Gurgaon District.

During the month under report rainfall varied from 0·64 to 1·80 inches throughout the district and proved beneficial to the standing crops, with the exception that hailstorm caused serious damage in 56 villages in Palwal tahsil, 30 villages in Nuh tahsil, 6 villages in Firozpur-Jhirka tahsil and 2 villages in Rewari tahsil. The condition of the standing crops, *i.e.*, sugarcane of the kharif and wheat, barley, gram, sarshaf and vegetables of the rabi harvest is average on irrigated and poor to below average on unirrigated areas. Sugarcane was crushed. The yield is average on irrigated and poor on unirrigated areas. Sugarcane was planted in Nuh tahsil and tobacco and zira was sown in Rewari tahsil. Foodgrains are available. Fodder is scarce except in Palwal tahsil. Leaves and branches of trees are being used as fodder. Fodder in the form of taccavi is also distributed in the affected areas in the whole of the district. Drinking water both for human beings and cattle is sufficient. Condition of the cattle is generally satisfactory with the exception that scarcity of fodder has affected them. Canal flowed in Nuh, Firozpur-Jhirka, Palwal and Ballabgarh tahsils by turns. Supply of water was insufficient. The general state of public health remained generally satisfactory except that smallpox was reported from some villages of the district.

## 4—Karnal District.

Rainfall during the month under report was sufficient and proved beneficial to the standing crops, hailstorms also appeared with rain in some parts of the district and caused varying degrees of damage in different parts. The condition of standing crops has become satisfactory now on the irrigated areas but continues below average on unirrigated areas after the rainfall The pressing of sugarcane has ceased and the zamindars are busy in the sowing of sugarcane and other extra spring crops. The expected yield on the irrigated land is normal but below normal on unirrigated areas. The condition of cattle other than those used for working wells though poor is not quite unsatisfactory but the plough cattle have become very weak on account of insufficient nuterition and constant work. Rinderpest and foot-and-mouth diseases are reported from 3 villages of Panipat and Kaithal Tahsils. Death of a number of cattle by hailstorms is reported. Public health is satisfactory on the whole but smallpox has broken out in 6 villages of Panipat, Thanesar and Kaithal tahsils. The canals worked according to the programme reduced in proportion to supplies in the Jumna. Prices have risen slightly.

### 5—Ambala District.

The rain is sufficient throughout the district. It benefited the standing crops. The conditon of standing crops is av erage on irrigated and below average on unirrigated areas. Crushing of sugarcane continued. Yield is below normal. Condition of cattle is generally good. Fodder is insufficient. Public health is generally good. Western Jumna canal is flowing with adequate supply of water. Prices are reported to have gone down to some extent. Sowing of sugarcane continued. Sowing of cotton is also reported to have commenced in Naraingarh tahsil in the last week of this month.

### 6—Simla District.

Rainfall was above normal. The condition of crops in both the tahsils of Simla and Kotkhai is average owing to lack of rain at the proper time. Condition of cattle is good. Public health is good. Water in hill streams is sufficient.

### 7—Kangra District.

Rainfall during the month was much above the average except at Hamirpur where it was below the average. It was beneficial for rabi crops. Some area was sown with tobacco and potatoes. The condition of the standing crops is fair in the irrigated and unirrigated areas. Cattle are in fair condition. Fodder is generally sufficient. Foot-and-mouth and rinderpest cattle diseases existed in some parts of the Nurpur tahsil. Public health is fair. Smallpox is reported from some villages of Nurpur, Palampur and Kulu tahsils. Two cases of smallpox are reported from village Alampur of the Palampur tahsils. Water in streams and kulls was sufficient for irrigation purposes. Prices are satationary.

### 8—Hoshiarpur District.

The rainfall during the month was mostly useful for the standing rabi crops causing increase in the estimated percentage yield per acre from 75 to 90 and 50 to 60 in case of irrigated and unirrigated crops respectively. The zimindars had already paid full attention to the irrigated crops and showed gre at energy to get them well nourished due to the failure of barani crops on account of the scarcity of rainfall during the past The recent rains have made the condition of the barani crops hopeful to some extend otherwise there was every likelihood of their failure. No doubt the rain which fell on 22nd January, 1939, was also useful to the barani crops, yet it could not be expected to be found to such a flourishing grade as it is now expected. It is well expected that the last sowings of barley made during the January will also be found hopeful to some extent due to the recent rains. It is now also expected that the plants of wheat crop on barani lands will also bring corn which is due to the blessing of the recent rains. The condition of the irrigated crops is now considered to be average and those of barani crops somewhat below the average. But it is stated that the crop which did not fail much before this rain will be found in an improved condition resulting to an average yield. Cattle are generally reported healthy. The scarcity of fodder which was felt during the past will cease to be felt as such, if the crops are not damaged otherwise at harvesting and threshing periods. Public health is good on the whole. Shahnahar remained closed during the month. No remarkable change in the prices is reported. However the fall in them is expected in the near future.

### 9—Jullundur District.

Rainfall was above average throughout the district. It has benefited the standing crops to a great extent. Sowing of vegetables has commenced. Condition of the standing irrigated crops is average and that of unirrigated is below average. Pressing of sugarcane is in progress. Outturn is normal. Cattle are generally in good condition. Stray cases of foot-and-mouth and throat diseases have been reported from Jullundur, Nakodar and Phillaur tahsils. Fodder scarcity is generally felt throughout the district, but specially in Phillaur and Nakodar tahsils. Public health is good on the whole but stray cases of smallpox have been reported from different parts of the district.

### 10—Ludhiana District.

The rainfall was above average throughout the district. The condition of standing crops is about normal both on irrigated and unirrigated areas. The yield is expected to be above average and normal on irrigated and unirrigated lands, respectively. Sowing of vegetables is in progress. The condition of the cattle remained satisfactory on the whole except that cattle suffered from foot-and-mouth in certain villages. Fodder is not available for them. Public health generally remained satisfactory except a few cases of smallpox in certain villages.

### 11—Ferozepore District.

Rain was very useful for standing crops. Condition of the standing crops is normal Fodder and drinking water are sufficient. Public health is good. Sirhand canal has been flowing during the month.

12—LAHORE DISTRICT.

There was sufficient rainfall throughout the district during the month under report, which benefited the standing crops to great extent. Hails fell in this month, but proved of no special harm to the crops. The condition of wheat, gram, barley, vegetables and fodder is average. Vegetables and tobacco are being sown in Lahore urban area. With the exception of a few cases of rinderpest reported from Chunian tahsil, the general condition of cattle on the whole remained satisfactory. The general condition of public health is good. The canals remained working by rotation, but the water supply was inadequate.

13—AMRITSAR DISTRICT.

The rainfall during the month is sufficient. The condition and expected yield of standing crops is average on irrigated and unirrigated areas on the whole. Condition of cattle is fair. Public health is good. Canals are working by rotation and the supply of water is sufficient. Hailstorm has damaged to the standing crops of 8 villages in Amritsar tahsil and some villages in tahsil Tarn Taran.

14—GURDASPUR DISTRICT.

Rainfall during the month was much above average. It has damaged the rabi crops to some extent in the sailab areas. Hailstorm has also damaged the crops in some villages of the Batala tahsil to some extent. Condition of the standing crops is average so far owing to recent rains. Condition of cattle is generally good with the exception of some villages in Batala and Gurdaspur tahsils where hæmorrhagic septicæmia, rinderpest and foot-and-mouth diseases are reported to be prevalent. Public health is generally good with the exception of some of the villages where smallpox is reported to be prevalent. Government canals are closed.

15.—SIALKOT DISTRICT.

Rainfall during the month under repurt in Narowal 2·87, Pasrur 2·83, Daska 3·57 and in Sialkot 4·95 inches respectively, which was bene ficial to the standing crops. Sowing of vegetables and tobacco continued in some parts of the district. Condition of standing crops is average in the irrigated and below average in the unirrigated areas on the whole. Hailstorm accompanied with rain has adversely affected the crops in some parts of the district. Yield of sugarcane was normal in the irrigated and below normal in the unirrigated areas on the whole. Condition of cattle is generally satisfactory but there has been a complaint of hæmorrhagic septicæmia, rinderpest, lymphangites epizootica, smallpox and foot-and-mouth diseases in certain villages in the district. Public health is generally satisfactory but there has been a complaint of smallpox in certain villages in the district and the District Medical Officer of Health was informed accordingly. Upper Chenab canal is running but its branches are closed.

16—GUJRANWALA DISTRICT.

Sufficient rain fell during the month and proved beneficial to the standing crops Showers of hailstorm are also reported to have fallen in some villages of the Gujranwala and Wazirabad tahsils and caused some damage in a few villages. Sowing of extra rabi crops has commenced. Condition of crops is generally average and it is hoped that the condition will improve further in near future on account of the effect of the rain. Toria crop is being harvested and its yield is reported to be average. Condition of cattle is satisfactory except that in a few villages "daba", pir and hæmorrhagic septicæmia diseases were prevalent. Fodder is sufficient. The state of public health is generally satisfactory except that in village Dhaunkal in Wazirabad tahsil complaint of smallpox was reported. Canals worked by rotation. There has been no complaint of insufficient supply of canal water.

17—SHEIKHUPURA DISTRICT.

The amount of rainfall during the month under report is as given below :—

Sheikhupura 3·04", Shahdara 2·36, Nankana Sahib 1·70 inches. The recent rain proved beneficial to the standing crops with exception of 7 villages in Nankana Sahib tahsil and 25 villages in Sheikhupura tahsil in which the hailstorms caused an havoc. The amount of the damage caused by hail-stones has not hitherto been reported. The cultivators have taken the advantage of the rains and they are very busy in preparing their lands for the staple kharif crops. The sason remained favourable. General condition of the standing crops is reported to be good. The condition of the livestock is also reported to be good.

18—GUJRAT DISTRICT.

There was good rainfall all over the district varying from 3·48 to 3·88 inches at all raingauge stations. It benefited the standing crops to a great extent. Condition of standing crops was fair to good in the irrigated and unirrigated areas. Pressing of sugarcane

was continued with average outturn. Cattle were generally in fair condition. Public health was generally fair. Canals remained flowing and there were no complaints of water supply. Stocks of foodstuffs were sufficient in markets and with big zamindars. The prices have slightly decreased owing to recent rains.

### 19.—SHAHPUR DISTRICT.

There was a fair rainfall varying from 0·79 to 4·00 inches at all raingauge stations. It was beneficial to standing crops. Vegetables have been sown in this month. Condition of the standing crops remained fair to good in irrigated areas and average in unirrigated areas. Harvesting of toria and pressing of sugarcane remained in progress with average outturn. Cattle generally remained in fair condition. Fodder remained sufficient except Khushab tahsil. Public health remained satisfactory except for a few complaints of small-pox disease in a few villages of Shahpur and Sargodha tahsils. Southern and Northern branches of Lower Jhelum canal remained flowing turn by turn with adequate water supply. Rural development scheme remained in progress in Shahpur tahsil.

### 20.—JHELUM DISTRICT.

There was 2·78, 4·83 and 2·63 inches rainfall in Pind Dadan Khan, Jhelum and Chakwal tahsils, respectively, which proved beneficial to the standing crops. There was no sowing during the month under report. The condition of the standing crops have become good in the irrigated and average in the unirrigated areas. Yield is expected to be average. The condition of cattle is average. The state of public health is generally good. Prices are stationary.

### 21.—RAWALPINDI DISTRICT.

The rainfall during the month was above average. The condition of standing crops of irrigated and unirrigated areas is above and below average respectively. The present rainfall has proved beneficial for the standing crops. The yield is considered to be normal. The condition of cattle is fair except in some villages of Gujar Khan where black-quarter and foot-and-mouth diseases are reported. The public health is generally good except in some villages of Gujar Khan tahsil where smallpox is reported. Prices are generally falling down.

### 22.—ATTOCK DISTRICT.

Rainfall during the month was above average. Sowing of tobacco and vegetables were made during the month. Condition of standing crops in the irrigated area is good while that of unirrigated area is average. The yield in the irrigated area is expected to be cent. per cent. and in unirrigated area 75 per cent. of the normal. Condition of cattle is fair on the whole but contagious diseases were reported in certain villages of Pindigheb, Fatehjang and Attock tahsils, respectively. Public Health is satisfactory but smallpox disease was reported in 28 villages of the district and 124 cases and 18 deaths are reported. Fodder is procurable and water is sufficient.

### 23.—MIANWALI DISTRICT.

Rainfall at Mianwali 2·34, at Isakhel 1·35 and at Bhakkar 0·95 inches. It was very beneficial to standing rabi crops. No sowings. Condition and expected yield of standing crops is above average on irrigated areas but average on unirrigated areas. Condition of cattle was poor and they suffered from smallpox and hæmorrhagic septicæmia in a few villages. Recent rainfall has removed the threatening of fodder scarcity in thal tracts. In Kacha it was already sufficient. Public health remained satisfactory on the whole but complaints of smallpox were received from two villages. The Health Department adopted precautionary measures. Nammal canal in Mianwali and Kurram canal in Isakhel remained working and watered lands adequately. Season is pleasent.

### 24.—MONTGOMERY DISTRICT.

Sowing of extra spring crops continued during the month. The condition of rabi crops is average. Average yields are expected. The condition of cattle is satisfactory. The public health of the district remained disturbed by the epidemic of smallpox. Seventy-four cases and 10 deaths took place at 32 villages and the towns of Montgomery and Pakpattan. Thirteen thousands two hundred and twenty-four persons were protected against the disease by means of vaccination. The Sutlej Valley Project and Lower Bari Doab canal remained closed for full month and 15 days, respectively, during the month under report. The latter has been running regularly by warabandis during the second half of the month.

### 25—LYALLPUR DISTRICT.

Rain at Toba Tek Singh 0·44, Samundri 0·97, Lyallpur 1·58 and at Jaranwala 1·96 inches. The sowing of vegetables is in progress. The condition of the standing crops is on the whole normal. The recent rains were beneficial to the standing crops The pressing of sugarcane is in progress in some parts of the district. The yield of gur,

is 90 per cent. of the normal. Toria has been harvested and the yield is reported to be normal. The condition of cattle is generally good except in a few villages of the district where cattle disease existed during the month. Fodder is sufficient. There has been a complaint of smallpox in certain villages of Jaranwala, Toba Tek Singh and Samundri tahsils. Canals are working satisfactorily.

26—JHANG DISTRICT.

The rainfall was above average throughout the district. It was beneficial to the standing crops. China, onions, vegetables, tabacco and melons are being sown. The condition of crops is expected to be normal. No crop was harvested during the month. The condition of the cattle is fair. Fodder green and dry is available. Public health is good except for some villages where smallpox is reported to be raging. The canals are working as usual. There were low floods in the rivers.

27—MULTAN DISTRICT.

Rain at Mailsi 0·75, Lodhran 1·16, Shujabad 1·36, Multan 1·48, Kabirwala 0·98 and Khanewal 0·94 inches proved useful to the standing rabi crops. Sowings of vegetables and plantation of tobacco and sugarcane continued. Germination is good. Condition of standing kharif and rabi crops is generally normal. Condition of rabi oilseeds and sugarcane was, however, below normal in the beginning of the month due to want of rains, excessive cold and inadequate supply of canal water but later on the rains changed their condition for the better. Harvesting of rabi oilseeds, picking of American cotton and crushing of sugarcane continued ; outturn is generally normal except sugarcane and rabi oilseeds, the outturn of which was below normal owing to the reasons explained above. Condition of cattle is generally good except Sidhnai circle of Multan tahsil wherefrom some complaints of hæmorrhagic septicæmia and foot-and-mouth diseases were reported. The Veterinary Assistant was informed direct by the tahsildar concerned to take preventive measures. Supply of fodder was generally sufficient. The state of public health was generally good except a few cases of smallpox from Multan, Kabirwala and Khanewal tahsils were reported. The Health Department took vigorous preventive measures. Lower Bari Doab and perennial canals from Sutlej were running by rotation while Sidhnai, non-perennial canals from Sutlej and inundation canals from Chenab were dry. Stock of food-grains and drinking water are sufficient.

28—MUZAFFARGARH DISTRICT.

The rainfall during the month was above the average which benefited the standing crops. Sowings of extra spring crops were in progress. The condition of standing crops was inclined to go below normal on both classes of soil but the rains received have improved them considerably and they are now in good condition. No crop was harvested during the month. Cases of hmorrhagic septicæmia among cattle were reported from the Muzaffargarh tahsil. The condition of cattle in the remaining tahsils was fair. Grazing, white bhusa and green fodder are available. Pneumonia was reported from the Leiah tahsil. The general public health in the district was normal throughout the month. Some of the Indus canals are running by rotation with insufficient supplies of water. The Chenab brought down substantial floods doing great good to sailab areas. Prices are stationary.

29—DERA GHAZI KHAN DISTRICT.

Rain at Taunsa 1·81″, Dera Ghazi Khan 1·42″, Fort Munro 3·45″, Jampur 1·41″ and Rajanpur 1·58″ was above average. Sowing of extra spring crops continues. Condition and expected yield of the standing crops were average. There was some complaint of foot-and-mouth disease in some villages of Dhundi estates in the Rajanpur tahsil. Fodder was sufficient except in pachahd tracts. There was some complaint of malaria and pneumonia in the Ranjanpur tahsil and of smallpox in the Dera Ghazi Khan tahsil. Nurdhundi and Manka canals flowed with sufficient supply of water. The former was flowing by rotation. Prices are stationary.

OF PUBLIC HEALTH, PUNJAB.

towns (889 males and 850 females), giving a birth rate of 42 *per mille* of population and 901 deaths were registered three largest towns were as follows:—Lahore 22 against 15 in the corresponding week of the previous year, Amritsar Multan 21 against 18.

and Dera Ghazi Khan and 1 each in Ludhiana and Montgomery.

M. YACOB, DR. P. H.,
PERSONAL ASSISTANT,
*for* Director of Public Health, Punjab.

# SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER IN THE PUNJAB AND THE NORTH-WEST FRONTIER PROVINCE DURING DECEMBER, 1938.

Although eight western disturbances entered north-west India during the month, only three of them viz., the second, fourth and fifth affected the provinces appreciably. The second and the fourth caused a few falls of rain on the hills of the North-West Frontier Province on the 9th and 17th respectively while the fifth caused fairly widespread rain or snow in the North-West Frontier Province and the northern and central Punjab between the 19th and 21st. The weather on the remaining days was practically dry.

The total rainfall of the month was normal at Rawalpindi, in slight excess at Murree, in moderate excess at Parachinar in large excess at Peshawar and in large defect elsewhere. Cloud amount was in excess at Murree, Parachinar and Cherat and normal or in defect elsewhere. Humidity was normal or in defect. Maximum temperature was either normal or in excess. Minimum temperature was above normal at Simla and Drosh and below normal at Ludhiana and Rawalpindi.

### STATISTICAL.

**Weather and Crop Report for the week ending 8 a.m., Monday, the 27th March, 1939.**

This report deals with the following districts only :—Hissar, Rohtak, Gurgaon, Ambala, Jullundur, Ferozepore, Lahore, Amritsar, Sialkot, Shahpur, Rawalpindi, Mianwali, Lyallpur, Multan and Dera Ghazi Khan.

No abnormal conditions are reported from other districts :—

| No | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 1 | Hissar .. | 0·30 at Sadr .. 0·14 at Fatehabad. 0·40 at Budhlada. 0·19 at Siwani. No rain fell at other stations. | 1. Acute scarcity is being felt except in some Nahri tracts where people are managing on rabi fodder crops. Arrangements have been made to distribute fodder in kind in the district. 2. (a) Sufficient. (b) Perennial canals are closed. Ghaggar canals are dry. 3. Cattle are in poor condition due to want of fodder. About 75,000 cattle are being maintained on fodder taccavi by the district authorities besides the cattle in the cattle concentration camp. | Wheat, 13½. Gram, 12½. Barley, 15½. Jowar, 12½. Bajra, 12½. | More rain is needed. *Condition of standing crops below average in Hissar, Hansi and Bhiwani tahsils and average elsewhere on irrigated and poor on unirrigated areas. Sowing of extra spring crops continues. | — |
| 2 | Rohtak .. | 0·20 at Sadr .. 0·09 at Jhajjar. No rain fell at other stations. | 1. Scarcity of fodder in unirrigated tracts of the district continues. Fodder is being imported on concession rates from outside the district. 2. (a) There is no water in ponds of the Jhajjar tahsil and it is insufficient in other tahsils. (b) Canal flowed with adequate supply of water in Rohtak and Gohana tahsils while it did not flow in Sonepat and Jhajjar tahsils. 3. Generally satisfactory. | Wheat, 14½. Gram, 12½. Barley, 16½. Jowar, 16½. Bajra, 15½. Gochni, 14. | — Condition of standing crops average except gram crop which is below average. Crops on the unirrigated tract of the Sonepat tahsil are below average. | Sowing of sugarcane continues. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 3 | Gurgaon .. | 0·10 at Sadr .. 0·06 at Rewari. 0·02 at Nuh. 0·03 at Firozpur-Jhirka. 0·31 at Palwal. 0·02 at Sohna. 0·05 at Ballabgarh. No rain fell at other stations. | 1. Scarce in Gurgaon, Rewari, Firozpur-Jhirka, Ballabgarh and some villages of Nuh tahsil. Leaves and branches of trees are being used as fodder. Fodder is being distributed in the form of taccavi in the villages under affected area. 2. (a) Sufficient in wells. Pools have generally dried up except in Gurgaon tahsil. (b) Canal flowed in Nuh, Firozpur-Jhirka, Palwal and Ballabgarh tahsils. 3. Generally satisfactory. | Wheat, 11½ to 13½ Gram, 11½. Barley, 17 to 18. Jowar, 15. Bajra, 14. | Condition of standing crops average on irrigated and poor on unirrigated areas. Harvesting of rapeseed and barley has begun. Probable yield is average on irrigated and poor on unirrigated areas. Sowing of tobacco continues in Gurgaon, Nuh and Palwal tahsils. Hailstorm damaged the crops of one village of Gurgaon tahsil. | Sowing of sugarcane and cotton continues in irrigated area of Gurgaon, Nuh and Palwal tahsils. |
| 4 | Ambala .. | 0·42 at Sadr .. 0·52 at Jagadhri. 0·13 at Naraingarh. 0·42 at Kharar. 0·65 at Rupar. 0·85 at Kasauli. | 1. Insufficient .. 2. (a) Sufficient. (b) Western Jumna canal is flowing. 3. Fair. | Wheat, white, Wheat, red, 14½. Gram, 12. Barley, 15½. | Condition of standing crops average on irrigated and below average on unirrigated areas. | Sowing of sugarcane and cotton continues. |
| 5 | Jullundur .. | 0·95 at Sadr .. 0·54 at Nakodar. 1·02 at Phillaur. 0·49 at Nawanshahr. | 1. Sufficient .. 2. (a) Do. 3. Generally good. | Wheat, white 15 Wheat, red 15½. Gram, 11½. Barley, 20. Maize, 19½. | Condition of standing crops good on irrigated and average on unirrigated areas. Sowing of vegetables continues. | .. |
| 6 | Ferozepore .. | 0·26 at Sadr .. 0·96 at Moga. 0·03 at Zira. 0·23 at Ferozepore City. 0·42 at Muktsar. 0·25 at Fazilka. 0·44 at Nathana. 0·09 at Abohar. *Nil* at Jalalabad. | 1. Sufficient .. 2. (a) Do. (b) Sirhind canal is flowing with normal supply of water. 3. Generally good. | Wheat, 15 to 16 .. Gram, 11. Barley, 17. | Rain was useful for standing crops. Condition and expected yield of standing crops average on irrigated and below average on unirrigated areas. | .. |
| 7 | Lahore .. | 0·45 at Sadr .. 0·14 at Chunian. 0·40 at Kasur. | 1. Sufficient .. 2. (a) Do (b) Canals are flowing by rotation and the supply of water is inadequate. 3. Generally good. | Wheat, 16½ .. Gram, 11½. Barley, 19. | Condition of standing crops average. Sowing of extra spring crops continues. | Sowing of sugarcane and cotton is in progress. |

*REMARKS.*

Rain fell in parts of all the reporting districts (maximum 2·06" at Sialkot and minimum 0·02" at Nuh and Sohna, Gurgaon districts). It was useful for standing crops. Condition of standing crops (wheat, gram, barley and oilseeds) is average to good on irrigated and below average to average on unirrigated areas. Standing crops have been damaged by hailstorm in parts of Gurgaon and Shahpur. Wheat is reported to have been affected by rust and gram by blight in parts of Mianwali. Sowing of extra spring crops and sugarcane continues and that of cotton has commenced. Fodder is sufficient except in parts of the south-east and Ambala and Dera Ghazi Khan districts. Drinking water is generally sufficient. Supplies of canal water are sufficient in the Northern Administration and Sirhind and Upper Bari Doab Canals and generally insufficient elsewhere. Condition of cattle is generally fair except in Hissar. The daily average number of workers at the test works in progress in Rohtak and Gurgaon was 23,914 and 10,348 respectively. Retail prices in seers per rupee are as follows :—

Barley, 25. Jowar, 22. Bajra, 12. Rice common, 13. | Condition of standing crops about average with the exception of some crops already destroyed by hailstorm. sowing of extra spring crops is in progress. | Sowing of cotton is in progress. |
| 29 | Dera Ghazi Khan. | 0·25 at Sadr .. 0·16 at Taunsa. 0·61 at Jampur. 1·92 at Rajanpur. *Nil* at Fort Munro. | 1. Sufficient except in Pachadh tracts. 2. (a) Do. (b) Kurdhundi, Qutabdhundi and Shoria canals are flowing with sufficient supply of water. 3. Good. | Wheat, 17 .. Jowar, 20. Bajra, 20. Gram, 12½. | Condition and expected yield of standing crops average except rabi oilseeds crop in Rajanpur tahsil which is below average. Hailstorm damaged the crops in a few villages of Dera Ghazi Khan and Sanghar tahsils. Crops in two villages of Rajanpur tahsil are damaged by breach in canals. Rabi oil-seeds are reported to have been damaged by heavy rain and gram by insects. The extent of damage has not yet been reported by the tahsildars concerned. Sowing of extra spring crops continues. | Sowing of cotton is in progress. |

***REMARKS.***

Rain fell in parts of all the reporting districts except Rohtak, Gurgaon and Muzaffargarh (maximum in plains 2·69" at Mianwali and minimum 0·02" at Nakodar, Jullundur district). Condition of standing crops (wheat, gram, barley and oilseeds) is average to good on irrigated and generally average on unirrigated areas. Standing crops have been damaged by hailstorm in parts of Gujranwala, Shahpur, Jhelum, Montgomery and Dera Ghazi Khan, wheat by rust in parts of Jhang and gram by blight in parts of Jhelum and Mianwali. Reaping of wheat, gram, barley and oilseeds has commenced in parts of the south-east. Sowing of extra spring crops, sugarcane and cotton continues. Fodder is sufficient except in parts of the south-east and Ambala and Dera Ghazi Khan districts. Drinking water is generally sufficient. Supplies of canal water are generally adequate in the Southern and Northern Administrations and insufficient elsewhere. Condition of cattle is generally fair except in Hissar. The daily average number of workers at the test works in progress in Rohtak and Gurgaon was 33,015 and 5,754 respectively. Retail prices in seers per rupee are as follows :—

## PART I.
## STATISTICAL.

**Weather and Crop Report for the week ending 8 a. m., Monday, the 10th April, 1939.**

This report deals with all the districts of the province except Simla.

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 1 | Hissar | *Nil* .. | 1. Acute scarcity is being felt except in some Nahri tracts where people are managing on rabi fodder crops. Arrangements have been made to distribute fodder in kind in the district. 2. (a) Sufficient. (b) Perennial canals are flowing by rotation. Ghaggar canals are dry. 3. Cattle are in poor condition for want of fodder. About 75,000 cattle are being maintained on fodder taccavi besides cattle in the cattle concentration camp. | Wheat, 14. Barley, 16. Gram, 12½. Jowar, 14. Bajra, 13. .. | Rain is badly wanted. Condition of standing crops average on irrigated and poor on unirrigated areas. Sowing of extra spring crops continues in Fatehabad tahsil. | Sowing of irrigated sugarcane and cotton has commenced. |
| 2 | Rohtak .. | *Nil* .. | 1. Scarcity of fodder in unirrigated tracts continues. Fodder is being imported on concession rates from outside the district. 2. (a) There is no water in ponds of the barani tracts. (b) Adequate. 3. Generally satisfactory. | Wheat, 14½. Barley, 17. Gram, 12½. Jowar, 17. Bajra, 15. Gochni, 14. .. | Condition of standing crops average on irrigated area except gram which is below average. Crops on unirrigated areas of Sonepat tahsil are below average. Reaping of wheat, gram, barley and rapeseed has commenced. Probable yield of gram is below average and of other crops about average. | Sowing of sugarcane continues. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 3 | Gurgaon .. | *Nil* .. | 1. Scarce in Gurgaon, Rewari, Firozpur-Jhirka and Ballabgarh tahsils. Leaves and branches of trees are being used as fodder. Fodder is being distributed in the form of taccavi in the villages under affected areas. 2. (a) Sufficient. (b) Canal flowed in Palwal, Nuh and Firozpur-Jhirka tahsils. 3. Generally satisfactory. | Wheat, 12 to 14.. Barley, 17½ to 18. Gram, 12. Jowar, 15. Bajra, 14. | Condition of standing crops average on irrigated and poor on unirrigated areas. Reaping of wheat, barley and rapeseed continues. | Sowing of sugarcane and cotton continues. |
| 4 | Karnal .. | *Nil* .. | 1. Scarce .. 2. (a) Sufficient. (b) Satisfactory. 3. Do. | Wheat, 15 .. Gram, 13½. Barley, 21. | Condition of standing crops average on irrigated and much below average on unirrigated areas. Sowing of extra spring crops continues. | Sowing of sugarcane continues. |
| 5 | Ambala .. | 0·23 at Sadr .. 0·40 at Jagadhri. 0·11 at Naraingarh. 0·11 at Rupar. 0·12 at Kasauli. Rainfall was sufficient. | 1. Insufficient .. 2. (a) Sufficient. (b) Jumna canal is flowing. 3. Fair. | Wheat, 14½ to 14¾ Gram, 12. Barley, 17½. | Condition of standing crops average on irrigated and below average to average on unirrigated areas. | Sowing of sugarcane and cotton continues, |
| 6 | Simla .. | | Report not received. | | | |
| 7 | Kangra .. | 0·51 at Sadr .. 0·97 at Bangar. 1·93 at Kulu. 2·26 at Naggar. 0·59 at Palampur. 0·42 at Hamirpur. 0·23 at Dehra. 0·33 at Kangra. 0·25 at Nurpur. | 1. Sufficient .. 2. (a) Do. 3. Fair. | Wheat, 13 .. Gram, 8¾. Barley, 16. Maize, 14. Rice, 9½. | Condition of standing crops fair. Sowing of extra spring crops continues. | Sowing of sugar cane and cotton continues. |
| 8 | Hoshiarpur .. | 0·13 at Sadr .. No rain fell at other stations. | 1. Sufficient .. 2. (a) Do. (b) Shah Nahr is not still flowing in Dasuya tahsil. 3. Generally good. | Wheat, white, 14½ Wheat red, 15½. Gram, 10½. Barley, 17. Rice, common, 8 to 10. | Condition of standing crops above average on irrigated and about average on unirrigated areas. Probable yield is normal on the whole. Sowing of extra spring crops continues. | Sowing of sugarcane and cotton continues. |
| 9 | Jullundur .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. 3. Generally good. | Wheat, 16 to 17. Gram, 12. Barley, 22. Maize, 20. | Condition of standing crops good on irrigated and below average on unirrigated areas. Sowing of extra spring crops continues. | Sowing of sugarcane and cotton continues. |
| 10 | Ludhiana .. | 0·13 at Sadr .. No rain fell at other stations. | 1. Scarce .. 2. (a) Sufficient .. (b) Do. 3. Satisfactory. | Wheat, 14¾ .. Gram, 11. Barley, 17½. Maize, 18½. | Condition of standing crops above normal on irrigated and below normal on unirrigated areas Crops in 42 villages have been damaged by hailstorm. Sowing of extra spring crops continues. | Sowing of sugarcane is in progress. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of — Spring. | Prospects of — Autumn. |
|---|---|---|---|---|---|---|
| 11 | Ferozepore .. | *Nil* .. | 1 Sufficient .. 2 (a) Do. (b) Sirhind Canals are flowing with normal supply of water. 3. Generally good. | Wheat, 15 .. Gram, 11¼. Barley, 19. | Condition and expected yield of standing crops average on irrigated and below average on unirrigated areas. | .. |
| 12 | Lahore .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation. 3. Good. | Wheat, 16½ .. Gram, 11½. Barley, 18. | Condition of standing crops average. Crops of about 35 villages in Lahore tahsil have been damaged by hailstorm which fell on the evening of 6th April, 1939. Reports from other tahsils are awaited. | Sowing of sugarcane and cotton is in progress. |
| 13 | Amritsar .. | 0·05 at Tarn Taran. No rain fell at other stations. | 1. Sufficient .. 2 (a) Do. (b) Do. 3. Good. | Wheat, 16 Gram, 10½. | Condition of standing crops good on irrigated and average on unirrigated areas. Reaping of barley has commenced. Sowing of extra spring crops continues. Hailstorm has damaged crops in one village of Tarn Taran tahsil. | Sowing of sugarcane and cotton continues. |
| 14 | Gurdaspur .. | 0·11 at Pathankot No rain fell at other stations. | 1. Sufficient .. 2. (a) Do. (b) Do. 3. Good. | Wheat, 20 .. Gram, 10½. Barley, 25. Maize, 22. Rice, 13. | Condition of standing crops average. Sowing of extra spring crops continues. | Sowing of sugarcane and cotton continues. |
| 15 | Sialkot .. | *Nil* .. | 1. Sufficient .. 2 (a) Do. (b) Upper Chenab canal is flowing but its branches are closed. 3. Generally satisfactory. | Wheat, 16 to 17.. Gram, 10½. Maize, 17. Rice, 11. | Condition of standing crops above average on irrigated and average on unirrigated areas except in the villages which have been previously affected by hailstorm. Sowing of extra spring crops continues. | Sowing of sugarcane and cotton continues. |
| 16 | Gujranwala.. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation. 3. Generally satisfactory. | Wheat, 18 .. Gram, 11. Barley, 25. Rice, common, 12. | Condition of standing crops average to good on irrigated and average on unirrigated areas. Harvesting of barley is in progress. Probable yield is average. Sowing of extra spring crops continues. | Sowing of sugarcane and cotton continues. |
| 17 | Sheikhupura | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation. 3. Good. | Wheat, 17 .. Gram, 11 Barley, 22. Jowar, 17. Bajra, 18 Rice, 8. | Condition of standing crops satisfactory. Sowing of extra spring crops continues. Crops have been damaged by hailstorm. | Sowing of sugarcane and cotton continues. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder<br>2. Water supply for—<br>(a) Drinking.<br>(b) Canal irrigation.<br>3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of — Spring. | Prospects of — Autumn. |
|---|---|---|---|---|---|---|
| 18 | Gujrat .. | 0·06 at Kharian No rain fell at other stations. | 1. Sufficient. ..<br>2. (a) Do.<br>(b) Satisfactory<br>3. Generally good. | Wheat, 17.<br>Gram, 11.<br>Barley, 11.<br>Maize, 15.<br>Bajra, 12. | Condition of standing crops good on irrigated and average on unirrigated areas with the exception of gram crop which is reported to have been damaged by gram blight. Sowing of extra spring crops is in progress. | Sowing of sugarcane and cotton is in progress. |
| 19 | Shahpur .. | Nil .. | 1. Sufficient ..<br>2. (a) Do.<br>(b) Lower Jhelum canal remained closed. Private canals are flowing with adequate water supply.<br>3. Generally good. | Wheat, 16$\frac{1}{2}$ ..<br>Gram, 11. | Condition of standing crops on the whole normal except in those villages where the crops have been damaged by hailstorm. Sowing of extra spring crops continues. | Sowing of sugarcane is in progress. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 26 | Jhang .. | 0·03 at Sadr .. No rain fell at other stations. | 1. Sufficient .. 1. a) Do. (b) Canal is flowing. 3. Fair. | Wheat, 17 .. Gram, 10½. Maize, 16. Jowar, 16. Bajra, 14. | Reaping of standing crops continues. Probable yield is average. Sowing of extra spring crops continnes. | Sowing of sugar-cane and cotton continues. |
| 27 | Multan .. | Nil .. | 1. Sufficient .. 2. (a) Do. (b) Lower Bari Doab canal is flowing regularly while perennial canals from Sutlej are flowing by rotation. Sidhnai and Non-perennial canals from Sutlej and inundation canals from Chenab are dry. 3. Good. | Wheat, 16 .. Gram, 11½. Barley, 20. Jowar, 15. Bajra, 17. Maize, 16. | Condition of standing crops generally average except in a few villages of Multan, Khanewal, Lodhran and Mailsi tahsils where the crops are reported to be damaged by hailstorm. Reaping of gram and barley continues. Probable outturn is average. Sowing of extra spring crops continues. | .. |
| 28 | Muzaffargarh | Nil .. | 1. Sufficient. .. 2. (a) Do. (b) Some of the Indus canals are flowing with insufficient supply of water. 3. Average. | Wheat, 19. .. Gram, 10½. Barley, 21. Jowar, 15. Bajra, 17. Rice 13. | Condition of standing crops about average. Some crops have been affected by river floods. | Sowing of sugar-cane and cotton continues. |
| 29 | Dera Ghazi Khan. | 0·02 at Taunsa. No rain fell at other stations. | 1. Sufficient except in Pachadh circle. 2. (a) Do. (b) Nurdhundi and Qutabdhundi canals flowed with sufficient water. 3. Generally good. | Wheat, 17 .. Jowar, 20. Bajra, 20. Gram, 12½. | Condition and expected yield of standing crops average except rabi oilseeds in Rajanpur tahsil which are below average. There is a complaint of damage by insects to gram crop. Hailstorm has also damaged crops in parts of Rajanpur tahsil and the extent of damage is awaited. Sowing of extra spring crops continues. | Sowing of cotton continues. |

*REMARKS.*

Light rain fell in parts of some districts. Condition of standing crops (wheat, gram, barley and oilseeds) is average to good on irrigated and below average to average on unirrigated areas. Standing crops have been damaged by hailstorm in parts of Ludhiana, Lahore, Amritsar, Attock and Dera Ghazi Khan, and by river flood in parts of Muzaffargarh. Damage to gram by blight is reported from the Rawalpindi Division excepting Rawalpindi district and by insects from parts of Dera Ghazi Khan. Harvesting of gram, barley and oilseeds continues and that of wheat has commenced in the south-east. Sowing of extra spring crops, sugarcane and cotton is in progress. Fodder is sufficient except in parts of the south-east and Ambala and Dera Ghazi Khan districts. Drinking water is generally sufficient. Supplies of canal water are generally adequate in the Southern and Northern Administrations and insufficient elsewhere. Condition of cattle is generally fair except in Hissar. Retail prices in seers per rupee are as follows :—

NOTES.—Prices of rice as shown in the statement are for the quality in common demand.
Variations in prices are due to fluctuations in imports and exports;

*No wholesale salt sold; ‡ Not sold;

§ Not procurable. †† Under enquiry; §§ The figures entered were received too late for insertion in the Supplement to *Punjab Gazette*, dated 24th March, 1939.

The price of " nathu " and " Masur " at Simla during the fortnight ending 31st March, 1939, was Nil and 6 seers 8 chataks per rupee, respectively.

The grades of salt for which quotations are given in this statement are as follows —

| | |
|---|---|
| Hissar ... ... ... ... | Didwana. |
| Rohtak, Gurgaon and Karnal ... ... ... | Sambhar. |
| Remaining districts ... ... ... ... | Rock or Sendha. |

In the statement for the fortnight ending 15th February, 1939, under head (a) and in the statement for the fortnight ending 28th February, 1939, under head (b) under head firewood against Rohtak *read* " 80 seers " *for* ††
In the statement for the fortnight ending 15th February, 1939, under head (a) and in the statement for the fortnight ending 28th February, 1939, under head (b) under head wheat against Shahpur *read* " 16 seers " *for* " 17 seers."
In the statement for the fortnight ending 15th March, 1939, under head (a) under head rice (common) against Attock *read* " 12 seers " *for* " 12 seers 8 chhataks."
In the statement for the fortnight ending 15th March, 1939, under head (a) under head firewood against Sheikhupura *read* " 48 seers " *for* ††
In the statement for the fortnight ending 15th February, 1939, under head (a) and in the statement for the fortnight ending 28th February, 1939, under head (b) under head cotton (Desi) cleaned against Rawalpindi *read* " 3 seers 5 chhataks " *for* ††

Expected yield is average except of rabi oilseeds which is below average. There is a complaint of damage by insects to gram crop in Jampur and Rajanpur tahsils. Sowing of extra spring crops continues. | Sowing of sugarcane and cotton continues. |

REMARKS.

Light rain fell in parts of most districts. Condition of standing crops (wheat, gram, barley and tobacco) is average to good on irrigated and below average to average on unirrigated areas. Standing crops have been damaged by hailstorm in parts of Ludhiana, Amritsar and Gurdaspur and gram by blight in Gujrat, Shahpur and Mianwali districts and by insects in parts of Dera Ghazi Khan. Harvesting of spring crops, and sowing of extra spring crops, sugarcane, cotton and fodder continue. Fodder is sufficient except in parts of a few districts. Drinking water is generally sufficient. Supplies of canal water are adequate in the Northern Administration and Sirhind, Upper Bari Doab, Dipalpur and Eastern canals and insufficient elsewhere. Condition of cattle is generally fair except in Hissar. The daily average number of workers at the test works in progress in Rohtak and Gurgaon was 30,418 and 9,148, respectively. Retail prices in seers per rupee are as follows :—

| | Wheat. | | Gram. | | Barley. | | | Corresponding prices of last year. Wheat. | | Gram. | | Barley. | |

## PART I.
## STATISTICAL.

### Weather and Crop Report for the week ending 8 a. m., Monday, the 24th April, 1939.

This report deals with all the districts of the province

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of — Spring. | Prospects of — Autumn. |
|---|---|---|---|---|---|---|
| 1 | Hissar .. | *Nil* .. | 1. Acute scarcity is being felt except in some Nahri tracts where people are managing on rabi fodder crops. Arrangements have been made to distribute fodder in kind in the district. 2 (a) Sufficient in Nahri villages. Water in small ponds in Bagar and barani tracts is drying although in bigger ones it is still available. (b) Perennial Canals are flowing by rotation and the Ghaggar canals are dry. 3. Cattle are in poor condition for want of fodder. About 75,000 cattle are being maintained on fodder taccavi besides cattle in cattle concentration camp. | Wheat, 14¼. Gram, 12½. Barley, 16½. Jowar, 14. Bajra, 13. | Condition of standing crops average on irrigated area. Harvesting is in progress. Probable yield is below normal on irrigated and poor on unirrigated areas. Sowing of extra spring crops continues. | Sowing of sugarcane and cotton continues. |
| 2 | Rohtak .. | *Nil* .. | 1. Scarcity of fodder in unirrigated tracts continues. Fodder is being imported on concession rates from outside the district. 2. (a) There is no water in ponds of the barani tracts. (b) Adequate. 3. Generally satisfactory. | Wheat, 14½ .. Gram, 12½. Barley, 17. Jowar, 5. Bajra 4. Gochni, 13½. | Condition of standing crops average on irrigated areas except gram which is below average. Crops on unirrigated area of Sonepat tahsil are below average. Harvesting of wheat, gram, barley and rapeseed continues. Probable yield on irrigated area is average except of gram which is below average. Yield of crops on unirrigated area of Sonepat tahsil is below average. | Sowing of sugarcane continues and of cotton has commenced. |

PGG

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 3 | Gurgaon .. | Nil .. | 1. Sufficient for the present. Fodder is being distributed in the form of taccavi in the villages under affected area. 2. (a) Sufficient in wells. Pools have generally dried up in the whole of the district. (b) Canal flowed in Ballabgarh, Palwal and Firozpur-Jhirka tahsils. 3. Generally satisfactory. | Wheat, 12 to 14.. Gram, 12. Barley, 17½ to 18. Jowar, 15. Bajra, 14. | Condition of standing crops average on irrigated and poor on unirrigated areas. Reaping of wheat and threshing of barley continue. Probable yield is average on irrigated and poor on unirrigated areas. | Sowing of sugarcane, cotton and fodder continues. |
| 4 | Karnal .. | Nil .. | 1. Scarce .. 2. (a) Sufficient. (b) Satisfactory. 3. Do. | Wheat, 15½ .. Gram, 12¾. Barley, 21. | Condition of standing crops average on irrigated and much below average on unirrigated areas Threshing is in progress. | Sowing of cotton and fodder continues. |
| 5 | Ambala .. | Nil .. | 1. Insufficient .. 2. (a) Sufficient. (b) Western Jumna canal is flowing. 3. Generally good. | Wheat, white, 15½ Wheat, red, 16. Gram, 12½. Barley, 17½. | Condition of standing crops average on irrigated and below average on unirrigated areas. Harvesting continues. Probable yield is average on irrigated and below average on unirrigated areas. | Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 6 | Simla .. | Nil .. | 1. Sufficient .. 2. (a) Do. (b) Water in hill-streams is sufficient. 3. Good. | Wheat, 11 .. Gram, 9. Barley, 14. Maize, 13. Masur, 6½. Rice, ordinary, 9. | Condition of standing crops average. | .. |
| 7 | Kangra .. | 0·07 at Kulu .. No rain fell at other stations. | 1. Sufficient .. 2. (a) Do. 3. Generally fair. | Wheat, 13½ .. Gram, 9. Barley, 16. Maize, 15. Rice, common, 10. | Condition of standing crops fair. | Sowing of sugarcane and cotton continues. |
| 8 | Hoshiarpur.. | Nil .. | 1. Sufficient .. 2. (a) Adequate. (b) Shah Nahr is not still flowing in Dasuya tahsil. 3. Generally good. | Wheat, white, 16 Wheat, red, 16¾. Gram, 11. Barley, 18. Rice, common, 8 to 10. | Condition of standing crops above average on irrigated and about average on unirrigated areas. Reaping of gram and wheat is in progress. Probable yield is normal on the whole. Sowing of tobacco continues. | Sowing of sugarcane and cotton continues. |
| 9 | Jullundur .. | Nil .. | 1. Sufficient .. 2. (a) Do 3. Generally good. | Wheat, white, 16 Wheat, red, 16½. Gram, 12. Maize, 19. | Condition of standing crops good on irrigated and below average on unirrigated areas. Sowing of extra spring crops continues. Harvesting has commenced. Probable outturn is good. | Sowing of sugarcane and cotton continues. |
| 10 | Ludhiana .. | Nil .. | 1. Sufficient except in Ludhiana tahsil. 2. (a) Sufficient. (b) Do. 3. Generally satisfactory. | Wheat, 16½ .. Gram, 11. Barley, 18. Maize, 19. | Condition of standing crops about average on irrigated and below average on unirrigated areas except in the villages where crops have seriously been damaged by hailstorm. Harvesting has begun. Probable yield is average on irrigated and below average on unirrigated areas. Sowing of extra spring crops continues. | Sowings continue. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 11 | Ferozepore .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Sirhind Canals are flowing with normal supply of water. 3. Generally good. | Wheat, 15¾ to 16<br>Gram, 11½.<br>Barley, 20. | Condition of standing crops average on irrigated and below average on unirrigated areas. Harvesting is in progress. Probable yield is average on irrigated and below average on unirrigated areas. | .. |
| 12 | Lahore .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation. 3. Good. | Wheat, 16 ..<br>Gram, 11½.<br>Barley, 20. | Condition of standing crops average. Harvesting of wheat, gram and barley is in progress. Probable outturn is normal. Wheat crop has been damaged by rust in Lahore and Chunian tahsils. | Condition of standing crops average. Sowing of sugarcane, cotton and fodder continues. |
| 13 | Amritsar .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation and the supply of water is sufficient. 3. Fair. | Wheat, 16½<br>Gram, 11. | Condition and expected yield of standing crops good in Amritsar and Tarn Taran and average elsewhere on irrigated and average on unirrigated areas. Harvesting of wheat, gram, barley and berrara is in progress. Sowing of extra spring crops continues. | Sowing of sugarcane, cotton and fodder continues. |
| 14 | Gurdaspur .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Do. 3. Good. | Wheat, 20 ..<br>Gram, 10½.<br>Barley, 24.<br>Maize, 22.<br>Rice, common, 13. | Harvesting of barley continues and that of wheat has commenced. Wheat crop has been affected by adverse winds in some villages in Gurdaspur, Batala and Shakargarh tahsils. Sowing of tobacco continues. | Sowing of sugar cane and cotton continues. |
| 15 | Sialkot .. | *Nil* .. | 1. Ample .. 2 (a) Sufficient. (b) Upper Chenab canal is flowing but its branches are closed. 3. Generally satisfactory. | Wheat white, 16¾<br>Wheat, red 17½.<br>Gram, 10⅞<br>Maize, 17[illegible].<br>Rice, ordinary, 11½ | Condition of standing crops above average on irrigated and average on irrigated areas. Sowing of extra spring crops continues. | Sowing of sugarcane, cotton and fodder continues. |
| 16 | Gujranwala.. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation. 3. Satisfactory. | Wheat, 17¾ ..<br>Gram, 11¼.<br>Barley, 23¾.<br>Rice, common, 12. | Condition of standing crops average to good in irrigated and average on unirrigated areas except in Wazirabad tahsil where the unirrigated crops are below average. Harvesting of barley is in progress. Probable yield is average. Sowing of extra spring crops continues. | Sowing of cotton continues and of fodder has commenced. |
| 17 | Sheikhupura | *Nil* .. | 1. Sufficient except in some villages of Shahdara tahsil. 2. (a) Sufficient (b) Canals are flowing by rotation in Nankana Sahib tahsil and remained closed in Shahdara and Sheikhupura tahsils. 3. Good. | Wheat, 17 ..<br>Gram, 11½.<br>Barley, 23.<br>Maize, 17.<br>Jowar, 17.<br>Bajra, 18<br>Rice, common, 9. | Condition of standing crops satisfactory except gram crop which has suffered from blight in some parts of the district. Harvesting has begun. Sowing of extra spring crops continues. | Sowing of sugarcane, cotton and fodder continues. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder<br>2. Water supply for—<br>(a) Drinking.<br>(b) Canal irrigation.<br>3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of — Spring. | Prospects of — Autumn. |
|---|---|---|---|---|---|---|
| 1b | Gujrat .. | *Nil* .. | 1. Sufficient. ..<br>2. (a) Do.<br>(b) Satisfactory<br>3. Good. | Wheat, 18 ..<br>Gram, 10½.<br>Barley, 2 .<br>Maize, 17.<br>Bajra, 17.<br>Jowar, 17. | Condition of standing crops fair to good with the exception of gram crop which has been damaged by gram blight at places. Harvesting of wheat, gram and barley has commenced. Probable yield is average. Gram crop has been damaged by gram blight but the extent of damage is not yet known. | Condition of standing crops good on irrigated and average on unirrigated areas. Sowing of cotton and sugarcane continues. |
| 19 | Shahpur .. | *Nil* . | 1. Sufficient ..<br>2. (a) Do.<br>(b) Lower Jhelum and private canals are flowing with adequate supply of water.<br>3. Generally fair. | Wheat, 14 to 17<br>Gram, 10 to 14.<br>Barley, 16 to 20.<br>Bajra, 16 to 17.<br>Jowar, 15 to 18.<br>Maize, 14 to 16. | Condition of standing crops fair to good on irrigated and average on unirrigated areas. Gram crop has been damaged by gram blight. Harvesting of wheat, barley and gram continues. | Sowing of cotton and fodder is in progress. |
| 20 | Jhelum .. | *Nil* .. | 1 Average ..<br>2. (a) Sufficient.<br>3. Generally good. | Wheat, 15½ ..<br>Gram, 10½.<br>Barley, 17¼.<br>Bajra, 17. | Condition of standing crops good on irrigated and average on unirrigated areas. Harvesting is in progress. | .. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of: Spring. | Prospects of: Autumn. |
|---|---|---|---|---|---|---|
| 26 | Jhang .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing. 3. Fair. | Wheat, 19 .. Gram, 13. Jowar, 15½. Bajra, 15½. Maize, 16. | Harvesting is in progress. Probable yield is average on the whole. Sowing of melons continues. | Sowing of cotton and fodder continues. |
| 27 | Multan .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Perennial and non-perennial canals from Sutlej and Sidhnai are flowing by rotation while inundation canals from Chenab are flowing by rotation with inadequate supply of water. Lower Bari Doab canal is dry. 3. Generally Good. | Wheat, 16½ .. Gram, 11½. Barley, 21. Jowar, 15. Bajra, 17. Maize, 14. | Condition and expected yield of standing crops generally average except in a few villages of Multan, Khanewal, Lodhran and Mailsi tahsils where the crops are reported to be damaged by hailstorm. Gram crop in Lodhran tahsil is reported to have been damaged by insects. The extent of damage varies from annas 7 to 0 per rupee. Harvesting of wheat, barley, gram, oilseeds, etc., continues. Sowing of vegetable continues. | Sowing of fodder continues. |
| 28 | Muzaffargarh | *Nil* .. | 1. Sufficient except in Thal tract of Leiah tahsil 2. (a) Sufficient. (b) Canals of the Indus Series are flowing by rotation with sufficient supply of water but the Taliri canal of the Chenab Series is yet low. 3. Average. | Wheat, 19 .. Gram 11. Barley, 21. Jowar, 15. Bajra, 18. Rice, common, 13. | Condition of standing crops average. Harvesting has commenced. | Sowing of cotton and fodder is in progress. |
| 29 | Dera Ghazi Khan. | *Nil* .. | 1. Sufficient except in Pachadh tracts. 2 (a) Do. (b) Nurdhundi, Qutabdhundi, Sahiban and Barohan canals are flowing with sufficient supply of water. The former two canals flowed by rotation. 3. Good. | Wheat, 17½ .. Jowar, 18. Bajra, 20. Gram, 16. | Condition, and expected yield of standing crops average except of rabi oilseeds of Rajanpur tahsil which are below average. Sowing of extra spring crops continues. | Sowing of sugarcane and cotton continues. |

REMARKS.

EXCEPT for light showers in parts of a few districts weather remains ddry. Condition of standing crops (wheat, gram, barley and tobacco) is average to good on irrigated and below average to average on unirrigated areas. Standing crops have been damaged by hailstorm in parts of Lyallpur. Wheat is reported to have been affected by rust in parts of Lahore and by strong winds in parts of Gurdaspur. Damage to gram by blight is reported from parts of Sheikhupura, Gujrat, Shahpur and Mianwali and by insects from parts of Multan. Harvesting of spring crops continues. The probable yield is generally average on irrigated and below average to average on unirrigated areas. Sowing of extra spring crops, sugarcane, cotton and fodder is in progress. Fodder is sufficient except in parts of some districts. Drinking water is generally sufficient. Supplies of canal water are sufficient in Northern Administration and Sirhind, Upper Bari Doab, Dipalpur, Eastern and Sidhnai Canals and insufficient elsewhere. Condition of cattle is generally fair except in Hissar. The daily average number of workers at the test works in progress in Rohtak and Gurgaon was 29,418 and 10,389, respectively. Retail prices in seers per rupee are as follows :—

(a) Not available.

Average percentage ratio of current to pre-war prices or unweighted index number = 95.

Unweighted index number of wholesale prices for the first fortnight of April, 1938, was 94.

LALL CHAND,

# Notes on the condition and prospects of crops in each district of the Punjab for the month of March, 1939.

## 1.—HISSAR DISTRICT.

In the beginning of the month there was a good rainfall in Fatehabad and Hissar tahsils. There were also some showers in the district in the last week of the month which were beneficial to the standing crops. Where the rain was sufficient bajra crop is being sown in unirrigated areas. Extra spring crops are also being sown in the district. The condition of standing crops on irrigated areas has become average in all tahsils and on unirrigated areas it is still poor. Outturn is expected to be nominal and the unirrigated crops which were green at the time of rain in February and March, 1939, will mostly be used as fodder. The condition of cattle is poor due to want of fodder. About 75,000 cattle are being maintained by the district on fodder taccavi besides the cattle in cattle concentration camp. There is an acute scarcity of fodder in the district except in some nahri villages where people are managing on rabi crops. Arrangements have also been made to distribute fodder in kind in the district. Cattle disease was reported in two villages in the district during the month and consequently Veterinary Department has been informed to take necessary action. Public health is generally good except in some villages where smallpox had broken out. Perennial canals remained running by rotation except in third week of the month when they were closed. The Ghaggar canals flowed in the bed in first fortnight and then they became dry. Drinking water is sufficient in nahri villages. Water in ponds of bagar and barani villages is also available. Famine relief works are in progress in 31 centres. The price of food-stuffs has no appreciable change.

## 2.—ROHTAK DISTRICT.

Rain at Rohtak 1·02, Gohana 0·45, Jhajjar 0·36, Beri 0·10 and Sonepat 0·16 inches. Sowing of sugarcane in irrigated tracts commenced in the middle of March. Area sown is, below average. Germination is good. Condition of wheat, barley, rapeseed and tobacco is average and of gram below average on irrigated and of wheat, barley, gram, rapeseed and vegetables is below average on unirrigated areas. Harvesting of irrigated wheat barely, rapeseed and gram commenced in the 4th week of this month. Outturn of gram is below average and that of other crops is about average. Scarcity of fodder in unirrigated tracts of the district continues. Fodder is being imported on concession rates from outside the district. Foot and mouth disease in cattle continues in only 6 villages of the district. The general condition of the cattle is on the whole satisfactory. Public health has been satisfactory during the month under report. Supply of canal water was adequate. There is no water in ponds of the barani tracts.

## 3.—GURGAON DISTRICT.

During this month rainfall varied from 0·05 to 0·32 inches in the district and proved beneficial to the standing rabi crops. Winds and "Rooli" pest have caused a considerable damage to the standing rabi crops. Crushing of sugarcane continued. The expected yield was average on irrigated and poor on unirrigated areas. Barley, sarshaf and gram crops were also harvested. The expected yield was below average to average on irrigated and poor on unirrigated areas. Sugarcane, tobacco, onion, cotton and extra spring crops were sown during the month under report also, but the sowing was not extensive owing to lack of moisture. Food grains are available. Fodder is scarce except in Palwal tahsil. Leaves and branches of trees are being used as fodder. Fodder in the form of taccavi was also distributed in the affected areas in the whole of the district. Drinking water in wells both for human beings and cattle is sufficient. Pools have generally dried up in the whole of the district. Condition of the cattle is generally satisfactory, but the scarcity of fodder has affected them. Rinderpest and foot and mouth diseases were reported from a few villages in the district. Canal flowed in Palwal, Nuh, Ballabgarh and Firozpur-Jhirka tahsils by turns. Supply of water was sufficient. The state of public health remained generally satisfactory but the smallpox was reported from some villages of the district.

## 4.—KARNAL DISTRICT.

The rainfall during the month under report benefited the standing rabi crops. The sowing of sugarcane and extra spring crops has commenced. The condition of the standing rabi crops is average on the irrigated and poor on the unirrigated soils. The yield is expected to be about normal in the case of the irrigated but poor in that of the unirrigated crops. The condition of cattle is improving owing to the increase of green fodder since

the recent rainfall. The outbreak of rinderpest and foot and mouth diseases has been reported from four villages of Panipat tahsil. Public health is satisfactory on the whole but smallpox disease has broken out in four villages of Panipat tahsil. Canals worked according to the programme but the supplies were inadequate. Prices have a tendency to fall.

5.—AMBALA DISTRICT.

Rain is sufficient throughout the district. The rain in this month benefited the standing crops. The condition of standing crops is average on irrigated and below average on unirrigated areas. Harvesting of sugarcane is over now. Yield is below normal. Sowing of sugarcane and cotton continued. Condition of cattle is generally good. Grazing is available. Western Jumna canal is flowing with adequate supply of water. Prices are stationary. Public health is generally good.

6.—SIMLA DISTRICT.

The condition of standing crops in both the tahsils of Simla and Kotkhai is average. Condition of cattle is good. Public health is good but chicken pox disease is spreading in certain villages. The vaccination is being done. Water in hill stream is sufficient.

7.—KANGRA DISTRICT.

Rainfall during the month was much above the average. It was beneficial to rabi crops. Some area was sown with sugarcane, cotton and tobacco during the month. The condition of the standing crops is fair in the irrigated and below normal in the unirrigated areas. Cattle are in fair condition. Fodder is sufficient. Hæmorrhagic septicæmia is reported from some parts of Dehra tahsil Public health is fair. Smallpox is reported from some villages of Kangra, Dehra and Palampur tahsils. Water in streams and kuhls was sufficient for irrigation purposes Prices are stationary.

8.—HOSHIARPUR DISTRICT.

The rainfall was above the average throughout the district. The corn will be found in a full nourishing condition. The condition of standing crop is above average on irrigated and about average on unirrigated areas. Sowings commenced abnormally regarding sugarcane, cotton, rabi fodder, tobacco, melons and water-melons. Harvesting of spring crops is not still in hand. It will be delayed this time and general harvesting is expected to be made with effect from 20th April. Cattle are in sound health for the district as a whole. Fodder is sufficient. Public health is good on the whole. Shahnahr did not run this month. Prices have a fall in general. As the prospects of rabi crops are mostly hopeful so the zamindars are free of all the anxieties and they have sown extra spring crops as well as the sugarcane and cotton abnormally.

9.—JULLUNDUR DISTRICT.

Rainfall was above average throughout the district. It has benefited the standing crops to a great extent. Sowing of vegetables, sugarcane and cotton is in progress. Condition of the standing irrigated crops is good and that of unirrigated is average. Crushing of sugarcane has continued throughout the month and the outturn is normal. Cattle are generally in good condition and stray cases of foot and mouth disease have been reported from Nakodar and Phillaur tahsils. Public health is generally good and stray cases of smallpox have been reported from Nakodar and Phillaur tahsils.

10.—LUDHIANA DISTRICT.

The rainfall was below average in Samrala tahsil while above average in Ludhiana and Jagraon tahsils. Sowing of extra spring and sugarcane crops was in progress during the month. The occurrence of hailstorms damaged the rabi crops of 42 villages of this district. The condition of the standing crops is above and below average both on irrigated and unirrigated lands respectively except in the villages damaged by hailstones. The yield is expected to be above and below normal both on irrigated and unirrigated lands respectively. The condition of the cattle remained satisfactory on the whole except the cattle suffered from foot and mouth in certain villages. The state of public health is satisfactory on the whole. The working of the canal is as usual.

11.—FEROZEPORE DISTRICT.

Rainfall was sufficient to some extent but there are some complaints of hailstorms in the district. Condition of the standing crops is normal. Fodder and drinking water are sufficient. Public health is good except some complaints of smallpox in some villages in the district. Sirhand canals have been flowing during the month.

12.—LAHORE DISTRICT.

The rainfall was below normal in Chunian and above normal in Lahore and Kasur tahsils during the month under report. It benefited the standing crops considerably. The sowing of sugarcane, cotton, tobacco and vegetables is below normal. The condition of wheat, gram, barley, oilseeds, vegetables and fodder is average and the outturn is expected to be normal. Rinderpest disease appeared in some villages of Chunian and Lahore tahsils, otherwise the general condition of the cattle is satisfactory. The general condition of public health is good. The canals remained flowing by rotation.

13.—AMRITSAR DISTRICT.

Rainfall during the month was above average. The condition and expected yield of standing crops are good in Amritsar and Tarn Taran and average in Ajnala tahsil on irrigated and average on unirrigated areas on the whole. Hailstorms have damaged to some extent the standing crops of gram, wheat, berrara and toria in some villages of Amritsar and Tarn Taran tahsils and 11 villages of Ajnala tahsil. Condition of cattle is fair. Public health is good. Canals are working by rotation and the supply of water is sufficient. Sowing of sugarcane, tobacco, melon and vegetables is in progress.

14.—GURDASPUR DISTRICT.

Rainfall during the month was much above average in all the tahsils. Sowing of cane, cotton, tobacco, and melon, etc., is in progress. The condition of the rabi crops is average owing to recent rains except in the hilly tract of the Pathankot tahsil. Condition of cattle is generally good with the exception of some villages in Batala, Gurdaspur and Pathankot tahsils where hæmorrhagic septicæmia and rinderpest are reported to be prevalent. Public health is generally good. Smallpox was reported to be prevalent in some villages. Government canals are closed.

15.—SIALKOT DISTRICT.

Rainfall during the month under report in Narowal 2·04, Pasrur 2·09, Daska 1·82 and in Sialkot 4·38 inches was beneficial to the standing rabi crops, as well as to the coming kharif. Sowing of cotton, sugarcane, tobacco, fodder and vegetables continued during the month. Condition of standing crops is above average in the irrigated and average in the unirrigated areas on the whole except in the villages which have been affected by the previous hailstorm. Yield of standing crops is expected to be average on the whole. Condition of cattle is generally satisfactory but there has been a complaint of hæmorrhagic septicæmia, rinderpest and smallpox diseases in certain villages in the district. Health is generally satisfactory, but there has been a complaint of smallpox disease in certain villages in the Pasrur tahsil and the District Medical Officer of Health was informed accordingly. Upper Chenab Canal is running but its branches are closed.

16.—GUJRANWALA DISTRICT.

More than sufficient rain fell during the period under report. In some places it was accompanied by hailstorm which damaged the crops in a few villages of the Wazirabad and Gujranwala tahsils. Sowings of extra spring crops continued and that of cotton and sugarcane have commenced. Condition of standing crops is generally average to good on irrigated and average on unirrigated lands. The recent rains have proved very useful to the standing crops in improving their condition. Barley crop is being harvested in a few places and its yield is reported to be average. Condition of cattle is satisfactory except that in a few villages *daba* and hæmorrhagic septicæmia diseases remained prevalent. Necessary precautionary measures have been adopted by the Veterinary Department. Fodder is sufficient. Smallpox is reported to be prevailing in two or three villages. The general state of public health is satisfactory. Canals ran by rotation. There has been no complaint of sufficient supply of canal water.

17.—SHEIKHUPURA DISTRICT.

Amount of rainfall during the month at Sheikhupura 0·56, Shahdara 1·43 and Nankana Sahib 0·84 inches. Rains proved to be useful for the standing crops, but a link of hailstorm passed through some villages of this district, which caused a havoc in them. The extent of the damage is not known up till now. The season remained favourable. The outturn is expected to be normal. The general condition of standing crops is reported to be good. The condition of the cattle is reported to be good. Canals kept running rotationally during the month. Ravi river flooded twice and the crops were slightly damaged.

18.—GUJRAT DISTRICT.

There was good rainfall all over the district varying from 1·87 to 3·32 inches It benefited the standing crops considerably. The crops were, however, damaged in Gujrat tahsil in a few villages by hailstorm. The condition of standing crops was fair to good in both the irrigated and unirrigated areas. Pressing of sugarcane was finished during the month under report with average outturn. Cattle were generally in fair condition. Public health was generally fair. Some cases of smallpox were, however, reported from a few villages and the Public Health Department took speedy action. Canals remained flowing and there were no complaints of supply. Stocks of foodstuffs were sufficient in markets and with zamindars. The prices were stationary.

19.—SHAHPUR DISTRICT.

There was a good rainfall varying from 0·54 to 5·91 inches at all raingauge stations. It was beneficial to standing crops. Vegetables and sugarcane have been sown in this month. Condition of the standing crops remained fair to good in irrigated and average in unirrigated areas. Recent hailstorm has damaged the standing crops to a great extent in some villages. Cattle generally remained in fair condition except for a few complaints of foot and mouth disease. Fodder is sufficient except in Khushab tahsil. Public health remained satisfactory except for a few complaints of smallpox. Southern and northern branches of Lower Jhelum canal remained flowing turn by turn with adequate water supply. Rural development scheme remained in progress in Shahpur tahsil.

20.—JHELUM DISTRICT.

There was 3·10, 3·04 and 3·84 inches rainfall in P. D. Khan, Jhelum and Chakwal, respectively, which proved beneficial to the standing crops. Some sowings of tobacco, melons and cotton have been made during the month. The condition of standing crops is good in the irrigated and average in the unirrigated areas. Yield is expected to be average. The general condition of cattle is good now. The state of public health is good. Prices are stationary.

21.—RAWALPINDI DISTRICT.

The rainfall during the month was above average. The condition of standing crops is average throughout the district. The yield is considered to be normal. The condition of cattle is fair except in some villages of Rawalpindi, Gujar Khan tahsils where foot and mouth and black-quarter diseases are reported. Small-pox in some villages of Rawalpindi, Gujar Khan and Kahuta tahsils is reported, Prices are as usual. Hailstorm on 28th March, 1939, damaged the crop in four villages round about Taxila.

22.—ATTOCK DISTRICT.

Rainfall during the month was above avera e. Condition of standing crops in irrigated area is good while in unirrigated area it is average to good. The yield in the irrigated area is expected to be cent per cent and 75 per cent in the unirrigated area. Condition of cattle is fair on the whole but foot and mouth disease is reportep in one, one and seven villages of Fatehjang, Pindigheb and Attock tahsils respectively. Public health is satisfactory but smallpox is reported in 19 villages of the district and 78 cases are reported. Fodder is sufficient and water is also sufficient.

23.—MIANWALI DISTRICT.

Rainfall at Mianwali 5·20. Isakhel 2·76 and Bhakkar 2·43 inches. Rainfall has been too much and the wet weather continues and is now a source of danger. Sowing of extra spring crops have commenced. Condition and expected yield of standing crops is good on irrigated and average on unirrigated areas. Condition of cattle is fair. Cattle suffered from rinderpest in one village of Mianwali tahsil and one village of Bhakkar tahsil. Public health remained satisfactory on the whole. One village in Mianwali tahsil was infected with smallpox, but precautionary measures were adopted by the Health Department. Nammal canal in Mianwali is now closed while Kurram canal in Isakhel watered lands adequately. Gram blight is damaging crops throughout the district. Kungi also appeared in some villages of Mianwali tahsil.

24.—MONTGOMERY DISTRICT.

Sowing of extra spring crops continued during the month. The condition of standing crops is about average except that of a few villages of Okara, Montgomery and Dipalpur tahsils where crops were damaged by hailstorm. Condition of cattle is satisfactory on the whole except that there is a little complaint of *galghotu* and foot and mouth diseases in certain villages of the district. The public health of the district remained disturbed by the epidemic of smallpox during the month under report. Forty-four cases and 7 deaths took

place in 13 villages of District Board and the town of Montgomery (8,989) persons were protected against the disease at the infected localities. Non-perennial canals remained closed during the whole month while perennial canals have been flowing by *warabandi* system.

25.—LYALLPUR DISTRICT.

Rain at Toba Tek Singh 0·45, Samundri 1·30, Lyallpur 0·77 and Jaranwala 0·69 inches. The sowing of vegetabels is in progress and that of sugarcane and fodder has commenced. The condition of the standing crops is on the whole normal except in those villages which have been damaged by hailstorm. Gram crop has badly been affected by gram blight. The pressing of sugarcane and harvesting of toria have finished. The yield of sugarcane is 90 per cent and of toria cent per cent of the normal. The condition of the cattle is generally good but a few cases of hæmorrhagic septicæmia, foot and mouth and smallpox have been reported from all the tahsils. The Veterinary Assistant of ilaqas has been informed by the patwaris concerned. Fodder is sufficient. The public health is generally good but there is a complaint of smallpox in some villages of Samundri, Toba Tek Singh and Jaranwala tahsils. Canals are flowing satisfactorily.

26.—JHANG DISTRICT.

The rainfall was above average in Shorkot tahsil and below average in Jhang and Chiniot tahsils. It was beneficial to the standing crops. Vegetables, onions, melons, china, sugarcane, rwan and tobacco are being sown. The condition of crops is average except wheat which is reported to be damaged by 'kungi' in Shorkot tahsil. The condition of the cattle is fair. Fodder (green and dry) is available. Public health is good. The canals are working as usual. There were floods in the river.

27 —.MULTAN DISTRICT.

Rain at Mailsi 0·53, Lodhran 0·66, Shujabad 0·83, Multan 1·49, Kabirwala 0·55 and Khanewal 0·89 inches was sufficient. Sowings of vegetables and jowar and plantation of tobacco and sugarcane continued. Germination is generally good except in hailstricken areas where such crops previously sown were damaged by hailstorm and their new sowings are being done. Condition of standing crops is generally average except in a few villages of Multan, Khanewal, Mailsi and Lodhran tahsils where the crops are reported to be damaged by hailstorm. Peas and gram crops of a few villages in Kabirwala tahsil have been damaged by river flood. The reports regarding extent of damage are awaited from the tahsildars concerned. Harvesting of peas, methra and vegetables continued ; outturn is generally average except peas of Kabirwala tahsil, the outturn of which is below normal for the reasons explained above. Condition of cattle was good and supply of fodder was generally sufficient. State of public health was generally good except in a few villages of Multan, Lodhran and Kabirwala tahsils wherefrom some cases of smallpox were reported. The Health Department took vigorous preventive measures. Lower Bari Doab Canal was flowing regularly while perennial canals from Sutlej were running by rotation. The Non-perennial canals from Sutlej and inundation canals from Chenab were dry. Sidhnai began to flow in the last week of the month. Stock of food grains and drinking water are sufficient.

28.—MUZAFFARGARH DISTRICT.

Rainfall was above average during the month and benefited the standing crops. Hail storms did some damage to the Muzaffargarh and Kot Adu tahsils only, though the falls extended elsewhere also. Sowings of extra spring crops were in progress. The condition of the standing crops on the whole was average. Complaints of hæmorrhagic septicæmia and small-pox among cattle were reported by Leiah and Muzaffargarh tahsils, elsewhere the condition being fair. Public health was normal. Some of the Indus canals are running by rotation with insufficient supply of water. Rivers are high at the week-end and continue so yet. Prices are stationary.

29.—DERA GHAZI KHAN DISTRICT.

Rain at Taunsa 1·86, Dera Ghazi Khan 1·11, Fort Munro 2·38, Jampur 1·01 and Rajanpur 2·13 inches. It was above average and useful to the crops. Crops of some villages in Sanghar, Dera Ghazi Khan and Rajanpur tahsils were damaged by the hails. The extent of the damage is awaited. The condition and expected yield of the crops were on the whole average in Sanghar, Dera Ghazi Khan and Jampur tahsils and those of Rajanpur tahsil below average due to hails and heavy rains. There was no complaint of cattle disease. The fodder was sufficient except in pachahd tract. There was complaint of smallpox in Dera Ghazi Khan and Jampur tahsils otherwize the public health was good. Nurdhundi and Qutabdhundi canals flowed by rotation with sufficient supply of water. Due to river flood crops of some villages were damaged. The hill torrents flowed in Rajanpur, Jampur and Sanghar tahsils. Prices are stationary.

KATTI RAM,

SUPERINTENDENT,

*for* Director of Land Records, Punjab.

*Sugarcane being irrigated in both seasons, the area sown in the previous Kharif is now included in the Rabi statements.

LAHORE :
The 25th April, 1939.

M. A. HAMID,
Under-Secretary to Government, Punjab,
Public Works Department, Irrigation Branch.

## SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB AND THE NORTH-WEST FRONTIER PROVINCE DURING JANUARY, 1939.

The last disturbance of the previous month which affected the provinces on the first three days of this month, caused a few light showers in the North-West Frontier Province on the 1st and 2nd and in the Punjab hills on the 2nd and 3rd. Six western disturbances entered north-west India during the month. Of these the fifth did not affect the provinces. The first caused a few light falls in the North-West Frontier Province on the 6th. The second gave scattered light showers in the Punjab hills between the 9th and 11th. The third was responsible for scattered showers in the North-West Frontier Province on the 13th and 14th. The fourth caused fairly widespread rain or snow in the North-West Frontier Province between the 18th and 20th and in the Punjab hills between the 18th and 22nd while the last caused fairly widespread light showers in the north-west frontier on the 29th.

The total rainfall of the month, was in large excess at Drosh, in slight excess at Montgomery, normal at Murree, and in moderate to large defect elsewhere. Cloud amount was in defect at Montgomery and normal or in excess elsewhere. Humidity was normal or in defect. Maximum temperature was below normal at Drosh and normal or in excess elsewhere, while minimum temperature was above normal at Simla and Cherat, and below normal at Ludhiana and Rawalpindi.

Jowar, 14 Bajra, 13. | Threshing is in progress. Yield is below normal. | Sowing of cotton and fodder continues on irrigated areas. |
| 2 | Rohtak .. | *Nil* .. | 1. Scarcity of fodder in unirrigated tracts continues. Fodder is being imported on concession rates from outside the district. 2. (a) There is no water in ponds of the barani tracts. (b) Adequate. 3. Generally satisfactory. | Wheat, 14½ .. Gram, 12¾. Barley, 18. Jowar, 15. Bajra, 14. Gochni, 13½. | Harvesting of wheat continues and that of gram, barley and rape-seed is finished. Yield of wheat is average. | Condition of standing crops average on irrigated areas. Sowing of desi cotton and fodder continues on irrigated areas. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for—(a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 3 | Gurgaon .. | Nil | 1. Sufficient for the present. In affected areas fodder is being distributed in the form of taccavi. 2. (a) Sufficient in wells. Pools have generally dried up in the whole district. (b) Canal flowed in Palwal, Ballabgarh and Firozpur-Jhirka tahsils. 3. Generally satisfactory. | Wheat, 13 to 14 .. Gram, 12. Barley, 17 to 18. Jowar, 15. Bajra, 15. | Condition of extra spring crops average on irrigated areas. | Condition of standing crops average on irrigated areas. Sowing of sugarcane, and cotton continues. |
| 4 | Karnal .. | Nil .. | 1. Sufficient .. 2. (a) Do. (b) Satisfactory. 3. Do. | Wheat, 14½ .. Gram, 12. Barley, 20. | Condition of extra spring crops average on irrigated and much below average on unirrigated areas. Threshing of spring crops is in progress. | Condition of standing crops satisfactoy on irrigated area. Sowing of cotton and fodder continues on irrigated areas. |
| 5 | Ambala .. | Nil .. | 1. Insufficient .. 2. (a) Sufficient. (b) Western Jumna canal is flowing. 3. Generally good. | Wheat, white, 14 Wheat, red, 14½. Gram, 11. Barley, 17. | Condition of extra spring crops average on irrigated and below average on unirrigated areas. Harvesting of wheat continues. | Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 6 | Simla .. | Nil .. | 1. Sufficient .. 2. (a) Do. (b) Water in hill-streams is sufficient. 3. Generally good. | Wheat, 10 .. Gram, 9. Barley, 14. Maize, 14. Masur, 6½. Rice, ordinary, 9. | Condition of standing crops average on irrigated and below average to about average on unirrigated areas. | .. |
| 7 | Kangra .. | 0·04 at Kulu .. 0·06 at Naggar. No rain fell at other stations. | 1. Generally sufficient 2. (a) Do. 3. Generally fair. | Wheat, 13½ .. Gram, 9. Barley, 16. Maize, 15. Rice, common, 10. | Condition of extra spring crops fair. Harvesting is in progress. | Condition of standing crops fair. |
| 8 | Hoshiarpur .. | Nil .. | 1. Sufficient .. 2. (a) Adequate. (b) Shah Nahr is not still flowing. 3. Good. | Wheat, white, 15 Wheat, red, 16. Gram, 12. Barley, 20. Rice, common, 7 to 9. | Condition of extra spring crops above average and nearly average. Reaping of rabi crops finished and threshing has commenced. Probable yield is generally normal. | Condition of standing crops above average on irrigated and nearly average on unirrigated areas. |
| 9 | Jullundur .. | Nil .. | 1. Sufficient .. 2. (a) Do. 3. Generally good. | Wheat, white, 15½ Wheat, red, 16½. Gram, 11½. Barley, 20. Maize, 20. | Condition of extra spring crops good on irrigated and average on unirrigated areas. Sowing of extra spring crops continues. Threshing of wheat is in progress. Probable yield is normal. | Condition of standing crops good on irrigated and average on unirrigated areas. Sowing of cotton continues. |
| 10 | Ludhiana .. | Nil .. | 1. Scarcity of fodder is being felt in Ludhiana and Jagraon tahsils. 2. (a) Sufficient. (b) Do. 3. Generally satisfactory. | Wheat, 17 .. Gram, 12. Barley, 19. Maize, 12. | Condition of extra spring crops about average on irrigated and below average on unirrigated areas. Harvesting of spring crops continues. Probable yield is normal on irrigated and below normal on unirrigated areas. | .. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 11 | Ferozepore .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Sirhind canals are flowing with normal supply of water. 3. Generally good. | Wheat, 15 to 16 Gram, 12. Barley, 22. | Condition of extra spring crops average on irrigated and below average on unirrigated areas. Harvesting of spring crops continues. Probable yield is average on irrigated and below average on unirrigated areas. | Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 12 | Lahore .. | *Nil* .. | 1. Generally sufficient 2. (a) Sufficient. (b) Canals are flowing by rotation except in the Hithar circle of Chunian Tahsil. 3. Good. | Wheat, 15½ .. Gram, 11½. Barley, 22½. | Condition of standing crops average. Harvesting of wheat, gram and barley continues. Probable yield is below normal to normal. | Condition of standing crops average. Sowing of sugarcane, cotton and fodder continues. |
| 13 | Amritsar .. | *Nil* .. | 1. Sufficient .. 2 (a) Do. (b) Canals are flowing by rotation and the supply of water is sufficient. 3. Generally fair. | Wheat, 16¾ .. Gram, 12¾. | Condition of standing crops good in Tarn Taran and Ajnala and below average elsewhere on irrigated and good in Ajnala and average elsewhere on unirrigated areas. Harvesting of wheat is in progress. | Condition of standing crops good in Tarn Taran and Ajnala and below average elsewhere on irrigated and good in Ajnala and average elsewhere on unirrigated areas. Sowing of sugarcane, cotton and fodder continues. |
| 14 | Gurdaspur .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Do. 3. Generally good. | Wheat, 18½ Gram, 10½. Barley, 22½. Maize, 20½. Rice, common, 10½. | Threshing of wheat is in progress. Outturn is average. | Condition of standing crops good. Sowing of rice and fodder continues. |
| 15 | Sialkot .. | *Nil* .. | 1. Ample .. 2, (a) Sufficient. (b) Upper Chenab Canal is flowing but its branches are closed. 3. Generally satisfactory. | Wheat, white, 16 1/8 Wheat, red, 17¾. Gram, 11 1/16. Maize, 17 3/16. Rice, ordinary, 11⅝. | Condition of extra spring crops above average on irrigated and average on unirrigated areas. Harvesting is in progress. Probable yield is generally below normal to normal. | Condition of standing crops above average on irrigated and average on unirrigated areas. Sowing of sugarcane and cotton continues. |
| 16 | Gujranwala.. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation. 3. Satisfactory. | Wheat, 17¾ .. Gram, 12¾. Barley, 24. Rice, 12. | Condition of standing crops average. | Condition of standing crops average. Sowing of cotton and fodder continues. |
| 17 | Sheikhupura | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation in Nankana Sahib and Sheikhupura tahsils but remained closed in Shahdara tahsil. 3. Good. | Wheat, 18 .. Gram, 13. Barley, 23. Rice, 10. Maize, 18. Jowar, 18. Bajra, 18. | Condition of extra spring crops average. Reaping of spring crops is now over. Probable yield is normal. | Condition of standing crops average. Sowing of sugarcane, cotton and fodder still continues. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder<br>2. Water supply for—<br>(a) Drinking.<br>(b) Canal irrigation.<br>3. Condition of cattle. | Retail prices in seers per rupee. | PROSPECTS OF Spring. | Autumn. |
|---|---|---|---|---|---|---|
| 18 | Gujrat .. | *Nil* .. | 1. Sufficient ..<br>2. (a) Do.<br>(b) Satisfactory.<br>3. Generally good. | Wheat, 18 ..<br>Gram, 10½.<br>Barley, 20.<br>Maize, 16.<br>Bajra, 17.<br>Jowar, 17. | Condition of extra spring crops fair to good. Harvesting of wheat continues. Probable yield is fair. | Condition of standing crops fair to good. Sowing of sugarcane, cotton and fodder continues. |
| 19 | Shahpur .. | *Nil* .. | 1. Sufficient ..<br>2. (a) Do.<br>(b) Lower Jhelum canal is flowing with adequate supply of water.<br>3. Generally fair. | Wheat, 15 to 17<br>Gram, 10 to 13.<br>Barley, 19 to 20.<br>Jowar, 14 to 17.<br>Bajra, 16 to 17.<br>Maize, 14 to 16. | Condition of extra spring crops fair to good on irrigated and average on unirrigated areas. Harvesting of wheat, and gram continues. Probable yield is average. | Condition of standing crops fair to good on irrigated and average on unirrigated areas. Sowing of cotton and fodder is in progress. |
| 20 | Jhelum .. | *Nil* .. | 1. Average except in Pind Dadan Khan tahsil especially in Thal and Phaphra circles.<br>2. (a) Sufficient.<br>3. Generally good. | Wheat, 16<br>Gram, 11.<br>Barley, 18.<br>Bajra, 15. | Condition of extra spring crops average. Harvesting of spring crops continues. Probable yield is average. | .. |
| 21 | Rawalpindi .. | *Nil* .. | 1. Sufficient ..<br>2. (a) Do.<br>3. Generally fair. | Wheat, 14 ..<br>Gram, 10.<br>Barley, 20.<br>Jowar, 16.<br>Bajra, 15½.<br>Maize, 20. | Condition of standing crops average. Harvesting of wheat continues. | Condition of standing crops average. |
| 22 | Attock .. | 0·34 at Pindigheb<br>No rain fell at other stations. | 1. Sufficient ..<br>2. (a) Do.<br>3. Satisfactory. | Wheat, 16 to 16½<br>Gram, 10½.<br>Barley, 21.<br>Maize, 22.<br>Bajra, 15½.<br>Jowar, 14. | Condition of extra spring crops good on irrigated and average on unirrigated areas. LALL CHAND,
SUPERINTENDENT,
Office of Director of Land Records, Punjab.

# Notes on the condition and prospects of crops in each district of the Punjab for the month of April, 1939.

## 1.—HISSAR DISTRICT.

There was no rain during the month. It is badly wanted for sowings and preparing lands for unirrigated crops. The condition of irrigated rabi crops is about average while that of unirrigated is very poor. In unirrigated tracts the area sown was nominal. Harvesting and threshing of rabi crops commenced on normal time. Outturn of irrigated crops is about average while that of unirrigated is equal to nil. Sowing of cotton, chahi and jowar commenced in irrigated areas. Condition of cattle is poor due to want of fodder. There is an acute scarcity of fodder in the district except in some nahri villages where people are managing on rabi crops. Arrangements have been made to distribute fodder in kind in the district. About 75,000 cattle are being maintained by the district authorities besides the cattle in cattle concentration camp. No complaint regarding cattle disease was received. Public health is generally good except that smallpox is reported in a few villages. Perennial canals remained running on their rotational turn. There is a complaint for short supply of water. Ghaggar canals are dry. Drinking water is sufficient in nahri villages and also water is available in village ponds of bagar and barani tracts. Famine relief works are in progress in 29 centres. The price of food-stuffs remained generally stationary.

## 2.—ROHTAK DISTRICT.

**No rain.** Sowing of irrigated sugarcane continued and that of cotton, tobacco and chari in irrigated tracts commenced. Area sown is average. Germination is good. Condition of irrigated sugarcane, cotton and tobacco is average. Harvesting of irrigated wheat, barley, gram and sarshaf continued and their estimated outturn is average except that of gram which is below average. Scarcity of fodder in the unirrigated tracts of the district continues. Fodder is being imported on concession rates from outside the district. Foot-and-mouth disease in cattle continues in some villages of the district. The general condition of cattle is on the whole satisfactory. Public health has been satisfactory during the month under report. Supply of canal water was adequate. There is no water in ponds of the barani tracts.

## 3.—GURGAON DISTRICT.

There was no rain in the district during the month under report. Weather was hot during the day but cool at night. The condition of the standing crops, *i.e.*, sugarcane, tobacco, onion, cotton and chari is average on irrigated areas. Threshing of wheat and barley continued and the yield was reported to be average on irrigated and poor on unirrigated areas. Sugarcane, cotton and chari were being sown on irrigated areas. Generally no crop of any sort has so far been sown on unirrigated area due to lack of moisture. Food grains are available. Fodder is scarce except in Palwal tahsil. Leaves and branches of trees are being used as fodder. Fodder is being distributed in the form of taccavi in the villages under affected areas in the whole of the district. Drinking water in wells is sufficient both for human beings and cattle. Pools have generally dried up in the whole of the district. Condition of the cattle remained generally satisfactory with the exception that scarcity of fodder has affected them to a great extent. Rinderpest and foot-and-mouth diseases were reported from a few villages in the district. Canal flowed in Palwal, Nuh, Ballabgarh and Firozpur-Jhirka tahsils by turns. Supply of water was sufficient. The general state of public health remained generally satisfactory with the exception that during the month under report the district continued to remain infected with smallpox. Total number of fresh cases and deaths reported were 102 and 27, respectively.

## 4.—KARNAL DISTRICT.

There was no rain during the month under report throughout the whole district. The condition of irrigated extra spring crops is on the whole satisfactory and that of unirrigated poor. The yield is expected to be normal in the case of irrigated but poor in the case of unirrigated crops. The condition of cattle is improving now owing to the appearance of green fodder after the recent rainfall and the produce of bhusa from the rabi crop. Outbreak of rinderpest and foot-and-mouth diseases has been reported from 7 villages of Panipat and Thanesar tahsils. Public health is satisfactory on the whole but smallpox disease has broken out in 10 villages of Kaithal, Panipat and Thanesar tahsils. Canals worked satisfactorily according to their programme. Prices have a tendency to fall.

5.—AMBALA DISTRICT.

The rain is below average throughout the district and was of no use for the standing crops. Sowing of sugarcane continued in a few tracts of the district. Condition of standing crops. *i. e.*, sugarcane and extra spring crops is average on both kinds of areas. The wheat and gram were harvested and are being threshed. Yield is average on irrigated and below average on unirrigated areas. Condition of cattle has generally been satisfactory. Smallpox is reported from a few villages of the district. Western Jamna canal flowed with adequate supply of water. Prices are rising slightly.

6.—SIMLA DISTRICT.

The condition of crops on irrigated area is average and on unirrigated area nearly average in Simla tahsil and below average in Kotkhai tahsil. The condition of cattle on the whole is good but hæmorrhagic septicæmia disease is spreading in some villages of Kotkhai tahsil. Only 9 cattle out of 29 have died. The Veterinary Assistant has been informed for taking immediate action. Public health is good. Water in hill streams is sufficient.

7.—KANGRA DISTRICT.

Rainfall during the month was above average except at Palampur, Hamirpur Kangra and Lower Dharamsala where it was below average. It was beneficial to rabi crops sown in the month of December and January last. Some area was sown with rice, sugarcane, cotton and tobacco. General condition of the standing crops is fair. Harvesting is in progress. Yield is expected to be average in the irrigated and far below average in the unirrigated areas. Cattle are in fair condition. Fodder is generally sufficient. Foot and mouth, rinderpest and hæmorrhagic septicæmia cattle diseases are reported from some parts of the district. Public health is fair. Smallpox is reported from one village of Dehra tahsil. Water in streams and kuhls was generally sufficient for irrigation purposes. Prices are stationary.

8.—HOSHIARPUR DISTRICT.

Rainfall was below average except in Tanda where it is above average. Sowings of sugarcane, cotton, extra spring crops, fodder, tobacco melons and water-melons were completed during the month. The rainfall during the month was useful to the kharif and extra spring sowings and the standing crops. The above average rainfall during March had left sufficient moisture hence the rainfall below the average during this month was in no way considered insufficient. The condition of standing crops is satisfactory on the whole. Harvesting was delayed this time due to the March and April rains. It was, therefore, commenced on or after 20th April, outturn is expected to be above the normal in case of chahi crops and nearly average in case of barani crops. Cattle are generally in good health. Fodder is also sufficient to meet the necessities. In case there are rains in the near future after the threshing period is over, the green fodder will be found in abundance. Public health is good on the whole. Shahnahr did not run this month. Slight rise in the prices of wheat, rice (common sort) and maize is due to an increase in demand for export purposes and an expected decrease in quantity.

9.—JULLUNDUR DISTRICT.

Rainfall was below average throughout the district. Sowing of cotton, sugarcane, vegetables and tobacco continues. Condition of the standing irrigated crops is good and that of unirrigated is average. Harvesting of wheat crop is nearly finished. Outturn is normal. Cattle are generally in good condition. Public health is generally good but stray cases of smallpox and cholera have been reported from some villages of tahsil Phillaur.

10.—LUDHIANA DISTRICT.

The sowing of vegetables and ploughing for other kharif crops continued during the month. The season has been fair. The condition of standing extra spring crops is about average in the irrigated and below average in the unirrigated areas. About average yields are expected in case of irrigated rabi crops and below average in the case of unirrigated crops except in the villages where crops have been damaged by hailstorms. The condition of the cattle remained satisfactory on the whole except that they suffered from foot and mouth and rinderpest diseases in certain villages of the district. Dry fodder is available for them. Public health generally remained satisfactory except a few cases of smallpox in a few villages of the district. The Sirhind canal has been flowing regularly.

11.—FEROZEPORE DISTRICT.

Condition of the crops is normal. Fodder and drinking water is sufficient. Public health is good except complaint of smallpox in some villages in the district. Sirhind canals have been flowing during the month.

12.—LAHORE DISTRICT.

With the exception of a few showers of rain at Lahore and Kasur, on 12th April, 1939, there was no rainfall in the district during the month under report. The sowing of sugarcane, cotton, tobacco, vegetables and fodder is normal. The condition of standing crops is average. Wheat, gram and barley are being harvested, the outturn of wheat, gram and barley is expected to be normal and that of wheat (desi) below normal. In about 45 villages of Lahore tahsil the standing crops have been damaged by hailstorm. The damage to wheat (desi) by '*kungi*' is also reported from all the three tahsils. The general condition of cattle on the whole remained satisfactory The general condition of public health is good. With the exception of Chunian hithar where there are non-perennial canals the canals remained running with their rotational programme.

13.—AMRITSAR DISTRICT.

Rainfall during the month was average. The condition of standing crops is good in irrigated and average in unirrigated areas. The yield is expected as above. The condition of cattle is fair. Public health is good. Sowing of sugarcane, cotton, tobacco and melon is in progress. Canals are working by rotation and the supply of water is sufficient.

14.—GURDASPUR DISTRICT.

Rainfall during the month was much below average in all the tahsils. Sowing of cane, cotton, tobacco, melons and chari fodder is in progress. The condition of rabi crops is average. In a few villages of the Batala and Gurdaspur tahsils, the crops have been damaged by hailstorm and the rust disease. Condition of cattle is generally good. Public health is generally good. Government canals are working.

15.—SIALKOT DISTRICT.

Rainfall during the month under report in Narowal 0·66, Pasrur 0·50, Daska 0·65, and in Sialkot 0·91 inches which was beneficial to the standing rabi crops as well as for the coming kharif. Sowing of cotton, sugarcane, tobacco, fodder and vegetables continued during the month under report. Condition of standing crops is above average in the irrigated and average in the unirrigated areas on the whole except the villages which have been affected by the previous hailstorms. The yield of standing crops is expected to be average on the whole. The condition of cattle is generally satisfactory, but there has been a complaint of rinderpest, foot-and-mouth disease and lymphangitis epizootica in certain villages in the district. Health is generally satisfactory, but there has been a complaint of smallpox in one village of Pasrur tahsil and the District Medical Officer of Health was informed accordingly. Upper Chenab canal is running, but its branches are closed.

16.—GUJRANWALA DISTRICT.

A few showers of rain fell in isolated parts of the district and proved beneficial to the standing crops. In the Hafizabad tahsil hailstorm fell all over a few villages and crops were damaged thereby in 4 villages. Sowings of extra spring crops, cotton and sugarcane continued and that of chari have commenced. Barley crop was harvested during the period under report and its yield is reported to be average. Condition of standing crops is generally average on both kinds of soils except in the Wazirabad tahsil where the condition of crops on unirrigated lands is reported to be below average. Condition of cattle is satisfactory except that '*daba*' and hæmorrhagic septicæmia diseases remained prevalent in two villages. Fodder is sufficient. But for a few cases of smallpox in two villages—one in Gujranwala tahsil and the other in Hafizabad tahsil—the general state of public health is satisfactory. Canals ran by rotation. There has been complaint of insufficient supply of canal water.

17.—SHEIKHUPURA DISTRICT.

Rainfall during the month under report at Sheikhupura 0·13, Shahdara 0·07, and at Nankana Sahib 0·84 inches. Very light showers still they proved beneficial to the outturn of crops which have been recently sown. The season remained favourable. The general condition of the standing crops is reported to be average. Gram crop was damaged by blight in some parts of the district. Hail-stones caused considerable damage in some villages of this district. The outturn is expected to be about normal. The condition of the cattle is reported to be good. The public health, on the whole, is reported to be good but in a few villages of the Shahdara tahsil where there is complaint of smallpox. Canals kept running rotationally except in the Shahdara tahsil.

18.—GUJRAT DISTRICT.

There was moderate rainfall varying from 0·24 to 0·60 inches at all raingauge stations in the district. The rainfall was beneficial to the standing extra spring and sugarcane and cotton crops. The sowing of cotton and fodder crops and planting of

sugarcane was in progress. Germination was fair. The condition of standing crops was fair to good everywhere. The harvesting of wheat and barley was continued with fair outturns. Gram crop in the canal irrigated areas exclusively grown was, however, seriously damaged on account of gram blight. Cattle were generally in fair condition. Fodder was sufficient everywhere. Public health was generally fair. Rat mortality was reported from a few places but no case of plague was heard of. The canals remained flowing and there was no complaints of water supply. Stocks of foodstuffs were sufficient in markets and with big zamindars. The prices were stationary.

19.—Shahpur District.

There was little rainfall varying from 0·05 to 0·36 inches at Naushahra, Khushab, Shahpur, Sargodha and Bhalwal. It was beneficial to standing crops. Vegetables, sugarcane, cotton and chari have been sown during the month. Condition of standing crops remained fair to good in irrigated and average in unirrigated areas. Gram crop has been damaged by gram blight disease in several villages of the district. Wheat and gram have been harvested during this month. The outturn is average. Cattle remained generally in fair condition. Fodder and drinking water is sufficient. Public health remained satisfactory except for a few complaints of smallpox. Lower Jhelum canal remained flowing with no complaint of water supply. Rural development scheme remained in progress in Shahpur tahsil.

20.—Jhelum District.

There was 0·62, 0·48 and 0·24 inches rainfall in Pind Dadan Khan, Jhelum and Chakwal tahsils, respectively. Sowings of tobacco, melons and cotton have been made during the month under report. Condition of the standing crops good in the irrigated and average in the unirrigated areas. Rabi crops are being harvested and the outturn is average. Condition of cattle is generally good. Public health is good on the whole. Prices are stationary.

21.—Rawalpindi District.

The rainfall during the month was below average. The condition of standing crops is average throughout the district. The yield is considered to be normal. The condition of cattle is fair except in some villages of Gujar Khan tahsil where foot and mouth disease is reported. Public health is generally good throughout the district while smallpox in one village of Rawalpindi tahsil has been reported to have appeared. Prices are falling down to some extent.

22.—Attock District.

Rainfall during the month was below average and sowings of cotton, melons, watermelons, fodder and moth were in progress. The condition of standing crops is generally good but 581 acres and 200 acres crops were damaged by hailstorm in the Fatehjang and Pindigheb tahsils, respectively. Gram crop has been affected by blight throughout the district. An average yield is expected. Condition of cattle is satisfactory on the whole but rinderpest and foot and mouth diseases are reported in 8 villages of Attock tahsil. The public health is fair on the whole but 48 cases and 13 deaths by smallpox are reported and there is still a complaint of smallpox disease in a few villages. Fodder is procurable and water is sufficient. The prices are generally stationary.

23.—Mianwali District.

Rainfall at Mianwali 0·13, at Isakhel 0·36 and at Bhakkar 0·32 inches which was of little use. Condition of crops is good on irrigated areas but average on unirrigated areas. Condition of cattle is fair excepting complaints of black-quarter, rinderpest and foot and mouth diseases in a very few villages. Fodder and grazing are sufficient. Public health remained satisfactory on the whole. Nammal canal in Mianwali and Kurram canal in Isakhel remained flowing during the month.

24.—Montgomery District.

Sowing of kharif crops continued during the month. Condition of standing crops is about average. Petitions about damage by 'kungi' to wheat and gram blight in certain localities in this district have been received. The enquiry is being made and necessary measures will be adopted according to the rules if and when required. The condition of livestock is satisfactory on the whole except that there has been a slight complaint of foot and mouth, rinderpest and galghotu diseases in some villages. The public health of the district remained disturbed by the epidemic of smallpox during the month under report. Eighty cases and 25 deaths took place in the rural area and towns of Okara and Pakpattan. Six thousand, four hundred and fifteen persons were protected against the disease by means of vaccination at the infected localities. The Sutlej Valley Project canals have been flowing by warabandi system. Lower Bari Doab canal remained close for 15 days during the month on account of annual closure. There has been irregular supply of water in the non-perennial canals at intervals.

25.—LYALLPUR DISTRICT.

Rain at Lyallpur 0·03. Sowing of extra spring crops and sugarcane is in progress and that of cotton has commenced. Gram has been damaged by gram-blight all over and hails have destroyed crops wholly or partly in a number of villages. The condition of crops is normal though maturing of wheat has been delayed in places. Harvesting of wheat and gram has commenced. The estimated outturn of wheat is normal and that of gram is 40 per cent. of the normal in both irrigated and unirrigated areas. There is a complaint of hæmorrhagic septicæmia (galghotu) and foot and mouth diseases in some villages of Jaranwala, Lyallpur and Toba Tek Singh tahsils. Public health is generally good in Lyallpur but there is a complaint of smallpox in Chak No. 392-G.B., of Samundri and Chak No. 410, 61 and 658 of Jaranwala and Chak No. 403, 382 and 307-J.B., and 268 and 286-G B. of Toba Tek Singh tahsils. Canals are working satisfactorily.

26.—JHANG DISTRICT.

The rainfall was above average in Shorkot tahsil and below average in Jhang tahsil. It benefited much to the sowing crops of kharif and caused no damage to rabi crops. Rawan, cotton, gowara, chari, china, vegetables, onions and melons are being sown. The condition of crops is average. The yield of rabi crops is expected as follows :—

| | Jhang. | Chiniot. | Shorkot. |
|---|---|---|---|
| Irrigated | .. 75 per cent. | 100 per cent. | 100 per cent. |
| Unirrigated | .. 70 per cent. | 100 per cent. | 100 per cent. |

Fodder (green or dry) is available. Public health is good except in some villages where smallpox is reported. Canals are working as usual. There were floods in the rivers.

27.—MULTAN DISTRICT.

Rain at Shujabad 0·10, Multan 0·05 and Khanewal 0·02 inches was sufficient. Sowings of vegetables, rawan, maize, chillies, chari and china continued. Germination is generally good. Condition of standing crops generally average except in a few villages of Multan, Khanewal, Lodhran and Mailsi tahsils where the crops were reported to be damaged by hailstorm. Peas and gram crops of a few villages in Kabirwala and Lodhran tahsils have been damaged by river floods and an insect, respectively. The reports regarding extent of damage are awaited from the tahsildars concerned. The damage to gram crop by an insect in Lodhran tahsil varies from annas seven to annas ten per rupee. Harvesting of vegetables, methra, peas, masur, barley, gram, taramira and wheat continued. Outturn is generally average except in hailstricken and river flooded areas, etc., where the outturn is below normal for the reasons explained above Condition of cattle is generally good except in a few villages of Multan, Lodhran and Kabirwala tahsils wherefrom some complaints of smallpox, hæmorrhagic septicæmia, foot and mouth diseases were reported. The Veterinary Assistants were informed direct by the tahsildars concerned to take preventive measures. The state of public health was generally satisfactory. Lower Bari Doab, perennial and non-perennial canals from Sutlej and Sidhnai canals were running by rotation. The inundation canals from Chenab also began to run by rotation in the last week of the month with inadequate supply of water. Stock of foodgrains and drinking water were sufficient.

28.—MUZAFFARGARH DISTRICT.

With the exception of light showers in the Alipur tahsil the weather was dry. Sowings of extra spring crops were in progress. The condition of the standing crops was on the whole average. Peas and gram were harvested during the month and the outturn per acre was about the average. The wheat crop is on the threshing floor. Complaints of foot and mouth and smallpox diseases in the Muzaffargarh and Kot Adu tahsils and of hæmorrhagic septicæmia in the Leiah tahsil were reported. White bhusa and grazing were available. Public health was fairly good. Some of the Indus canals are running by rotation with insufficient supplies of water. The canals on the Chenab series are closed as the zamindars refused water at the enhanced rates of abiana. Prices are stationary.

29.—DERA GHAZI KHAN DISTRICT.

Rain at Taunsa 0·14 inch, Dera Ghazi Khan 0·16 inch, Fort Munro 0·32 inch, Jampur 0·01 inch and Rajanpur 0·08 inch. Sowing of extra spring crops and cotton continued. Condition and expected yield of the crops were on the whole average except in Rajanpur tahsil where wheat crop was average and other crops were below average. There was no complaint of cattle disease. Fodder was sufficient except in Pachahd tracts. There was some complaint of smallpox in some villages of Dera Ghazi Khan tahsil and Rajanpur town. Otherwise the public health was on the whole good. Nurdhundi and Qutabdhundi canals flowed by rotation. Banahan and Sahiban canals also flowed with sufficient supply of water. Prices were stationary.

(a) Not available.

Average percentage ratio of current to pre-war prices or unweighted index number = 97.

Unweighted index number of wholesale prices for the First fortnight of May, 1938, was 95.

LALL CHAND,
SUPERINTENDENT,
*for* Director of Land Records, Punjab.

## SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB AND THE NORTH-WEST FRONTIER PROVINCE DURING FEBRUARY, 1939.

*The Chief feature of the weather of the month was the widespread rainfall that occurred in the provinces in connection with western disturbances.*

*Nine western disturbances entered north-west India during the month.* Of these the first two did not affect the provinces. The third disturbance caused a few light falls of rain in the North-West Frontier Province on the 5th and local showers there on the 6th. The fourth was responsible for fairly widespread rain or snow in the North-West Frontier Province between the 8th and 10th and in the Punjab hills and the adjoining plains on the 9th and 10th. The fifth gave local rain or snow in the North-West Frontier Province on the 11th and in the east and north Punjab on the 12th. There were also a few falls in the east and north Punjab on the 11th and 13th. The sixth disturbance followed closely and caused scattered showers in the provinces on the 14th and widespread rain there on the next two days. The seventh disturbance caused fairly widespread rain or snow in the North-West Frontier Province between the 20th and 22nd and in the Punjab on the 21st and 22nd, with a few light falls in the south-west Punjab on the 20th. The next one gave a few falls in the Punjab on the 23rd and local rain there and a few falls in the North-West Frontier Province on the 24th. The last disturbance was responsible for fairly widespread rain or snow in the provinces between the 26th and 28th.

The total rainfall of the month was in large excess except at Simla where it was in slight defect. Cloud amount was normal or in excess. Humidity was in defect at Ambala and normal or in excess elsewhere. Maximum temperature was generally normal or in defect, while minimum temperature was normal or in excess except at Rawalpindi where it was in defect.

| 26 | Jhang .. | 0·11 at Sadr .. No rain fell at other stations. | 1. Available .. 2. (a) Sufficient. (b) Canals are flowing. 3. Fair. | Wheat, 17½ .. Gram, 13. Jowar, 16. Bajra, 15½. Maize, 17. | Yield of spring crops is normal. | Sowing of cotton, chari and other fodder crops continues. |
| 27 | Multan .. | *Nil* .. | 1. Generally sufficient 2. (a) Sufficient (b) Lower Bari Doab canal is flowing regularly while perennial and non-perennial canals from Sutlej are flowing by rotation. The Haveli Project canals are flowing but the zamindars are not satisfied with proposed fixation and size of the outlets. 3. Generally good. | Wheat, 16½ .. Gram, 12. Barley, 18. Bajra, 16. Maize, 13. Jowar, 16. | Condition of extra spring crops generally average. Harvesting of wheat, gram, barley, etc., continues. Outturn generally normal except in hail-stricken, river flooded and insect affected areas where it is below normal. | Condition of standing crops generallg average. Sowing of cotton, chari fodder, etc., continues. |
| 28 | Muzaffargarh | *Nii* .. | 1. Sufficient .. 2. (a) Do. (b) Indus and Chenab canals are flowing. The zamindars of Taliri and Ganesh canals have begun to take water on being assured by the Government that their legitimate grievances will be sympathetically considered. 3. Fair. | Wheat, 19½ .. Gram, 12½. Barley, 22. Jowar, 15. Bajra, 18. Rice, 13. | Condition of extra spring crops average. Threshing of spring crops still continues. Outturn is average. | Condition of standing crops aver-age. Sowing of cotton, jowar and indigo continues. |
| 29 | Dera Ghazi Khan | 0·08 at Sadr .. No rain fell at other stations. | 1. Sufficient except in Pachadh tracts. 2. (a) Do. (b) All canals are flowing with sufficient supply of water. 3. Good. | Wheat, 18 .. Jowar, 18. Bajra, 20. Gram, 14½. | Condition and expected yield of extra spring crops average. | Condition of standing crops average. Sowings continue. |

## *REMARKS.*

Light rain fell in parts of most districts. Condition of standing crops (tobacco, vegetables, sugarcane, cotton, fodder, etc.) is average to good on irrigated and below average to average on unirrigated areas. Threshing of spring crops continues. Yield is generally normal on irrigated and below normal to normal on unirrigated areas. Sowing of autumn crops continues. Fodder and drinking water are sufficient except in parts of some districts. Canal supplies are generally sufficient except in Pakpattan, Dipalpur, Eastern and Mailsi canals. Condition of cattle is generally fair except in Hissar. The daily average number of workers at the test works in progress in Rohtak and Gurgaon was 14,201 and 10,193, respectively. Retail prices in seers per rupee are as follows :—

## PART I.

## STATISTICAL.

**Weather and Crop Report for the week ending 8 a. m., Monday, the 5th June, 1939.**

This report deals with all the districts of the province.

| No. | Reporting Station. | Rain. | 1. Supply of fodder.<br>2. Water supply for—<br>(a) Drinking.<br>(b) Canal irrigation.<br>3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of | |
|---|---|---|---|---|---|---|
| | | | | | Spring. | Autumn. |
| 1 | Hissar | 0·27 at Fatehabad. No rain fell at other stations. | 1. Acute scarcity is being felt except in Nahri tracts where people are managing on rabi crops. Arrangements have been made to distribute fodder in kind in the district.<br>2. (a) Sufficient in Nahri villages. In Barani and Bagar tracts ponds are drying and scarcity of water is being felt.<br>(b) Perennial canals are flowing by rotation. Ghaggar canals are dry.<br>3. Condition of cattle is poor for want of fodder. About 54,000 cattle are being maintained on fodder taccavi besides cattle in the cattle concentration camp. | Wheat, 14<br>Gram, 11.<br>Barley, 16½.<br>Jowar, 13½.<br>Bajra, 13. | .. | Rain is badly wanted. Condition of standing crops is average on irrigated and bad on unirrigated areas. Unirrigated crops are drying up. |
| 2 | Rohtak | *Nil* | 1. Scarcity of fodder in unirrigated tracts continues. Fodder is being imported on concession rates from outside the district.<br>2. (a) There is no water in ponds of barani tracts.<br>(b) Adequate.<br>3. Generally satisfactory. | Wheat, 13½<br>Gram, 11½.<br>Barley, 16.<br>Jowar, 14.<br>Bajra, 13½.<br>Gochni, 12½. | Harvesting of wheat continues in some parts of the district. Outturn is average. | Condition of standing crops average on irrigated areas. Sowing of chari continues on irrigated areas. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 3 | Gurgaon .. | *Nil* .. | 1. Sufficient for the present. In affected area fodder is being distributed in the form of taccavi. 2. (a) Sufficient in wells. Pools have generally dried up in the whole district. (b) Canal flowed in Palwal and Ballabgarh tahsils only. 3. Generally satisfactory. | Wheat, 12 to 14 .. Gram, 11½. Barley, 17. Jowar, 13. Bajra, 13. | Condition of extra spring crops average on irrigated areas. | Condition of standing crops average on irrigated areas. Sowing of cotton and chari continues. Kurta insect did some damage to the cotton crop. |
| 4 | Karnal .. | ·37 at Thanesar No rain fell at other stations. | 1. Sufficient .. 2. (a) Do. (b) Satisfactory. 3. Do. | Wheat, 14 .. Gram, 11. Barley, 18 | Condition of extra spring crops satisfactory. Threshing of spring crops has been completed. | Condition of standing crops satisfactory. Sowing of cotton, chari and bajra continues. |
| 5 | Ambala .. | *Nil* .. | 1. Insufficient .. 2. (a) Sufficient. (b) Western Jumna canal is flowing. 3. Good. | Wheat, white, 13 Wheat, red, 13½. Gram, 10⅛. Barley, 17½. | Condition of extra spring crops average on irrigated and about average on unirrigated areas. | Condition of standing crops average on irrigated and about average on unirrigated areas. |
| 6 | Simla .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Water in hill streams is sufficient. 3. Generally good. | Wheat, 10 .. Gram, 9. Barley, 13½. Maize, 13. Masur, 6½. Rice, ordinary, 9. | Condition of standing crops average on irrigated and below average to nearly average on unirrigated areas. | .. |
| 7 | Kangra .. | *Nil* .. | 1. Generally sufficient 2. (a) Scarce in some unirrigated tracts. 3. Generally fair. | Wheat, 13½ .. Gram, 9. Barley, 16. Maize, 15. Rice, common, 10. | Condition of extra spring crops fair. Threshing of spring crops continues in Kulu Sub-Division. | Condition of standing crops fair. Sowing of rice and maize continues. |
| 8 | Hoshiarpur .. | *Nil* .. | 1. Sufficient .. 2. (a) Adequate. (b) Shah Nahr is flowing. 3. Generally good. | Wheat, white, 14 Wheat, red, 14½. Gram, 11½. Barley, 18. Rice, common, 7 to 9. | Condition of extra spring crops good on irrigated and nearly average on unirrigated areas. Harvesting of tobacco is in progress. Yield is expected to be normal. | Rain is needed. Condition of standing crops good on irrigated and nearly average on unirrigated areas. Sowing of green fodder continues. |
| 9 | Jullundur .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. 3. Generally good. | Wheat, white, 16 Wheat, red, 17. Gram, 12. Barley, 18. Maize, 18. | Condition of extra spring crops good on irrigated and average on unirrigated areas. Threshing of wheat continues. Outturn is normal. | Condition of standing crops good on irrigated and average on unirrigated areas. |
| 10 | Ludhiana .. | *Nil* .. | 1. Scarcity of dry fodder is being felt in Ludhiana and Jagraon tahsils. 2. (a) Sufficient. (b) Do. 3. Generally satisfactory. | Wheat, 16½ .. Gram, 11½. Barley, 18. Maize, 18¾. | Condition of extra spring crops about normal on irrigated and below normal on unirrigated areas. Harvesting of spring crops continues. Yield is normal on irrigated and below normal on unirrigated areas. | Condition of standing crops about normal on irrigated and below normal on unirrigated areas. Sowing of cotton continues. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 11 | Ferozepore .. | ·05 at Nathana No rain fell at other stations. | 1. Sufficient .. 2. (a) Do. (b) Sirhind canals are flowing with normal supply of water. 3. Generally good. | Wheat, 15 .. Gram, 11. Barley, 18. | Condition of extra spring crops average on irrigated and below average on unirrigated areas. Yield of spring crops is average on irrigated and below average on unirrigated areas. | Condition of standing crops average on irrigated and below average on unirrigated areas. |
| 12 | Lahore .. | *Nil* .. | 1. Sufficient. 2. (a) Do. (b) Canals are flowing by rotation. The water supply is adequate. 3. Generally satisfactory. | Wheat, 16 .. Gram, $12\frac{7}{16}$. Barley, $18\frac{3}{16}$. | Condition of extra spring crops average. Threshing of wheat is in progress. Outturn is below normal to normal. | Condition of standing crops average. Sowing of fodder and vegetables continues. |
| 13 | Amritsar .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation and the supply of water is sufficient. 3. Good. | Wheat, 16 Gram, $11\frac{1}{2}$. | Condition of extra spring crops good. Harvesting of wheat is in progress. | Condition of standing crops good. Sowing of fodder continues. |
| 14 | Gurdaspur .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Do. 3. Good. | Wheat, $18\frac{1}{4}$ .. Gram, $11\frac{1}{2}$. Barley, 22. Rice, $10\frac{1}{4}$. Maize, $17\frac{1}{2}$. | Threshing of wheat continues. Outturn is above average. | Condition of standing crops good. Sowing of cotton, rice and chari continues. |
| 15 | Sialkot .. | *Nil* | 1. Ample .. 2. (a) Sufficient. (b) Upper Chenab canal with its branches is flowing. 3. Generally satisfactory. | Wheat, white, $16\frac{11}{16}$ Wheat, red, $17\frac{1}{2}$. Gram, $11\frac{1}{2}$. Maize, $17\frac{7}{16}$. Rice, ordinary, $11\frac{1}{8}$. | Harvesting of wheat is in progress. Yield is average on irrigated and below average on unirrigated areas. | Condition of standing crops good on irrigated and average on unirrigated areas. Sowing of cotton and fodder continues in Sialkot tahsil. |
| 16 | Gujranwala .. | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation. 3. Satisfactory. | Wheat, 18 .. Gram, $11\frac{1}{2}$. Barley, 20. Rice, 11. | Condition of extra spring crops generally average. Harvesting of wheat continues. Yield is average. | Condition of standing crops generally average. Sowing of Jowar and other fodder crops continues. |
| 17 | Sheikhupura | *Nil* .. | 1. Sufficient .. 2. (a) Do. (b) Canals are flowing by rotation. 3. Good. | Wheat, $17\frac{1}{2}$ .. Gram, 13. Barley, 21. Rice, 10. Maize, 18. Jowar, 17. Bajra, 17. | Condition of extra spring crops average. Threshing of wheat is in progress at some places. Outturn is below average due to damage by rust and hailstorm. | Condition of standing crops average. Sowing of fodder and Maize continues. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder<br>2. Water supply for—<br>(a) Drinking.<br>(b) Canal irrigation.<br>3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 8 | Gujrat .. | Nil .. | 1. Sufficient except in hailstricken area where it is scarce.<br>2. (a) Sufficient.<br>(b) Satisfactory.<br>3. Generally good. | Wheat, 17 to 2.<br>Gram, 12.<br>Barley, 20.<br>Maize, 16.<br>Bajra, 18.<br>Jowar, 20. | Condition of extra spring crops good on irrigated and fair on unirrigated areas. | Condition of standing crops good on irrigated and fair on unirrigated areas. |
| 19 | Shahpur .. | 0·33 at Nurpur No rain fell at other stations. | 1. Sufficient ..<br>2. (a) Do.<br>(b) Lower Jhelum and inundation canals are flowing with adequate supply of water.<br>3. Generally fair. | Wheat, 16 to 18..<br>Gram, 10 to 12½.<br>Barley, 18 to 19.<br>Jowar, 13 to 17.<br>Bajra, 15 to 19.<br>Maize, 14 to 15. | Condition of extra spring crops fair to good on irrigated and average on unirrigated areas. Harvesting of wheat is in progress. Outturn is average. | Rain was beneficial to standing crops. Condition of standing crops fair to good on irrigated and average on unirrigated areas. Sowing of cotton and fodder continues. |
| 20 | Jhelum .. | Nil .. | 1. Average with the exception of Thal circle of Pind Dadan Khan tahsil.<br>2. (a) Sufficient.<br>3. Generally good. | Wheat, 16 ..<br>Gram, 11½.<br>Bajra, 16. | Condition of extra spring crops average on irrigated and below average on unirrigated areas. Harvesting of spring crops is finished. | .. |
| 21 | Rawalpindi .. | Nil .. | 1. Sufficient ..<br>2. (a) Do<br>3. Generally fair. | Wheat, 16 ..<br>Gram, 10½.<br>Barley, 20.<br>Jowar, 14.<br>Bajra, 15.<br>Maize, 19. | Condition of extra spring crops average. | Condition of standing crops average. |
| 22 | Attock .. | Nil .. | 1. Sufficient ..<br>2. (a) Do.<br>3. Generally satisfactory. | Wheat, 16 to 17..<br>Gram, 10½.<br>Barley, 21.<br>Maize, 20½.<br>Bajra, 14½.<br>Jowar, 14. | Condition of extra spring crops average. Threshing of wheat continues. | Condition of standing crops average. |
| 23 | Mianwali .. | 0·04 at Bhakkar No rain fell at other stations. | 1. Sufficient except in Thal tract of Bhakkar tahsil.<br>2. (a) Sufficient except in Thal tract of Isa-khel tahsil.<br>(b) Nammal canal in Mianwali and Kurram Canal in Isa Khel are flowing satisfactorily.<br>3. Fair. | Wheat, 17 ..<br>Gram, 11½.<br>Barley, 18½<br>Jowar, 12.<br>Bajra, 15. | Condition of extra spring crops average on irrigated and below average to average on unirrigated areas. | .. |
| 24 | Montgomery | Nil .. | 1. Generally satisfactory.<br>2. (a) Adequate.<br>(b) Do.<br>3. Generally satisfactory. | Wheat, 16½ to 17<br>Gram, 12. | Condition of extra spring crops about average. | Condition of standing crops about average. Sowings continue. |
| 25 | Lyallpur | 0·25 at Lyallpur. No rain fell at other stations. | 1. Sufficient ..<br>2. (a) Do.<br>(b) Canals are flowing satisfactorily.<br>3. Generally good. | Wheat, 17 ..<br>Gram, 13. | Condition of extra spring crops on the whole normal. Threshing of wheat and gram continues. Outturn of wheat is average and that of gram is below average. Standing crops have been damaged to some extent by hailstorms in a few villgaes of the Lyallpur and Jaranwala Tahsils. | Condition of standing crops on the whole normal. Sowing of cotton and fodder continues. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 26 | Jhang .. | Nil .. | 1. Available .. 2. (a) Sufficient. (b) Canals are flowing. 3. Fair. | Wheat, 18 Gram, 12. Jowar, 16. Bajra, 16. Maize, 16. | Yield of spring crops is normal. | Sowing of cotton, chari and other fodder crops continues. |
| 27 | Multan .. | 0·20 at Kabirwala No rain fell at other stations. | 1. Generally sufficient 2. (a) Sufficient (b) Lower Bari Doab canal is flowing regularly while perennial and non-perennial canals from Sutlej are flowing by rotation. The Haveli Project canals are also flowing but the zamindars are not satisfied with the fixation and size of the outlets. 3. Generally good. | Wheat, 16 Gram, 11½. Barley, 18. Jowar, 15. Bajra, 16½. Maize, 13. | Condition of extra spring crops generally average. Harvesting of wheat, gram, barley, etc., continues. Outturn is generally average except in hail-stricken, river flooded and insect affected areas where it is below average. | Condition of standing crops generally average. Sowing of cotton, chari and other fodder crops continues. |
| 28 | Muzaffargarh | Nil .. | 1. Sufficient .. 2. (a) Do. (b) Indus canals are flowing with average supplies of water. The Chenab canals are running with restricted supplies of water as the Superintending Engineer explains to a change of heads. This is causing discontentment. 3. Average. | Wheat, 19½ Gram 12¼. Barley, 0½. Jowar, 17. Bajra, 18. Rice, 13. | Condition of extra spring crops average. Threshing of spring crops still continues. Outturn is about average. | Condition of standing crops average. Sowing of cotton, jowar and indigo continues. |
| 29 | Dera Ghazi Khan. | ·16 at Taunsa No rain fell at other stations. | 1. Sufficient except in Pachadh tracts. 2. (a) Do. (b) All canals are flowing with sufficient supply of water except Nurdhundi and Qutabdhundi which are flowing by rotation. 3. Generally good. | Wheat, 19½ Jowar, 18. Bajra, 20. Gram, 14½. | Condition and expected yield of extra spring crops average. | Condition of standing crops average. Sowings continue. |

*REMARKS.*

Except for light rain in parts of a few districts weather remained dry. Condition of standing crops (tobacco, vegetables, sugarcane, cotton, fodder, etc.) is average to good on irrigated and below average to average on unirrigated areas. Extra spring crops are reported to have been damaged by hailstorm in parts of Lyallpur and cotton by *hutra* insect in parts of Gurgaon. Reaping of extra spring crops has commenced in a few districts. Threshing of spring crops and sowing of autumn crops are in progress. Fodder and drinking water are sufficient except in parts of some districts. Canal supplies are sufficient except in Western Jumna, Pakpattan, Dipalpur, Eastern and Mailsi canals. Condition of cattle is generally fair except in Hissar. The daily average number of workers at the test works in progress in Gurgaon was 10,441. Retail prices in seers per rupee are as follows :—

| | *Wheat.* | | *Gram.* | | *Barley.* | | | Corresponding prices of last year: *Wheat.* | | *Gram.* | | *Barley.* | |

# The Government Gazette, Punjab.

**Published by Authority.**

No. 25. LAHORE, FRIDAY, JUNE 23, 1939.

## PART I.
## STATISTICAL.

**Weather and Crop Report for the week ending 8 a. m., Monday, the 19th June, 1939.**

This report deals with all the districts of the province.

| No. | Reporting Station. | Rain. | 1. Supply of fodder. 2. Water supply for— (a) Drinking. (b) Canal irrigation. 3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of Spring. | Prospects of Autumn. |
|---|---|---|---|---|---|---|
| 1 | Hissar – | 4·94 at Sadr ... 0·29 at Sirsa. 2·13 at Fatehabad. 2·58 at Hansi. 5·55 at Bhiwani. 1·16 at Budhlada. 1·49 at Tohana. 2·54 at Sewani. | 1. Scarcity of fodder still continues except in Nahri tracts where people are managing on rabi and kharif crops. Arrangements have been made to distribute fodder in kind in the district. 2. (a) Sufficient except in some Bagar and barani villages of Sirsa tahsil where rainfall is insufficient. (b) Perennial canals are flowing by rotation. Ghaggar canals are dry. 3. Condition of cattle is still poor due to want of fodder. About 54,000 cattle are being maintained on fodder taccavi besides cattle in the cattle concentration camp. | – Wheat, 14½ Gram, 11⅛. Barley, 17. Bajra, 13¼. Jowar, 14. | ... | Condition of standing crops average on irrigated and bad on unirrigated areas. Unirrigated crops are likely to improve on account of recent rainfall. Late sown cotton was damaged by hailstorm in 3 villages of Hissar tahsil. The damage is estimated to be 70 per cent. Sowing of jowar, bajra, pulses, etc. is in progress. |
| 2 | Rohtak – | 2·06 at Sadr .. 0·78 at Gohana. 1·31 at Sampla. 1·36 at Jhajjar. 3·92 at Salhawas. 1·98 at Beri. 1·05 at Sonepat. | 1. Scarcity of fodder in unirrigated tracts continues. Fodder is being imported on concession rates from outside the district. 2. (a) Sufficient. (b) Adequate. 3. Generally satisfactory. | Wheat, 14 Gram, 11½. Barley, 16½. Jowar, 14. Bajra, 13⅛. Gochni, 12⅜. | .. | Condition of standing crops average on irrigated areas. Sowing of jowar, bajra and other fodder crops is in progress. |

| No. | Reporting Station. | Rain. | 1. Supply of fodder.<br>2. Water supply for—<br>(a) Drinking.<br>(b) Canal irrigation.<br>3. Condition of cattle. | Retail prices in seers per rupee. | Prospects of | |

| 8 | Muzaffargarh | *Nil* .. | 1. Sufficient ..<br>2. (a) Do.<br>(b) Canals of the Chenab series are flowing with adequate supply of water but two canals of the Indus series are flowing rather low and others are closed.<br>3. Fair. | Wheat, 19½ ..<br>Gram, 12½.<br>Barley, 20½.<br>Jowar, 16.<br>Bajra, 16.<br>Rice, 13. | Condition of extra spring crops below average. Threshing of spring crops continues. Outturn is average. | Condition of standing crops below average. Sowings are in progress except in the Kot Adu tahsil where the canals of the Indus series are closed and are seriously affecting the sowings. |
| 29 | Dera Ghazi Khan | 0·93 at Fort Munro No rain fell at other stations. | 1. Sufficient except in Pachadh tracts.<br>2. (a) Do.<br>(b) All the canals are flowing with sufficient supply of water except Dhingana in Dera Ghazi Khan tahsil and Nurdhundi and Qutabdhundi in Rajanpur tahsil.<br>3. Generally good. | Wheat, 18½ ..<br>Jowar, 18.<br>Bajra, 20.<br>Gram, 14½ | Condition and expected yield of extra spring crops on the whole average. | Condition of standing crops on the whole average. Rice sown at Qadra canal tail dried up and is being resown. Sowings continue. |

## *REMARKS*

Rain fell in parts of all districts except Mianwali, Multan and Muzaffargarh (maximum 5·55″ at Bhiwani, Hissar district and minimum 0·01″ at Gurdaspur). It was useful for standing crops. Condition of standing crops (tobacco, vegetables, sugarcane, cotton, fodder, etc.) is average to good on irrigated and below average to average on unirrigated areas. Late sown cotton is reported to have been damaged by hailstorm in parts of Hissar. Reaping of extra spring crops and sowing of autumn crops continue. Fodder is sufficient except in parts of some districts. Drinking water is generally sufficient. Supplies of canal water are sufficient except in Western Jumna, Pakpattan, Dipalpur, Eastern and Mailsi canals. Condition of cattle is generally fair except in Hissar. The daily average number of workers at test works in progress in Rohtak and Gurgaon was 17,017 and 11,916 respectively. Retail prices in seers per rupee are as follows :—

KATTI RAM,
SUPERINTENDENT,
Office of Director of Land Records, Punjab.

# Notes on the condition and prospects of crops etc., in each district of the Punjab for the month of May, 1939.

## 1.—Hissar District.

There was no rain during the month under report. It was badly wanted in the unirrigated tracts. Standing irrigated kharif crops are average but unirrigated crops which are nominal are worsening due to want of rain. Harvesting of rabi crops was over by the third week of the month. The yield of rabi irrigated crops is 75 per cent and that of unirrigated ones is 10 to 15 per cent of the normal. Condition of cattle is poor due to an acute scarcity of fodder in the district except in nahri tracts where people manage on rabi crops. Arrangements have been made to distribute fodder taccavi in kind in the district. About 54,000 cattle are maintained by the district authorities besides the cattle in cattle concentration camp. No cattle disease was reported during the month. Public health is generally good except that smallpox occurred in some villages of the district. Perennial canals remained running by rotation. Ghaggar canals are dry. Drinking water is sufficient in nahri tracts but in bagar and barani ilaqes where village ponds have dried up a scarcity is being felt. Village tanks in unirrigated tracts have been filled up with canal water. Season is becoming hot. Strong high winds have commenced to blow. Famine relief works are in progress in 22 centres. Prices of the foodstuffs were generally stationary.

## 2.—Rohtak District.

No rain. Sowing of cotton, jowar and bajra in irrigated tracts took place. Area sown is average. Germination is good. The condition of irrigated sugarcane, cotton, jowar and bajra is average. Irrigated wheat, barley, gram and sarshaf were harvested and their probable outturn is average except that of gram which is below average. Scarcity of fodder in the unirrigated tracts of the district continues. Fodder is being imported on concession rates from outside the district. Foot and mouth disease in cattle continues in some villages of the district, but the general condition of cattle is on the whole satisfactory. Public health has been satisfactory during the month under report. Supply of canal water was adequate. There is no water in ponds of the barani tracts.

## 3.—Gurgaon District.

During the month under report the rainfall varied from 0·03 to 0·24 inches at various places in the district and proved beneficial to the standing extra spring crops. Weather remained generally hot. The condition of the standing crops *i. e.*, sugarcane cotton, vegetables and tobacco was average on irrigated area. Tobacco is being harvested and the yield is reported to be average. Threshing of wheat and barley continued and the yield was reported to be average on irrigated and poor on unirrigated areas. Sugarcane, cotton and chari were sown in irrigated areas. Food grains are available. Fooder for the present is available. Drinking water in wells is sufficient both for human beings and cattle. Pools have generally dried up in the whole of the district, Condition of cattle remained generally satisfactory except that scarcity of fodder has affected them to a great extent. Rinderpest and foot and mouth diseases were reported from a few villages in the district. Canal flowed in Palwal, Nuh, Ballabgrah and Firozpur-Jhirka tahsils by turn. Supply of water was sufficient. In Palwal tahsil insects caused some damage to the cotton crop. The general state of public health remained generally satisfactory with the exception that during the mouth under report the district continued to remain infected with smallpox. Total number of fresh cases and deaths reported were 82 and 29. respectively.

## 4.—Karnal District.

There was no rain during the month under report throughout the whole district. The condition of irrigated extra rabi crops is on the whole satisfactory and that of unirrigated poor. The yield is expected to be normal in the case of irrigated but poor in case of unirrigated crops. The condition of cattle has improved because fodder is now available. Outbreak of foot and mouth disease has been reported from 5 villages of Panipat, Thanesar and Guhla tahsils. Public health is satisfactory on the whole but smallpox has broken out in five villages of Kaithal, Panipat and Thanesar tahsils. Canals worked satisfactorily according to their programme. Prices are stationary.

5.—AMBALA DISTRICT.

Rain was below average throughout the district and is equal to nothing in plains No sowing. The condition of sugarcane and extra rabi crops is average on both kinds of areas. The wheat and wheat gram were threshed. Yield is normal on irrigated and below normal on unirrigated areas. Condition of cattle is generally satisfactory. Human health is generally satisfactory but smallpox and cholera diseases are reported from a very few villages of the district. Western Jamna canal flowed with adequate supply of water Prices are rising slightly.

6.—SIMLA DISTRICT.

Only one fourth of the unirrigated area has been sown in Kot Khai tahsil. The condition of standing crops on irrigated area is average and on unirrigated nearly average in Kot Khai tahsil and in Simla it is average on irrigated and below average on unirrigated areas. The yield per acre is as follows :—

| | *Simla tahsil.* | | *Kot Khai tahsil.* | |
|---|---|---|---|---|
| | Irrigated. | Unirrigated. | Irrigated. | Unirrigated. |
| Wheat .. | 172 seers. | 119 seers. | 200 seers. | 175 seers. |
| Barley .. | 150 „ | 63 „ | 280 „ | 280 „ |
| Gram .. | .. | .. | .. | 50 „ |

Condition of cattle on the whole is good but foot and mouth disease is spreading in certain villages in Kot Khai and Simla tahsils. The diseased animals of Kot Khai tahsil are under veterinary treatment. Public heath is good. Water in hill streams is sufficient.

7.—KANGRA DISTRICT.

Rainfall during the month was much below the average except in Dehra and Nurpur where there was no rainfall. Rain is badly wanted for sowings. A little area was sown with rice, kangni, kodra and maize during the month. Season was warm and dry during the month. The general condition of standing crops is fair. Harvesting of rabi crop was finished in Kangra proper during the month, but in Kulu it is in progress. Yield of rabi crops is generally below the average except irrigated wheat which is equal to average. Cattle are in fair condition. Foot and mouth, hæmorrhagic septicæmia and rinderpest cattle diseases existed in some parts of the district. Public health is fair. Smallpox is reported from one, three and three villages of Nurpur, Dehra and Palampur tahsil respectively. Water in streams and kuhls was generally sufficient for irrigation purposes. There is a complaint of scarcity of water in some unirrigated tracts of the district. Prices are stationary.

8.—HOSHIARPUR DISTRICT.

The rainfall was below average in Garhshankar whereas there was no rainfall at other stations. It is below average throughout the district and is badly needed for the standing kharif and extra spring crops. If there is no rain in the near future the barani extra spring crops will sustain loss of special nature. Rice was sown in ilaqa Bet of Una tahsil. Chillies, vegetables and chahi fodder were also sown in the district. Chahi crops are good and barani average. Threshing of spring crops is finished. Yield is normal. Tobacco harvesting has commenced. Yield is expected to be normal. Cattle are generally in good condition. If there is no rain in the near future the scarcity of fodder is likely to be felt, otherwise not. Public health is generally good with the exception of a few villages where the smallpox is prevailing. Shahnahr continued working.

9.—JULLUNDUR DISTRICT.

Rainfall was below average throughout the district. Sowing of cotton and fodder continues Condition of the standing irrigated crops is good and that of unirrigated is average. No important crop was harvested during this month only, threshing of wheat was in progress. Outturn was normal. Cattle are generally in good condition but stray cases of foot and mouth disease have been reported from different parts of the districts. Public health is generally good but a few cases of smallpox have been reported from some parts of the district.

10.—LUDHIANA DISTRICT.

The sowing of cotton and fodder and ploughing for other kharif crops continued during the month. The season has been fair. The condition of standing extra spring crops is about above average. About average yield is expected in the case of irrigated areas, but below average in the unirrigated areas except in the villages where crops have been damaged by hailstorm. The condition of the cattle remained satisfactory on the whole. Public health generally remained satisfactory except a few cases of smallpox in a few villages of the district. The Sirhind canals have been flowing regularly.

11.—FEROZEPORE DISTRICT.

Rain was poor. Condition of standing crops is normal. Fodder and drinking water are sufficient. Public health is good except some complaints of smallpox in certain villages in the district. Sirhand canals have been flowing with a normal supply of water during the month. Rain is poor.

12.—LAHORE DISTRICT.

With the exception of a few showers of rain at Lahore and Chunian on 26th May, 1939, there was no rainfall in the district during the month under report. The condition of standing crops is average. Wheat is being threshed. The outturn of wheat (desi) is much below normal and that of wheat (improved) is almost normal. Rust damaged the wheat crop to a large extent in the district. With the exception of a few cases of rinderpest reported from Lahore tahsil the general condition of cattle on the whole remained satisfactory. The general condition of public health is good. Canals remained running with their rotational closures. The water supply was adequate.

13.—AMRITSAR DISTRICT.

The rainfall during the month was below average. The condition of standing crops is good in irrigated and average in unirrigated areas on the whole. Sowing of cotton and fodder is in progress. Condition of cattle is good. Public health is good. Canals are working by rotation and the supply of water is sufficient.

14.—GURDASPUR DISTRICT.

No rainfall during the month has been reported throughout the district except in the Gurdaspur tahsil. Sowing of rice and fodder crops is in progress. Wheat crops is still on the threshing floor in some parts of the district. The outturn is reported to be average with the exception of hail and rust-stricken areas. The condition of the standing kharif crops is reported to be average so far. The condition of cattle is generally good except that a few cases of foot and mouth and hæmorrhagic septicæmia are reported in Shakargarh and Pathankot tahsils. Public health is generally good except that smallpox is prevalent in some parts of the district. Necessary preventive measures are being taken by the District Medical Officer of Health. Government canals are running and irrigating the lands.

15.—SIALKOT DISTRICT.

No rainfell during the month under report. Sowing of cotton and fodder continued in some parts of the district during the month under report. Condition of standing crops is above average in the irrigated and average in the unirrigated areas respectively in Daska, Pasrur and Narowal tahsils while in Sialkot tahsil it is average in the irrigated and below average in the unirrigated areas. The yield of wheat which was harvested during this month remained average in the irrigated and below average in the unirrigated areas. Condition of cattle is generally satisfactory but there has been a complaint of foot and mouth, hæmorrhagic septicæmia and rinderpest diseases in certain villages of the district. Health is generally satisfactory but there has been a complaint of smallpox in certain villages in the district and of plague disease in villages Haripur and Zahura of Sialkot tahsil and Phillaura of Pasrur tahsil. The District Medical Officer of Health was informed accordingly. Upper Chenab canal with its branches is running.

16.—GUJRANWALA DISTRICT.

But for a few showers of rain in the Hafizabad tahsil the month remained practically dry. The weather however remained suitable for threshing purposes. Sowing of chari and other kharif fodder crops remained in progress. Wheat, barley and gram were harvested during the period. Their yields are reported to be normal. Conditions of standing crops is generally average to good on irrigated lands and average on unirrigated lands. Condition of cattle is generally satisfactory. Bhusa is sufficient. State of Public health is on the whole satisfactory. Canals ran by rotation. There has been no complaint of insufficient supply of canal water.

17.—SHEIKHUPURA DISTRICT.

Amount of rainfall during the month under report was at Sheikhupura 0·05 Shahdara 0·13, Nankana Sahib 0·10 inches. Very light showers still they proved beneficial to the standing crops. The season remained favourable. The general condition of the standing crops is reported to be normal. The outturn is reported to be below average. The condition of the cattle is reported to be good. The public health is good. Canals kept running rotationally.

18.—GUJRAT DISTRICT.

There was absolutely no rainfall during the month under report. The sowing of cotton and the planting of sugarcane was finished in the second fortnight and the sowing of fodder crops was begun. The condition of standing crops was good on irrigated and average on unirrigated areas. The harvesting of wheat and other spring crops was finished. The wheat was on threshing floor in some parts of the district with fair outturn. Cattle were generally in fair condition. Fodder and drinking water were sufficient every where. Public health was generally fair. Some complaints of smallpox were reported from a few villages but the Public Health Department took prompt action towards its checking. The canals remained flowing for 15 days in the month. The long closure of 15 days to effect repairs was unavoidable as reported by the canal authorities. There were, however, no complaints of supply during this month. Stocks of foodstuffs were sufficient in markets and with big zamindars. The prices have gone down by a few annas on account of the import of new grain in the markets.

19.—SHAHPUR DISTRICT.

There was a little rainfall varying from 0·04 to 0·33 at Nurpur, Khushab, Shahpur and Bhalwal raingauge stations. It was beneficial to standing crops. Cotton and other fodder crops have been sown in this month. Condition of standing crops remained good in irrigated and average in unirrigated areas. Wheat and gram have been harvested during this month. The outturn remained average. Cattle generally remained in fair condition. Fodder and drinking water remained sufficient. Public health remained satisfactory except for a few complaints of smallpox in a few villages. Lower Jhelum and private and inundation canals remained flowing with adequate water supply. Rural development scheme remained in progress in Shahpur tahsil.

20.—JHELUM DISTRICT.

There was 0·08 inches rainfall only in Chakwal. There was no sowing during the month under report. Condition of extra spring crops is average in irrigated and below average in the unirrigated areas. Harvesting of spring crops is in progress. The condition of cattle is generally good. The state of public health is good on the whole. Prices are stationary.

21.—RAWALPINDI DISTRICT.

The rainfall during the month was below average. The condition of standing crops, *i.e.*, zaid rabi is average throughout the district. The yield is reported to be normal. The condition of cattle is fair except in some villages of Gujarkhan and Kahuta tahsils where from foot and mouth disease is reported. Smallpox is being reported throughout the district.

22.—ATTOCK DISTRICT.

Rain was below average throughout the district, however, it proved useful to some extent to the standing crops. More rain is badly needed. Sowing of moth and cotton in the Fatehjang tahsil and that of maize for fooder, melons, chari and moth in Pindigheb tahsil were made during the month. The condition of standing crops is average. Zamindars are busy in threshing the wheat crop. An average yield is expected. Condition of cattle is satisfactory on the whole but foot and mouth disease is reported in 8 villages of the Fatehjang tahsil. The public health is fair on the whole but smallpox has been reported from Attock, Pindigheb, and Talagang tahsils. Fodder is procurable. Scarcity of drinking water is being felt in some parts of the district.

23.—MIANWALI DISTRICT.

There was only a small shower of rain at two stations. Rain is badly needed for the growth of extra spring crops. Condition of standing crops is average on irrigated and below average to average on unirrigated areas. Condition of cattle was generally fair excepting complaints of foot and mouth disease in 8 villages, of smallpox in one village and of pleuso pneumonia contagious in one village. Fodder is sufficient, but some trouble is being felt in Thal tract of Bhakkar tahsil. Public health remained satisfactory on the whole. Nammal canal in Mianwali and Kurram canal in Isakhel remained working during the month. Season is hot.

24.—MONTGOMERY DISTRICT.

Harvesting of rabi crops and sowing of kharif crops continued during the month. The condition of standing crops is about average. The condition of cattle is satisfactory on the whole except that cattle suffered from hæmorrhagic septicæmia and foot and mouth diseases in certain villages in the district. The public health of the district remained disturbed by the epidemic of smallpox during the month under report. 141 cases and 30 deaths took place in 40 villages of the District Board area and the towns of Okara,

Montgomery and Pakpattan. 7,260 persons were protected against the disease. The Lower Bari Doab canal and Sutlej Valley Project canals have been flowing.

25.—LYALLPUR DISTRICT.

Rain at Toba Tek Singh 0·42", at Lyallpur 0·09". Sowing of cotton and fodder continues and that of sugarcane has finished. The condition of the standing crops is on the the whole normal. Harvesting of wheat and gram is in progress. The estimated outturn of wheat is generally normal but in places it is below normal and that of gram is 40 per cent of the normal on both irrigated and unirrigated areas. There is a complaint of foot and mouth disease in some villages of the district. Fodder is sufficient. There is a complaint of smallpox in some villages of the district. It is reported that a disease causing death of rats has appeared in Chak No. 109-G. B., of Jaranwala and 187-G. B., of Toba Tek Singh tahsils. Canals are working satisfactorily.

26.—JHANG DISTRICT.

The rainfall has been below average in all the tahsils of the district. Cotton, china, chari, moth, sawanak and rawan have been sown during the month. The yield of rabi crops has been as under :—

| | *Jhang.* | *Chiniot.* | *Shorkot.* |
|---|---|---|---|
| Irrigated .. | 75 per cent .. | 100 per cent .. | 100 per cent. |
| Unirrigated .. | 70 ,, .. | 100 ,, .. | 100 ,, |

The condition of standing crops is average. Fodder is available. Public health is satisfactory except in a village in Shorkot tahsil where smallpox is reported. Canals are working as usual. There has been a little flood in rivers.

27.—MULTAN DISTRICT.

Rain at Kabirwala 0·20 inches. Sowings of chari, cotton, maize gowara and transplation of sugarcane continued. Germination is good. Condition of standing crops was generally average. Harvesting of wheat, gram, barley, peas, taramira and vegetables continued. Outturn is generally average except in hailstricken, river flooded and insect affected areas where the outturn was below normal. The condition of cattle was generally good except some villages and chaks of Lodhran, Mailsi and Khanewal tahsils wherefrom complaints of foot and mouth disease were reported. The veterinary assistants were informed direct by the tahsildars concerned to take preventive measures. Supply of fodder was generally sufficient except in hailstricken areas, etc., where it was insufficient. State of public health was generally satisfactorily except in Khanewal, Shujabad, Lodhran and Multan tahsils where from 92 cases and 26 deaths by smallpox, enteric fever and infectious diseases were reported. Lower Bari Doab canal was flowing regularly while perennial and non-perennial canals from Sutlej were running by rotation. The Haveli Project canals were also flowing but the zamindars were not satisfied with the proposed fixation and size of the outlets. The stock of foodgrains and drinking water were sufficient.

28.—MUZAFFARGARH DISTRICT.

The rainfall during the month was above average in the Alipur and Leiah tahsils benefiting the standing crops but no rain fell in the other two tahsils. Cotton, jowar, rice and moth were sown. The condition of the standing crops was average on both classes of soil. Wheat, barley and gram crops were harvested and the outturn per acre was average. The condition of cattle was average with the exception of tahsils Leiah and Alipur from where complaints of foot and mouth disease were reported. White bhusa and grazing were available. Public health is fair except some smallpox at Kot Adu. The Chenab canals are running with restricted supplies of water owing, as the Superintending Engineer explains, to a change of heads. This is causing discontentment.

29.—DERA GHAZI KHAN DISTRICT.

Rain at Taunsa 0·16, Dera Ghazi Khan 0·08, and Fort Munro 0·50 inches. It was below average and proved useful for sowing of kharif crops. Condition and expected yield of the standing crops are on the whole average. There was complaint of foot and mouth disease only in two villages of Rajanpur tahsil otherwise the condition of cattle was good. Fodder was sufficient except in pachahd tracts. There was complaint of smallpox in Dera Ghazi Khan tahsil and in only one village of Jampur tahsil. The public health was on the whole good. All the canals are flowing with sufficient supply of water. Nurdhundi and Qutabdhundi are flowing by rotation. There was no river inundation and flood from hill torrents. Prices are rising.

KATTI RAM,

SUPERINTENDENT,

*for* Director of Land Records, Punjab.
